

### French Harden Tunisia Attitude

Paris — Right-wing members of the French cabinet hardened their attitude toward Tunisia today, angered because they said Tunisian President Habib Bourguiba had been "too stubborn" to reach a settlement of the dispute with France.

Premier Felix Gaillard called an emergency cabinet meeting today. The right-wing group demanded a full hearing in the United Nations of French charges Tunisia has aided Algerian rebels.

There was a possibility Gaillard and Foreign Minister Christian Pineau would seek cabinet backing for an 11th hour attempt to revive the stalemated Anglo-American good offices mission.

**PEAR BLOSSOM ROUTE**—The suggested route for motorists to view pear blossoms is shown above. The route was selected by the Jackson county agents and by Pear Blossom Festival authorities. ### Route Outlined For Good View Of Pear Blossoms

Pear trees in the Medford district are in beautiful full bloom today, County Horticultural Agent Clifford Cordy said this morning commenting on one of the highlights of the Pear Blossom Festival this week end.

Cordy outlined two routes which may be taken by those wishing to see the snowy-white blossom clusters. One route, and the longer of the two, takes blossom viewers out the Jacksonville highway to Jacksonville, left then, following South Stage rd., staying west of railroad tracks until reaching Talent. Then, across the railroad tracks and south on Highway 99 for a block, then head east again, across Bear creek and turn left. It continues north, east of Bear creek. Then, to town by way of the Hillcrest orchards and East Main st. in Medford.

Cordy outlined a shorter drive which would also provide good views of the blossom-clad orchards but would require less travelling time. It goes out East main st. to the Hillcrest orchards, then north again along Highline rd. to the end. Upon reaching the end of the road it turns left and back to Medford by way of Crater Lake highway.

Beautiful panoramic views are provided near Talent and north of the Hillcrest orchards, Cordy says.
