

Eisenhower Sees Signs Recession Flattening Out

Washington—President Eisenhower said today that the April drop in unemployment is an example of the continued and emphatic evidence that the recession is flattening out.

But the President told his weekly news conference he does not believe that the 78,000 decline in unemployment reported Tuesday warrants a conclusion that an economic upturn has started.

He noted that, with a seasonal adjustment, the unemployment figures could not be interpreted quite as favorably.

Studios Analysis
As for a possible tax cut, the President said it is a matter that both the executive and legislative branches of the government must have a very close and studious analysis of before making any real move in that direction.

In other news conference highlights, the President:

—Said emphatically that he has no intention of resigning in favor of Vice President Richard M. Nixon as long as he feels he is capable of doing the job. He said he took on the duties of the office and he is going to perform them as long as he is able.

Discusses Nixon
—Said he and Nixon are very warm friends and he admires and respects him. But the President said he has no intention of handpicking him as his successor. He said that is a matter for the Republican party. He said it has a lot of good men both in and outside government. But he said he is trying to keep Nixon as well informed about government policy and operations as he can in the event

that he should become incapacitated and Nixon would have to take over.

—Gave a flat no in answer to question whether the administration might bend some on its defense reorganization plan in light of the continued strong opposition from some influential congressmen. He went on to say that every possible concession had been made to each of the individual services before his plan was sent to Congress. He said the essentials of the plan are to his mind mandatory if the U.S. is to be properly defended and as economically as possible. Any retreat from the essentials designed for unity of military strategy would be inexcusable, he said.

Opposes Military Merger
—But he said he does not believe merger of the Army, Navy and Air Force into one service would be a good thing, even theoretically. He said it would wipe out the traditional morale and pride of the nation's fighting men in their particular individual services.

Roseburg Driver Involved in Crash
Roger Ellsworth Card 41, of Roseburg, forfeited \$100 bail Monday morning in municipal court on charges of being drunk in public after the vehicle he was operating was involved in a collision according to 10 p.m. Saturday, according to Medford Police.

Police said Card was the operator of a vehicle involved in an accident with one operated by Mrs. Thelma Marlene Madden, 29, of 905 Jasper st., Medford. Mrs. Madden and two passengers, Jennifer Lynn Madden, 16 months, and Daniel Grant MacCen, 7, were taken to Sacred Heart hospital by Medford Ambulance service where they were treated and released.

Police said the collision took place at the intersection of 12th st. and Riverside ave. Card is scheduled to enter a plea today on a citizen's complaint charging him with driving while under the influence of intoxicating liquor signed by Mrs. Madden.

In 1956, 85 per cent of all new car buyers turned in another car.

Smart Decoration
The party, headed by Frank Turnbow, Clarkston, Wash., began the 1,000-mile water trip from the north fork of the Salmon about 20 miles north of Salmon Tuesday in one rubber boat and one outboard motor cruiser.

They expect to reach Lewiston Saturday where they will join a fleet of 20 other boats and sail again on May 4. The fleet expects to reach Astoria, Ore., about May 7.

Idaho River Group Hopes To Reach Sea
Lewiston, Idaho—Four persons were battling the treacherous waters of the Salmon river in north Idaho today in an attempt to reach the Pacific Ocean.

The party, headed by Frank Turnbow, Clarkston, Wash., began the 1,000-mile water trip from the north fork of the Salmon about 20 miles north of Salmon Tuesday in one rubber boat and one outboard motor cruiser.

Girl Scouts
Scouts Eligible
The 13 members of Girl Scout Troop 163, seventh graders of Hedrick Junior High school, will become first class scouts this year, and will be eligible to attend the annual first class dinner to be held May 14, according to their leader Mrs. Glenn Bessonet.

The other troop leaders are Mrs. Robert O'Sullivan and Mrs. Jerry Ernst.

The troop will hold the annual court of awards May 27 at the Bessonet home. Besides completing at least 10 proficiency badges in the various fields of scouting, there are four other requirements to complete.

The nature and out-of-door requirement was completed April 11 and 12 with an overnight camp at McKee bridge campsite on the Applegate river. For the international requirement, the troop members had foreign pen pals; the "you and your home" requirement was covered by a standard course in first aid. The appreciation of arts requirement will be completed by a play put on by the members at the court of awards.

Troop officers are Charly Carver, president; Frances Bessonet, vice-president; and Sherry Koblick, scribe; these officers were elected in January. Other troop members are Pat Ellis, Camille Eri, Dena Griggs Sharon Mellish, Janet O'Sullivan, Peggy Reichers, Sue Snead, Patsy Thompson, Leslie Van Gordon and Sue Walker.

Hold Sale
Troop 158 held a successful baked food sale April 19 at Home Appliance store. Mothers supplied articles for the sale. Receipts went into the trip fund, which is nearly completed.

The girls are collecting old newspaper for sale, and any donations will be appreciated. The newspapers may be delivered to 412 Oak street, or donors may call SPing 2-8474 and they will be picked up.

Mary Dodge, Troop 158.

Color-festival! Bands of huck weaving add gaiety to skirts, blouses, linens, pillow-tops.

Decorate a blouse with huck weaving in all-over design; skirts with bands. Pattern 7310: charts, directions, for 4 designs about 2 1/2 to 3 1/2 inches wide.

Send thirty-five cents (coins) for this pattern — add 5 cents for each pattern for first class mailing. Send to Medford Mail Tribune, House of Arts Dept., P. O. Box 168, Old Chelsea Station, New York 11, N.Y. Print plainly NAME, ADDRESS, PATTERN NUMBER.

Send Twenty-five cents more for a copy of our Alice Brooks Needlecraft Catalogue. Two complete patterns are printed right in the book... plus a variety of designs that you will want to order: crochet, knitting, embroidery, huck weaving, quilts, toys, dolls.

36 Boys Receive Rifleman's Award At GH Meeting

Gold Hill — Awards were presented to 36 boys by the National Rifleman's association for having completed a training course in rifle safety at the Medford Armory recently.

The course was sponsored for members of the Gold Hill Junior Police organization by Mr. and Mrs. William Ganong and Richard Wright, Gold Hill.

Lessons were given by Ralph McKinsey, licensed National Rifleman's association instructor. He is president-elect of the Medford Veterans of Foreign Wars Rifle and Pistol club. Assisting McKinsey with the training course was David Schultz, outgoing president of the VFW Rifle and Pistol club. Mr. and Mrs. Ganong also are members of the club as well as the NRA.

Awards Presented
Presentation of awards was made at a ceremony in Hanby school recently by McKinsey and Schultz. Receiving awards were Willard Waterhouse, Joe Allen, Darwin Clark, Earl Miester, Mike Turner, Jim McCoy, Terry Payne, Larry Malone, Vernon Birdsong, Larry Eskew, Glen Taylor, Jim McKibbin, Howard Freeman, Herb Herman, Ike Governor, James Netz, Jack Jones, Jim Arnold, Gary Kell, David Kell, Carl Wilson, Jack Peterson, Dan Clark, Bob Turner, John Genaw, Calvin Smith, Willie Helflin, Richard Jones, Donald Brown, Curtis Payne, Charles Johnson, Louis Nickles, Bill Davis, Norman Atkins, Randy Turner and Loyd Governor.

Following the presentation of the awards, Jim McKibbin, president of the local Junior Police, presented a trophy on behalf of the club to Mrs. Ganong and her son, Richard Wright, in recognition for their efforts in sponsoring the course.

C. R. Shepard, district game agent for this area, showed a wildlife film and talked on habits of various wild animals.

It was announced that a rifle safety course, under the hunter's safety course, will be given for those in this area before hunting season begins if enough interest is shown.

Judge Main Attends Interim Meeting
Judge James M. Main, Jackson county district judge, attending a meeting of the full Legislative Interim committee on Judicial Administration in Portland Saturday, according to his office here.

Judge Main was selected as the committee's district judge representative, and was selected to head the trial court subcommittee.

Saturday's meetings consisted of a report by the subcommittee on appellate delay, and the report of the subcommittee on criminal procedure. Further meetings will be held in Portland in the immediate future which will require Judge Main's presence on a two-day basis on Saturdays and Sundays.

MOBILE LABS OFFERED
Vienna — The United States has offered the International Atomic Energy agency two self-contained and self-propelled mobile radioisotope laboratories. The laboratories were designed by Oak Ridge Institute of Nuclear Studies.

The four where states are split are Indiana, Ohio, Missouri and Montana.

All others are on standard time, the survey showed.

Grange Notes
Central Point Grange
Lecturer Lula Floux announces a good program planned for Friday night's meeting and requests a good attendance. Mrs. Effie Kurtz will bring two of her students from Medford, Kathy Barr and Aubrey Evans, who will entertain with vocal selections, and Donald Lacy, Crater High, will have students from his speech class. David Mack will speak on voter's responsibility and Bill Moore on soil and conservation.

The lecturer's program this year will be in keeping with one of the Grange community projects, that of encouraging youth in their educational pursuits by giving publicity for their successes.

The display table will be furnished by Delmar Smith, who will exhibit a hive of bees (safely caged) at work producing honey.

Grangers were happy to note that a Granger, Mrs. Edwin Gebhard, was a first prize winner in the annual art show.

Nine members of the Grange attended the Jackson County Pomona Grange meeting at Upper Applegate Grange Saturday, including HEC Chairman Mrs. J. M. Weidman; Chaplain Mrs. Chet Wendt; and Musician Mrs. Delmar Smith.

More than 20 million cars five years old or older still are in use.

Women Found Not Very Good at Job Of Solving Problems

By DELOS SMITH
United Press Science Editor

New York — A scientific investigation has verified something long suspected of women.

That when it comes to solving problems they're not nearly as good as men.

But the investigation showed this wasn't because their reasoning powers are weaker than men's, as many authorities have asserted.

William James, the great American psychologist, said "Woman is the unreasoning animal."

Women aren't much good at solving problems because they don't much care whether problems are solved or not, the investigation found.

When persuaded to buckle down to working on problems, women did quite well solving them.

Keeps Bias Out
All this information emerged from elaborate experiments with living specimens and with living men, too, designed by a female psychologist. Naturally since she is a

scientist Dr. I. Gloria L. Carey of Swarthmore College, kept her "sex bias" out of it.

Dr. Carey experimented with 12 women and 12 men. Both groups had been found to be equal in matters of intelligence, aptitudes for mathematical thinking and for expressing themselves, and in abilities to comprehend what they heard and were told.

Her first picking from testing their minds comparatively was a clear demonstration that the men really wanted to solve problems and that the women, in general, didn't.

Stimulate Interest
Then followed an experimental step which involved a well concealed effort to increase the interest of both men and women in problem solving. After that, both were given more problems to solve. The women improved a great deal, the men hardly at all.

Dr. Carey thought this showed that all women needed in order to solve problems as effectively as men, was the desire to do so. Reporting to the American Psychological association. She pointed out that women often say they're not up to it when asked to solve a problem.

Majority of Population, Minority of States Go On Daylight Saving Time
A majority of the population of the United States, but a minority of the states, are now under Daylight Savings Time, a survey showed today.

Twenty-seven states are remaining on standard time, four are split, with DST in some sections and standard in others, and 17 states are on daylight time.

The four most populous states, however, New York, California, Pennsylvania and Illinois, and all New England states, are all on daylight time, placing a majority of the population under DST.

Observance of daylight time began for most states in which it is observed the morning of April 27, and will continue into September. Others plan to go to daylight time later in the spring.

Areas under daylight time are California, Connecticut, Delaware, the District of Columbia, Illinois, Kentucky, Maine, Maryland, Massachusetts, Minnesota, Nevada, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont and Wisconsin.

The four where states are split are Indiana, Ohio, Missouri and Montana.

All others are on standard time, the survey showed.
