### Inquiries Made About Laws for Restaurants

Orie Moore, Jackson county sanitarian, said several inquiries still are being made with the county health department concerning the state restaurant law as it pertains to organizations serving food to the public.

He noted that a "restaurant" is any establishment where food or drink is prepared and served to the public. Fellowship dinners or potluck meals for members only and their personally invited guests are not considered open to the public and do not come under the provision of the law.

However, he noted, if an organization contacts another group to provide a meal for them, then the contacted group is acting as a catering service which is specifically mentioned as needing a license.

The restaurant code provides that all preparation of food must be conducted in a kitchen which has been inspected and licensed. None of the operations connected with restaurants shall be conducted in any room used as living or sleeping quarters, Moore noted.

Referring to baked food sales, Moore said as long as there is no service or eating by the public at the place of sale, the operation is not classed as a restaurant and does not come under health department jurisdiction.

### Pickin' Pears News and Notes From Camp White

By SID HOLLINGSWORTH  
April 13 will be a "red letter" day on the domiciliary calendar. Two events are scheduled, with the visit of Richard L. Roudebush, commander-in-chief of the Veterans of Foreign Wars, accompanied by a delegation of mayors and notables, followed by the second annual Pear Blossom Festival parade sponsored by the American Legion auxiliaries of this area.

National Commander Roudebush will make a tour of the station and deliver a short address in the theater at 1:30 p.m. The major event is scheduled for 6 p.m. in Hedrick Junior High school in Medford, with all service organizations represented. Manager E. K. Ricker will be presented with a citation at this time.

There will be nine floats in the wheel chair parade in front of the Domiciliary at 2 p.m. With a little more time to work on them, the floats being decorated in arts and crafts, are both attractive and substantial. As is customary, prizes will be awarded the three outstanding creations. There will be nine floats in the parade this year.

Maxine Bigelow, hospital chairman of the auxiliary, is again in charge of this attraction, held in conjunction with the annual pear blossom festival of the Rogue valley.

Assistant Manager Banks I. Paul, who recently arrived at Camp White to replace Harold Jaffrey, who transferred to Denver, officiated Friday evening at the award of prizes to winners for their exhibits in the Hobby Fair held Sunday, March 30.

The Hobby Fair this year was acclaimed the best show of its kind that has been held thus far in this annual event, arranged by the VA's to promote interest in crafts and hobbies at the domiciliary.

Last year, Bud Ash broke the ice to hold the fair in the shops where the tools and equipment could be seen along with some of the members at work at their specialties among the various classifications. This year all activities including reading, writing and sports were represented in unusual displays.

Stan Sears, recreational leader, planned the affair with the aid of his two shop foremen, George Butts and Clifford Pringle, and the technician, Milton R. Paccassi, whose poster work has amazed the members and brightened the display work since his arrival here last year.

Special mention was made of the work done by George (Archie) Wilkinson, who was not among the prize winners, but who did much to make the Hobby Fair a success.

There were 86 entries and the attendance was estimated at 2,500. The workmanship of the following prize winners was outstanding:

August Lovy, Othmar Kipper and Glenn Van Winkle, woodcraft; Estal Collier, hand weaving; Walter Griffin and Ed Bailey, leathercraft; Constantino Vocino, rugs; Frank Nelson, gem stones; Ed Peterman, metal craft, and Milton Paccassi, art.

It has been about two months since the "big change" in sections at the Domiciliary took place. The move involved the transfer of the entire convalescent Section A to the north corridor and buildings.

The engineering division had completed remodeling and finishing the three unoccupied buildings to the west. The eastern wing was occupied by Section 2, which was moved bag and baggage to the buildings vacated by A Section.

There are few veterans who have lived at Camp White who do not know Lucy Ford. She has been a friend of the veterans not only in Medford but at the Domiciliary where she worked as a food service worker. Lucy gave up her job last week and is now on the retired list. Perhaps she is more tired than retired.

From time to time, readers of this column have asked what days it appears in the Mail Tribune. In resuming publication after several months, the question of sequence should be explained not only to answer this reader interest, but to indicate just why Pickin' Pears should be published at all.

Camp White has outgrown many of the habits of thinking that inspired the early treatment of veteran news from this source in Pickin' Pears. Events at the dom now are better handled as spot news when they develop. However, the editors of the paper and the management at Camp White recognize the service to the community of this familiar recording of news as it appears to the observer, presented in this department.

So that while there may be gaps that are wider in the future, an effort will be made to have a column about every other week.

So that while there may be gaps that are wider in the future, an effort will be made to have a column about every other week.

### Tax Assistance Scheduled in City

Assistance in preparing Oregon state income tax returns before the April 15 deadline will be given taxpayers in this area by State Tax commission personnel at the commission's branch office, 321 Leverette building, Medford between 8 a.m. and 5 p.m. from April 7 to 11, inclusive, and on April 14 and 15.

Returns filed after April 15 will be subject to penalty and interest charges. Those desiring help in filing their returns are asked to bring earnings slips and other information necessary to determine the correct tax. Copies of federal returns for 1956 and 1957 are especially helpful.

A record number of refunds is expected this year because of reduction of income tax rates voted by the special session of the Legislature. In order to be eligible for a refund, the taxpayer must file a return, the Tax commission emphasizes. If a joint return is filed, both spouses must sign it, the commission also points out.

## New from ORTHO! The most amazing lawn fertilizer ever developed!

*Transforms scrawny, food-starved lawns into velvety, deep green carpets of grass*

*The Difference is in the Pellet.* By means of an exclusive process each tiny pellet in ORTHO Lawn and Garden Food contains exactly the same proportion of nitrogen, phosphate and potash. In mechanically-mixed fertilizers these nutrients often "settle out" into lumps of nitrogen, etc. The result is uneven growth, under-fed and over-fed patches of lawn. Only new ORTHO Lawn and Garden Food, with balanced concentrates of nitrogen, phosphate and potash in each pellet can give your lawn a scientifically balanced feeding, which makes for uniform green growth. And you use only half as much because of new ORTHO Double-Strength Formula.

**In each ORTHO Pellet**

**DOUBLE-ACTION NITROGEN FOR QUICK GREEN AND LASTING GROWTH**

Each ORTHO pellet contains two different kinds of nitrogen: 1) Fast action nitrate nitrogen that turns your lawn green fast. 2) Ammonic nitrogen that stays in the soil and keeps your lawn a rich green for weeks and weeks.

**In each ORTHO Pellet**

**POTASH ACTS AS A BALANCE FOR VIGOR AND HEALTH**

This vital nutrient helps the plant build sugar and glucose so important to increased resistance to plant disease. Also helps produce strong stems and vigorous growth.

**In each ORTHO Pellet**

**DOUBLE-ACTION PHOSPHATE TO DEVELOP STRONGER, STURDIER ROOTS**

Each ORTHO pellet contains two different types of this needed nutrient. One is immediately available to the roots—thus helps develop strong, sturdy root systems. The other is released from the soil gradually for long time feeding.

**ONLY ORTHO PELLETS PROVIDE BALANCED FEEDINGS TO EACH LAWN ROOT**

**ORTHOR PELLETS MADE TO BE SCATTERED BY HAND**

That's right! You don't need an expensive mechanical spreader to apply these new ORTHO pellets. Because of the exclusive balanced formula in each pellet, they can be scattered safely by hand. Then you simply water well to start immediate dissolving action. ORTHO Lawn and Garden Food pellets have a special coating which makes them free flowing. And they're clean, odorless and free from dust.

**HEALTHIER PLANTS AND SHRUBS, TOO!**

This new ORTHO Lawn and Garden Food develops your plants and shrubs as well as lawns. Regular feedings can provide longer stems, larger blooms and resistance to diseases.

**ECONOMICAL! USE ONLY HALF AS MUCH!**

This is important! With 40 units of plant food (16-16-8) you need only half as much ORTHO Lawn and Garden Food as most ordinary fertilizers. Read directions on bag carefully. A 1-lb. coffee can holds the right amount of ORTHO Lawn and Garden Food pellets to cover a lawn 200 square feet (20 ft. by 10 ft.).

**AVAILABLE IN 20 AND 40 LB. BAGS**

You'll find new ORTHO Lawn and Garden Food wherever other famous ORTHO products are sold.
