

Ex-Turncoat Said Hijacking Engineer

Seoul—(AP)—South Korean Home Minister Lee Keun Jik said Wednesday a one-time turn-coat from the North Korean Army engineered the international hijacking of a Korean airliner with 34 persons aboard.

The North Korean Red Cross ignored a plea by the International Red Cross to help return any of the passengers taken to North Korea against their will, including two Americans and two Germans.

Mrs. Willis Hobbs, wife of the plane's American pilot, flew from Hong Kong to Korea with her two small children today in hopes her husband would be released.

Home Minister Lee said a police investigation indicated seven persons aboard the Korean National Airlines DC-3 were involved in the plot to fly to North Korea.

Lee said investigators "obtained material evidence" that the plot was headed by a former North Korean soldier named Kim Kyung.

ACHESON SPEAKS—Former Secy. of State Dean Acheson, speaking at a book-and-author luncheon in New York City, said that this would be the "worst time for many years" for the West to try to negotiate with Russia at a summit conference.
