

Today—all over America women are discovering

No Feminine Hygiene Method Protects Like Zonitors

Gynecologist reports on new, easy, more positive method of Feminine Hygiene—provides continuous protection.

At last, science has developed a method of feminine hygiene a woman can use with confidence because it gives the germicidal protection of an antiseptic douche—but does it immediately and for a prolonged period—as no douche can. So quick and easy, this new method depends on remarkable vaginal suppositories, called Zonitors.

Once inserted, Zonitors dissolve gradually, coating tissues with a protective film which lasts for hours—and are ready to work instantly. Zonitors guard against—destroy odors completely, too—helping to maintain a high degree of comfort, convenience, safety and personal daintiness not possible with douches.

Zonitors' amazing effectiveness is due to one of the most potent antiseptic principles ever developed—the discovery of a prominent surgeon and chemist.

Doctor's Discovery—Hospital Proved! Zonitors were thoroughly tested in a large Eastern hospital. The supervising gynecologist pronounced them unusually effective,

yet safe and non-irritating. They are now available without prescription in local drugstores. Zonitors are greaseless and stainless—cost little for 12 dainty, snow white vaginal suppositories, individually packed to carry conveniently in a purse.

MAIL COUPON NOW!

Dunbar Laboratories
Mountain View, N. J., Dept. FW-4
Please send me trial supply of Zonitors and new booklet giving complete intimate facts (mailed in plain wrapper). I enclose 10¢ to cover handling.

NEW SPRAY HELPS CLEAR 10 NASAL-SINUS AREAS

Clogged by Summer Cold or Allergy!

New Antibiotic Nasal Spray Helps You Breathe Easy, Fast!

Anahist Research Laboratories, N. Y. Doctors know that summer colds or allergies cause mucus-pressure-pain in nasal and sinus passages. They know, too, that spray therapy is the fastest effective way to clear out all 10 clogged areas.

Only new Super Anahist Antibiotic Nasal Spray has this exclusive formula that acts instantly to clear out your 10 nasal-sinus passages. Congestive pressures are reduced. Head pain is relieved. You breathe easy, fast!

Super Anahist Antibiotic Nasal Spray contains an exclusive ingredient, Thonzide, that melts away clotted mucus deposits. Plus the same-type decongestants doctors use to help shrink swollen membranes and open nasal-sinus passages. Plus a special antibiotic that kills dangerous germs on contact.

Get new Super Anahist Antibiotic Nasal Spray . . . in the handy purse or pocket-size plastic squeeze bottle . . . at any drug counter. For adults and children. Also in nose-drop form.

Chenko, the

Animal Maker

Photos: Lettau from Photo-Representatives

THE PRODUCER had a problem. The lion sent by casting didn't look like a lion. It had no mane.

"Call Leo Chenko!"

A squat, happy-faced little man bounded in, looked the lion over, and took the job. A short time later, he had designed a lion's wig, and while the producer held his breath and the trainer held the lion, the wig was fitted into place—a perfect match in color and texture.

Chenko, a former ballet dancer who drifted into designing by creating costumes for his own numbers, isn't always asked to create for such realistic models. Most are beautiful dancers who dress up as animals for Broadway musicals, ice shows, and television programs (Perry Como's, for instance).

A stickler for realism, Chenko spends his free time at the zoo studying animal behavior, and he isn't reluctant to use the real thing if necessary. He can get by with brush bristles for whiskers, but for one dance involving mythological creatures he dressed the half-men-half-goats in real goatskins. Trouble is, it's beginning to affect his outlook on life.

"I keep thinking of people as different kinds of animals."

Leo Chenko and his wife get a dancer's ideas about the costume she will soon perform in.

This rabbit's suit is imaginative, but Chenko creates realistic ones, too.
