

They'll Do It Every Time

By Jimmy Harlo

AFTER LOOKING AT 3,000 ROLLS OF WALL PAPER—THEY'LL DO IT EVERY TIME...

THANK AND A HAT TIP TO MARGE JASON, 55 ARROWWOOD RD., CHASSETT, MASS.

Surplus Fund Investments Are Approved by Medford Council

The city recorder-treasurer was authorized by the city council last night to invest surplus funds in time deposit accounts for not more than 120 days.

The money formerly was invested in 60 and 90-day treasury certificates, but interest yield on them fell below the local bank interest rates, according to officials. The action permits the treasurer to invest in either, whichever is paying the greatest interest.

Plans and specifications for construction of a sanitary sewer in the North Laurelhurst area were approved. The section, which is near Biddle and McAndrews rds., will separate the area from the Kenwood-Grandview district, providing separate improvement districts.

Agreement Approved

An agreement with California Oregon Power company was approved permitting the city to use power poles for traffic signal light supports for a five-year period.

An amendment to the traffic code requiring drivers to maintain a proper lookout was defeated. The measure was carried over from Feb. 6 when it failed to pass by a two-thirds vote.

Several segregation of assessment ordinances were approved for sanitary sewers. The segregations were necessary by property ownership changes.

Grant Lease

The council granted the Church of Jesus Christ of Latter Day Saints a lease on a warehouse on Bullock rd. near the airport. The church will pay \$40 per month rent. Manufacturing fruit box lumber is planned by the church.

Installation of a second courtesy mail box at the rear of the Holly building, Sixth and Holly sts., was approved, as was the removal of two parking meters for the box. Three meters in front of the building were made five-minute zones between 5 and 6 p.m. in an attempt to provide additional parking near the post office during rush hours.

Action on a suggestion to limit parking on Monroe st., between Whitman and Oakdale aves., was postponed until the March 6 meeting. The area is next to the high school and councilmen wanted more time to study the proposal.

Bus Zone

The council approved a bus zone on the east side of Holly st., south of the 11th st. intersection. The zone will permit school buses to park at the location.

The change in the traffic light on Main st. at Lindley ave. was approved. The light's red cycle is set to blink. The signal will operate normal during other hours. Drivers

Giant Ticket Sales Not Up To Expectations

By HAL WOOD

San Francisco — The gold mine that the Giants hoped to work when they came to San Francisco, it now appears, is going to take a lot of "sluicing."

"Our advance ticket sales haven't lived up to expectations," Peter Hoffman, Giant ticket manager, said today.

"We have a little stadium and I thought there would be a mad rush to get season tickets to assure a seat, but it hasn't worked out that way."

"So far, our advance season ticket sale totals only 2,940 — that's what we can guarantee for each game this year. That doesn't look like much compared with the 7,500 they are talking about for the Dodgers in Los Angeles."

Only One Sellout

The only game that is sold out is the first one—when the opening day crowd on April 15 will come near to bursting the walls at Seals Stadium.

Hoffman isn't discouraged. He figures that when baseball starts hitting the headlines and interest in winter sports wears off that the fans will turn their attention to baseball and start making their purchases.

Medalist Sets Golf Fray Pace

St. Augustine, Fla. — The survivors in the National Golf Club Champions tournament led by defending champion and medalist George Toms of Durham, N.C., today moved out for two more rounds.

Toms, former Duke University student, went against William Norvell, Chattanooga, Tenn., in this morning's second round. The quarter-finals were to be held this afternoon.

It took only 12 holes for Toms to defeat Rex Capwell, Racine, Wis., Thursday and the favorite was two strokes under par for the distance.

Norvell advanced with a 4 and 2 victory over Maj. Chester Thomas of Orlando, Fla.

Branch Rickey Suffers Attack

Pittsburgh — Branch Rickey Sr., board chairman of the Pittsburgh Pirates and acknowledged creator of baseball's farm system, rested comfortably today in Presbyterian hospital where he is under treatment for a "mild" heart attack.

The 76-year-old Rickey entered the hospital Wednesday night after complaining of shortness of breath. His illness developed after he returned from Washington where a two-day conference of President Eisenhower's Committee for Fair Employment Practices had been scheduled. The sessions were cancelled because of bad weather.

Coliseum Work Started Today

Los Angeles — Construction crews start work today on alterations to giant Memorial Coliseum following approval of a contract under which the Los Angeles Dodgers will play their home games in the stadium in 1958 and 1959.

The Coliseum commission approved the two-year contract Thursday making the 102,000-seat arena temporary home of the ball club pending construction of a proposed permanent ball park in Chavez Ravine.

Under terms of the contract, the Dodgers guarantee the Coliseum \$200,000 a year plus 10 per cent of the gate on nine of the 77 home games scheduled this season. The Coliseum also will receive income from concessions on nine games.

Eisenhower Sees Confidence Need To Help Economy

Thomasville, Ga. — The nation's economy is basically vigorous and will bounce upward again if we maintain a "tough-minded confidence in the future," President Eisenhower said Thursday.

Loss of such confidence is the only thing that could plunge this country into a critical and sustained economic slump, the President said in a telegram to Gov. Averell Harriman of New York. Harriman and 10 other governors wired their views on the economic situation to Eisenhower on Feb. 13.

May Go To Phoenix

Presidential Press Secretary James Hagerty indicated meanwhile that the President's week end travel plans probably would be announced today. It was disclosed Thursday that the chief executive might fly to Phoenix, Ariz., on his way back to Washington to give Mrs. Eisenhower a Western visit.

The telegram to Harriman was made public at the end of the President's first day of hunting on his current visit to the estate of former Secretary of the Treasury George M. Humphrey. The hunting party spent three hours in the quail fields and Eisenhower and Humphrey bagged three birds each.

Jacksville Council Orders Trees Removed

Jacksonville — The Jacksonville city council ordered the removal of several trees in the downtown area recently.

Removal of the trees were necessary because they formed a hazard to vehicle and pedestrian traffic, officials said. The council also approved the transfer of a beverage license of Mom's Hide-A-Way, California and Third sts.

Beck's Lawyer Planning Appeal

Seattle — The defense attorney for deposed Teamster leader Dave Beck said today he planned an immediate appeal of Beck's sentence on an embezzling charge.

Beck was sentenced to a maximum of 15 years Thursday for embezzling \$1,900 obtained from the sale of a Teamster-owned Cadillac.

The prosecuting attorney recommended that the State Board of Prison Terms and Paroles set the elder Beck's minimum sentence at three years.

Charles S. Burdell, Beck's defense attorney, said the conviction will be appealed to the State Supreme Court "as soon as possible."

Judge George H. Revelle passed sentence on Beck about an hour after Dave Beck Jr., was placed on probation for three years, also for embezzling union funds. He was convicted of pocketing \$4,659 received from the sale of two Teamster-owned Cadillacs.

The younger Beck received a deferred sentence with a three-year probation term, was fined \$2,000 and ordered to return the \$4,659 he was convicted of embezzling.

Crab Fishermen Vote To Stick To Demand

Warrenton, Ore. — Crab fishermen from Astoria, Warrenton, Westport, Chinook, Ilwaco and Bay Center have voted to stand firm on their demand for a two-cent increase in crab prices.

The fishermen agreed to stand behind their original demand despite a packers' offer of a one-cent increase to nine cents per pound.

Australia has more than three million square miles of domain and of this vast area an estimated one million square miles lie in the tropics.

America's oldest public building, the palace of the governors in Santa Fe, N.M., was built by Spanish colonists in 1610.

Richard Hill To Oppose Mrs. Green

Portland — Richard Wayne Hill, 30, a local plumbing contractor, filed his candidacy in Salem Thursday for the Republican nomination for Congress from the third district.

He seeks the seat now held by Rep. Edith Green (D-Ore.). Hill said his campaign would stress the desirability of local control of natural resource development with a preference for private enterprise development.

Hill came here shortly after his graduation from Brigham Young university at Provo, Utah. He is married and three children.
