WHAT TO DO—Danny Collins, 10, of Glen Park School in San Francisco thought he had the answer to his freckles. . . "Freckle remover." But his mother didn't think much of the treatment. Anyway, she likes Danny's freckles.

The Hollywood Scene By HAZEL JOHNSON United Press Writer

Hollywood — (UPI) — Another county was heard from today in the rocket race to the moon — Hollywood — or more specifically, Columbia Pictures.

As producer Charles Schneer explains it, he hopes to get the life story of the West's foremost outer space expert, Werner Von Braun, on the screen before anybody gets a rocket up there.

Schneer, who will co-produce the Von Braun story with a German producer, Friedrich Mainz, did not elect to clarify just why it is necessary that this movie be in orbit before the moon is hit with a rocket.

But he did hint that film's finish may give a date or a time the U. S. will fly a moon missile.

Race Against Time
"We expect to be out next year — in 1959. And I guess you could say we're in a race to see if Columbia or a rocket is going to get there first," Schneer acknowledged.

The "race" officially began this week when it was announced Schneer's own company, Morningside International Productions, and Mainz' outfit, Rhombus Films of Munich, were co-partners in the venture.

Schneer said a bi-lingual writer, George Froeschel, had been assigned to write the screenplay which will show the rocket expert who first achieved fame while in the German army during World War II was one of 120 rocketmen who invited capture by the U. S. Army and subsequently was contracted to build rockets for this country.

Von Braun to Advise
Von Braun, the head of the team which successfully orbited the Explorer satellites, currently is the chief of developmental operation at the Army ballistic missile agency

Italy Politics Face Rocky Road

Rome — (UPI) — Italy Tuesday seemed to be heading down the political road which led France to parliamentary collapse — government by a cabinet lacking majority support.

The nation's largest party is the Christian Democrats but it failed to win a majority in last month's national elections and has been unable to draw any of the smaller parties into a workable coalition.

The party's national council met Tuesday and accepted the task of forming a minority government to run the country through the summer months. It could count on the parliamentarians' desire to leave sweltering Rome for the mountains and beaches to postpone major political decisions until autumn.

Hopes that a middle-of-the-road government could be formed were dashed Monday night when the tiny Republican party and the anti-Communist Socialist led by Giuseppe Saragat decided against joining a coalition headed by the Christian Democrats.

There was a slight chance that Saragat might change his mind but the Republicans voted to postpone their decisions until October.

MEDICINE TO THAILAND
London — (UPI) — Moscow radio said Tuesday night that the Soviet Union will fly a shipment of medicine to Thailand to help fight the cholera epidemic in that southeast Asian country. The broadcast said the serum was offered by the Soviet ambassador in Bangkok.

Ewald Makes It Easy To Tell Good Guys From Bad In Television Westerns

BY WILLIAM EWALD
United Press International
New York — (UPI) — When you and I were young, Maggie, it was easy to tell the bad guys from the good guys in Westerns: the bad guys shot to kill, the good guys were merely dressed to kill.

But nowadays on TV, it's all very William Ewald different. Some of the good guys dress like slubberdegullions, while some of the bad guys look like elegant customers of William S. Hart, Schaffner and Marx. Even worse, everybody is trying to dispatch everybody else — good guys hardly ever shoot to wound anymore.

It's to clear up the current confusion, therefore, that I have compiled the following list to help you distinguish the bad guys from good guys on TV westerns:

—Bad guys don't know how to tie knots—the good guys can always work them loose.

—Bad guys chew tooth-picks.

—Bad guys try to drink up all the water when they're on the desert.

—Bad guys drive slower horses than good guys.

—Bad guys are rarely nice to kids.

—Bad guys have a crude sense of humor which is frequently expressed by pinching dance hall girls.

—Bad guys don't shave often enough.

—Bad guys have sexier looking girl friends than good guys.

—Bad guys sell whiskey to Indians.

—Bad guys sell guns to Indians.

—Bad guys sell ammunition to Indians.

—Good guys don't make much money out of Indians.

—But good guys occasionally get to read a message from the sponsor.

Multnomah County Study Scheduled

Portland — (UPI) — The Multnomah county board of commissioners announced on Tuesday that the New York firm of Barrington Associates, Inc., will make a five month study of organizational and administrative procedures in the county.

The study will cost \$18,000. The objective of the study will be to analyze basic organization of county government.

Keith Crow, staff assistant to the board, said more efficient operations have resulted from similar studies by other governments.

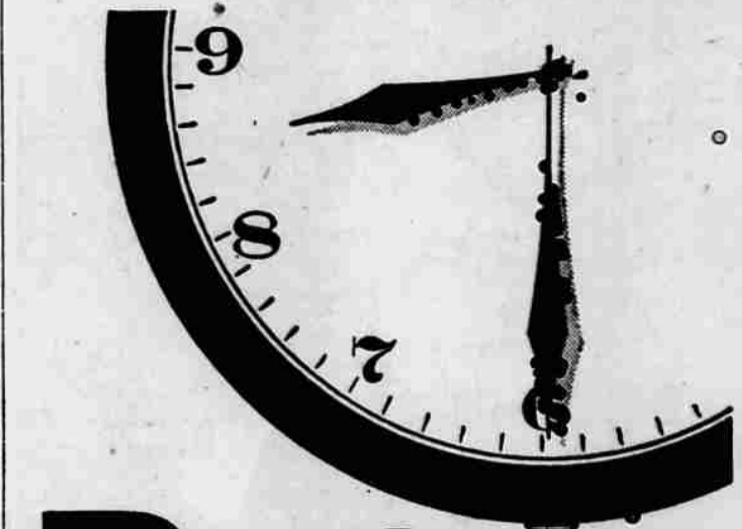

The courthouse at Eastville on Virginia's eastern shore, contains some of the oldest continuous county court records in the United States. The documents date from 1632.

Newberg Boy Gets Award From Holmes

Portland — (UPI) — Gov. Robert Holmes Tuesday night presented the Hartford gold medal to Robert Bauman, 19, a newspaper carrier boy at Newberg, for outstanding deeds in fire prevention.

The award to the Bauman youth was the top national award for 1958 and credited him with rousing a Newberg family from their burning home. The feat is described in the July issue of the Boy Scout magazine.

New York — (UPI) — Dr. Howard Suro Oppenheimer, who was a specialist in cardiology and internal medicine died here Tuesday at the age of 81. He served as chief of Mount Sinai Hospital's two medical services from 1929 to 1929.
