

Children of all ages like the "creative" feeling of picking up a pure white egg and turning it into a colorful creation that represents their idea of what the Easter bunny might leave. Like students of many Jackson county school, children of Mrs. Ruth Brodstad's four grade class at Lone Pine school used crayons to decorate eggs for their Easter egg tree. Above, students Neil Shaw, Ellen Heidenriech and Patricia Haugen are shown at work on their project and at left, Larry Center seems to be having a picnic as he puts the finishing touches on a bright-colored egg for the tree.

## Only Beautyrest has Buoyant firmness

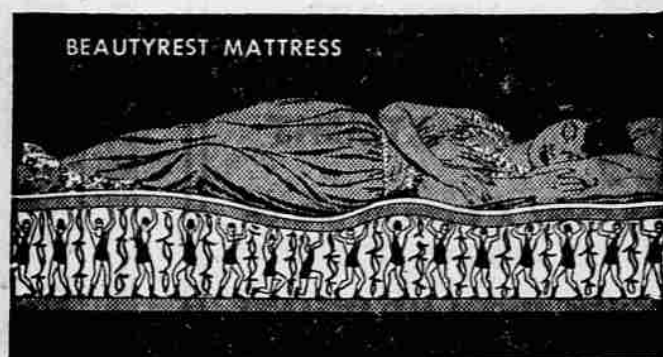

Best for your back! Best for your rest!

There's firmness that's too hard for comfort—and firmness that buoys you up. They're as different as day and night. And only Beautyrest\* gives you the buoyant firmness that's best for your comfort, best for your back, best for your rest.

That's because Beautyrest is made differently. Let the pictures on the left show you the difference:

Ordinary mattress is made with about 200-300 springs. They're wired together and sag together under your weight. You push down on them. They don't push up on you! Weak support!

Beautyrest mattress is made with over 800 separate springs. Not wired together, they can't sag together. Each spring is free to push up and firmly support your back and the weight and shape of your whole body.

Why Beautyrest at \$79.50 costs least to own

Endurance tests made by the United States Testing Co. have proven that Beautyrest lasts 3 times longer than any of 20 leading mattresses tested. That means you save money in your sleep. Even the cheapest "bargain" mattress costs far more than Beautyrest in the long run.

Firm or Extra Firm!

Today—look for Beautyrest, firm or extra firm, regular or King Size. Tonight—enjoy the refreshing rest of Beautyrest's buoyant firmness. Tomorrow—wake up wonderful!
