

Donovan Hurls 7 Scoreless Innings in White Sox Victory

By MILTON RICHMAN
United Press Sports Writer
The bell rings in another week and some of the real "pros" like Dick Donovan of the White Sox, already have indicated they'll come out fighting.
Donovan, a 16-game winner last year, had been taking his lumps lately and didn't like it. The Phillies raked him for

six runs in three innings on March 27 and he blew a six-run lead against the Yankees last week.
"Worried?" someone asked Al Lopez.
"Not yet," replied the White Sox skipper.
But Donovan was concerned and said so.
"Darn right I'm worried," he said, "and I'm going to

do something about it in a hurry."
Does Something
He did Sunday with a fine seven-inning scoreless stint against the St. Louis Cardinals that paid off in a 4-1 victory at Houston, Tex.
Just to add a little icing, Donovan slammed a homer and a single that accounted for two of Chicago's runs.
A pair of Red Sox pitchers Frank Sullivan and Tom Brewer, also gave evidence they are ready for the start of the season by combining in a five-hit 3-0 triumph over the slumping Tigers. It was Boston's 12th victory in the last 13 games and Detroit's sixth straight loss.
Roberto Clemente's grand slam homer in the eighth inning off Jack Urban powered the Pirates to a 5-2 win over the Athletics. Vern Law went the distance for Pittsburgh and gave up eight hits, including a homer by "slugger" Billy Hunter.

Burleson Runs Mile Fastest In Oregon Prep Track History

Salem — A Cottage Grove high school senior, 17-year-old Dyrrol Burleson highlighted the eighth annual Willamette relays here Saturday by running the fastest prep mile in Oregon history in 4:16.9.
The prep finished 20 yards ahead of Oregon's Dick Miller, who was running unattached. The mark was only eight-tenths of a second over the nationally recognized

prep mile record set by James Bowers of Villanova Prep.
College trackmen shattered six other records in the meet.

Heading the committee for the booth are Mrs. C. D. Larson, Mrs. Dan Dwyer, Mrs. Hugh Friel and Mrs. Murrey Dumas.
Auxiliary members have a number of projects through the year, including donations to various sight and blind endeavors. They contribute to the state blind institute held each summer at Salem to train parents of blind youngsters and to the Walter Dry fund for training teachers of the blind.
The Lady Lions have "adopted" a youngster at the state blind school and provide clothing and other articles for the child. Their funds also have aided two needy Medford families during the winter with purchases of clothing, food and birthday and Christmas gifts.

Neil Pulmley, ex-Medford high athlete now at Oregon State college, won the college novice shot put with 45 feet 5 3/4 inches. Phil Paquin, University of Oregon and ex-Grants Pass high took the novice pole vault with 13-8, which was four inches better than the senior division top height. Lung Cancer Test Highly Accurate

San Francisco — University of California researchers have developed a highly accurate test for lung cancer.
The test, which has proved 90 per cent effective in detecting lung cancer, will soon get a massive trial at two state prisons to make sure of its accuracy.
Dr. Seymour M. Farber, associate clinical professor of medicine, and Dr. David A. Wood, director of the Cancer Research Institute at UC, described the new test Sunday.
The method involves microscopic examination of cells shed by the tissue in the potentially cancerous area. For lung tests, the cells are coughed out of the body in sputum.
Farber said examination of minute tissue cells from the bronchial tubes of lungs reveals the structural changes that foretell cancer.
Farber and Wood examined more than 5000 patients at San Francisco hospital with this new test. They said it was 90 per cent accurate.
They said they are now trying out the test at San Francisco hospital and Fort Miley Veterans hospital. They will begin a five-year continuing examination of inmates at San Quentin and Folsom prisons next year.

Ship Obstruction In Channel Cleared

Campbell River, B.C. — The waters of Seymour narrows lay quietly over broken prongs of Ripple rock today in the wake of a record non-nuclear blast Saturday morning that ended the obstruction's career of shipwrecking.
The twin submerged peaks of the rock, situated in the middle of the busy British Columbia coastal waterway, were shaved a low-tide clearance of at least 47 feet in the great detonation, under the pulverizing impact of 2,700,000 pounds of a lethal explosive named nitromex 2H.
Short of war, it was the greatest man-made explosion of a non-atomic nature the world has ever seen.
It drew hundreds of newsmen, scientists, official observers and just plain curious to this sports-fishing community of 3500 on the east coast of Vancouver island.
