

Smith College Ups Cost of Tuition

Northampton, Mass. — Smith College is raising its total yearly cost for tuition, room and board from \$1,900 to \$2,200, effective next September.

College President Benjamin F. Wright said "Smith cannot make the necessary increases in salaries, and particularly the salaries of its teaching staff," without the rise.

Officials said that even with the increase, there will be a gap of \$400 between what a student pays and what the education costs the college.

SATELLITE 'STOCKPILE'—Pictured in Washington, D. C., are three of the aluminum foil sub-satellites which will be launched into outer space this year. The large sphere (left, rear), is a 12-foot aluminum foil balloon, which will gleam as brightly as the North Star, and will be visible to the eye at dusk and dawn. It will be the largest and the easiest to see of all the satellites for launching. On the table rests a 30-inch inflatable sphere, made from 65 cents worth of aluminum foil. Designer of these spheres, Wm. J. O'Sullivan (seated) holds a collapsed version of the 30-inch sphere in his hand. The largest object in the right background is a 12-foot "corner reflector," also designed to be launched like other aluminum foil spheres.

Rowing Hardest Part of Jaupt

Cincinnati — The hardest part of Robert Workman's daily 110-mile round trip to work is rowing across the Ohio river.

Workman who lives in Au-

gusta, Ky., is believed to be the only "sea-going" employee of General Electric's Evendale plant.

For three years the routine has been the same. He leaves his home, walks a block to the shore of the Ohio river and gets in his home-made boat.

He rows across to the Ohio shore where he joins a car pool for the 55-mile trip to work. Later he boats back home.

In good weather, Workman makes the crossing in seven or eight minutes but winter tides and high water double or triple his river time.

"I row my own boat simply because it's a lot easier than taking the ferry," he said. "The ferry sometimes is held up by fog."

His brother-in-law operates the ferry.

Providence, R. I. — For 20 years, Henri N. Morin former state insurance commissioner, and his son Paul have exchanged a single birthday card.

Grange Notes

Central Point Grange
The Central Point Grange meeting Friday night was highlighted by the presentation of several musical numbers by students of Crater High school, under the direction of musical instructor Norman Caruthers.

In addition, several readings were given by members of the school's speech class, taught by Don Lacey. The display table contained paintings done by students of Warren Holbrook's art class.

It was announced by Marshall Weidman, head of the community projects, that Saturday, April 12, will be work day at the Central Point cemetery. Those persons who have graves to tend are asked to be on hand with tools to aid the Central Point Jaycees with the clean up job.

Mrs. Bertha Bursell is reported to be improving after her illness in Eugene and E. C. Whitney was said to be recovering from the flu.

The agricultural committee reported that Greece is in need of alfalfa seed.

Gold Hill Grange
Members of Gold Hill Grange heard a report by their lecturer on the lecturer's school, held at Ashland recently, at their last meeting April 3.

The state Grange sponsors the courses for Grange lecturers. There will be two more courses offered in the state this year, one at Corvallis and a third at LaGrande.

Reports were given at the business meeting by the Grange's agricultural chairman, who stated that beef and potato prices remained high but that eggs had dropped one cent.

It was brought out that there would be a meeting of the flood control group at the Gold Hill city hall April 14 at 8 p.m.

Refreshments were served by Leona Jenks and Lena Laricks.

Shady Cove Grange
Shady Cove Grange met Saturday, April 5, in the Muxie room of the Shady Cove school with Master Ed Houston presiding.

All officers but one were present and in their places. Jerry Monical was given the obligation for the third and fourth degree. Mrs. Ruth Monical and Mrs. Edna Santos were voted to become members.

Mrs. Ed Stothers, one of the agriculture committee reported that the early flowers were blooming in the plots that the HEC and Garden clubs planted. She said the Garden club was planning a fall flower show.

Legislative Chairman Edgar Vanderlip gave a detailed report on the lumber markets and the plywood industry.

Under Community Service, Mrs. E. Houston reported that a large quantity of material was taken to Camp White for their work shop and a letter had been received thanking the Grange for its interests in their welfare. Mrs. Houston also assisted in decorating the chapel at Camp White for the Easter services.

Mrs. Cecil Kee reported on the skit her 4-H club put on for the Friendship Follies.

HEC chairman asked those who were getting sewing ready for state and national contests to try to have them ready to show at the next HEC meeting April 15 at the Edgar Vanderlip home in Shady Cove.

Mrs. Walter Cross stated she had received a number of sales slips recently.

Cecil Kee reported the need of more interest to be taken in our fire department.

Mrs. T. M. Littlefield, lecturer, and Mrs. Ed Houston, HEC chairman, attended two days of the state lecturers school in Ashland. Master Ed Houston attended one day. They each gave a short report. Mrs. Littlefield was one of the lecturers who had received recognition for her year's work, and was awarded a red ribbon.

Mrs. T. M. Littlefield said posters will be out to publicize the April 19 meeting, at which time Bill Jess and a representative from the Army Engineer corps will speak on flood control and water storage. The public is invited to come to this meeting.

Ed Stother reported on the grading, leveling and shaling of the parking lot at the school yard.

Edgar Vanderlip was in charge of the lecturers program.

At the close of the meeting refreshments of cookies and ice cream and coffee were served by Mr. and Mrs. Bert Clark and Mr. and Mrs. Reed McKay.

Della A. Littlefield,

ILLINOIS VALLEY To Disclose Tunnel Plans

By HELEN BOTTEL

Cave Junction—A newsletter sent out last week by the Illinois Valley Chamber of Commerce, urges everyone interested in the proposed tunnel for Hazelview summit on highway 199 to attend the April 11 planning meeting at the Del Norte County Fairgrounds, Crescent City.

Senator Randolph Collier, of Yreka, chairman of the California interim legislative committee which is working on highways, will be a speaker at the meeting.

California State Highway representatives will show maps and disclose detailed plans, the letter states. Not only the tunnel, but other improvement work on the California portion of the Redwood highway will be discussed.

The newsletter mentions a 275-280 acre site for a warm water fishing lake (bass, blue gills and perch) has been tentatively selected in the Illinois Valley.

The public fishing lake, with boating and swimming facilities, could be made into a county park, the letter continues. After the lake is provided by water diversion from the river, the State of Oregon will handle all stocking of fish.

Other projects on which the Chamber of Commerce has been active include getting the Oregon portion of the Redwood highway named as the No. 1 project for road improvement in southern Oregon; working with Cole Rivers of the Oregon Game Commission to establish three tentative sites for steelhead rearing reservoirs in the Illinois Valley; assisting chrome miners in their fight for extension of the government buying program, and working for curbs and sidewalks in Cave Junction.

Also mentioned was the Klamath Falls highway meeting scheduled for April 19, at which the Winnemucca-to-the-Sea road will be discussed.

If this project is undertaken as a joint effort of the three states, Nevada, Oregon and California, it will mean a speed up in improvement of the Redwood highway, as this will be the last leg of the proposed road.

California Oregon Power company will present a special safety program at the Illinois Valley High school assembly Thursday, April 10.

Safety measures required in the use of electricity will be stressed.

Mr. and Mrs. Frank Mellow and two children, Sherry and Scott, have returned to the valley from Gualala, Calif. They are living in their 50-foot trailer house on Rockydale road.

At the tenth anniversary dinner given by the 8 & 40 at Oregon Inn last Tuesday were two members from the Illinois Valley, Mrs. Hugh White and Mrs. Lee Henry.

B. B. Starr has accepted a position as manager of the Fountain Park motel on Highway 99 South, and he and Mrs. Starr are moving from Selma to their new Grants Pass location this week.

Mr. and Mrs. Clarence Martin of Cave Junction announce the birth of a grandson, Keith Elwin Martin, at Hoopa, Calif. The baby was born to Mr. and Mrs. Buster Martin (Virginia Fuller), Tuesday, March 18, and weighed eight pounds, eight ounces. Both parents are graduates of Illinois Valley High school.

Maundy Thursday was observed at the Cave Junction Community church with a devotional program at 7:30 p.m. The services, led by the Rev. Gene Denning, were climaxed by observance of the Lord's supper around a candlelit table.

Meeting place for the Zuleima Illinois Valley Nile club has been changed from Selma to the home of Mrs. Joe Ollis, River road, Cave Junction. Date for the meeting is April 22, at 8 p.m.

Winners of hams at the American Legion ham shoot Sunday were Ralph Millard, who took home three Easter hams; Bert Johnson, Cecil Slack, and Casey Pillier, all of Kerby; and Bob Nelson of Grants Pass.

"An Evening in Hawaii"

Magazine Sees Many New Houses

Chicago — Forecasts that about a million housing starts will be made in the United States during 1958 are "an outrage and disgrace," according to the American Builder trade magazine.

"Many more houses should be built to keep abreast of the housing need created by this nation's population growth, new families, demolitions and obsolescence," the magazine said.

The publication added that it was "a must" that America raise its housing aspirations in order to maintain a high standard of living.

Putting up 1,000,000 homes next year could "not be a boom," only "automatic and nothing to boast about."

The publication pointed out that the United States experienced what was then a "housing boom, in 1925 when a million houses were built.

"Since then our population has increased 55,000,000 while our national productivity, as measured by the gross national product, has quadrupled," the publication said.

A million and a half newly married couples will be looking for homes in 1958 and, they'll have a rough time finding them, it concluded.

Widening and deepening of the Kerby irrigation ditch near the East Fork bridge was accomplished recently by a crew of men under the direction of Bill Klein, president of the Kerby Ditch association.

In addition, several flumes were repaired or replaced, including one at the Dick George ranch and another at Holton creek. A ledge was blasted off near the East Fork bridge, so that improvement could be made.

Saturday, April 12, is the date set for the next meeting of the Southern Oregon Christmas tree association. If weather is favorable, a field trip to nearby tree farms will be conducted, starting at 2 p.m.

In the event of rain, members will meet at the Selma Cafe building at 8 p.m.

Actor Considers Cut As 'Family Affair'

Hollywood — Actor Anthony Franciosa today considered a two-inch cut behind his right ear — the result of a marital squabble with actress Shelley Winters — as a "family affair."

The handsome film star, a nominee for an Oscar this year, insisted he wanted no "interference" Tuesday when police called at his Beverly Hills home to inquire about reports that Miss Winters bashed him with a perfume bottle.

Franciosa was treated at Beverly Hills Emergency hospital. He said he "backed into" the bottle.

Police said Miss Winters admitted throwing the bottle when Franciosa raised his voice during a television program. Later, she backed her husband's story.

RARE TRIP FOR KING
Katamandu, Nepal — King Mahendra Bir Bikram of Nepal and his queen have accepted an invitation to tour the Soviet Union. This will be the first trip to an Iron Curtain country for the world's sole Hindu monarch. The king's only trips in recent years were to Ceylon, India and Switzerland.

Only With Your Help Can She Know Truth

Don't Let Lies Win The Battle For Her Mind!

What goes into little Marinka's mind today will affect you profoundly five or ten years from now. If she learns only the Communist "party line," your future is in danger. But she can learn the truth if you help.

Little Marinka's classes are not at all like those your daughter attends. In civics class, she learns to report on her parents' every "incorrect" political statement. Her geography teacher tells her how American troops "occupy" Western Europe and threaten the borders of her country. And in her physical education class, Marinka will be taught how to operate a rifle.

How is she to learn the facts? How will she know we want only peace? The truth can still get through to her. Because Marinka's family and millions of other oppressed

people behind the Iron Curtain can still listen to Radio Free Europe. Every day, every hour, the 29 super-powered transmitters of this freedom network are at work, overpowering Red efforts at "jamming," slashing through Red lies, renewing hope that freedom will some day return behind the Iron Curtain.

What you must do:
Radio Free Europe needs your help to stay on the air. It is a private organization supported by the American people. Your dollars are needed to help operate its transmitters, pay for equipment, supplies, announcers and news analysts. Freedom is not free! Send your truth dollars today to Crusade for Freedom, care of your local Postmaster.
