Harmful Product Of Bomb Debated

Washington — Atomic Commissioner Willard F. Libby has taken issue with an assertion by Dr. Linus Pauling that radioactive carbon 14 from nuclear tests will prove more harmful to man than other products of atomic explosions.

Libby said Tuesday carbon 14 was having "a very minute effect" on mankind.

Carbon 14 is produced in even greater quantities by so-called "clean" fusion weapons than it is by radioactively "dirty" fission bombs. If it is the hazard the California biochemist says it is, clean bombs are a worse menace than dirty ones.

Refresher Courses Given Mentally Ill

Refresher courses in business skills, taught by volunteer teachers, are helping bring mentally ill veterans on the road back to normal living. S. T. Brannock, officer in charge, Veterans administration office, Medford, said today.

Such courses are conducted by volunteers from the community for patients at most Veterans administration mental hospitals, under supervision of staff therapists, Brannock said.

Patients are relearning typing, shorthand, mathematics, accounting and statistics.

Brannock stated that several patients in the courses formerly worked as secretaries, typists or clerks.

After a few weeks in the classes, they begin to regain part of their lost skills, and more important, comprehend that they can relearn and hope to resume useful work when they leave the hospital.

As patients gain confidence in the courses, many perform tasks in the offices of the hospital, for the therapeutic value of the work, Brannock said.

Portlander Thanked For Gift To Truman

Portland — Harry Truman may run for president again when he's 90, or so he told a local man who sent him a souvenir fir tree.

John Harder sent Mr. Truman a fir and received a jocular reply from the ex-president saying the tree was being planted on the grounds of his new library.

The letter added that "when I am 90 . . . I expect to run again for president, and will look forward to resting between campaign trips in the hammock which you promised can be swung from the trees by that time." Mr. Truman is now 74.

Plans are being made for the next pack meeting which is to be a picnic shortly before school goes into summer recess.

The pack has also undertaken a newspaper collecting project as a means of raising funds to operate on.
