

Grand Opening of Big Y Drug Shop Scheduled June 27

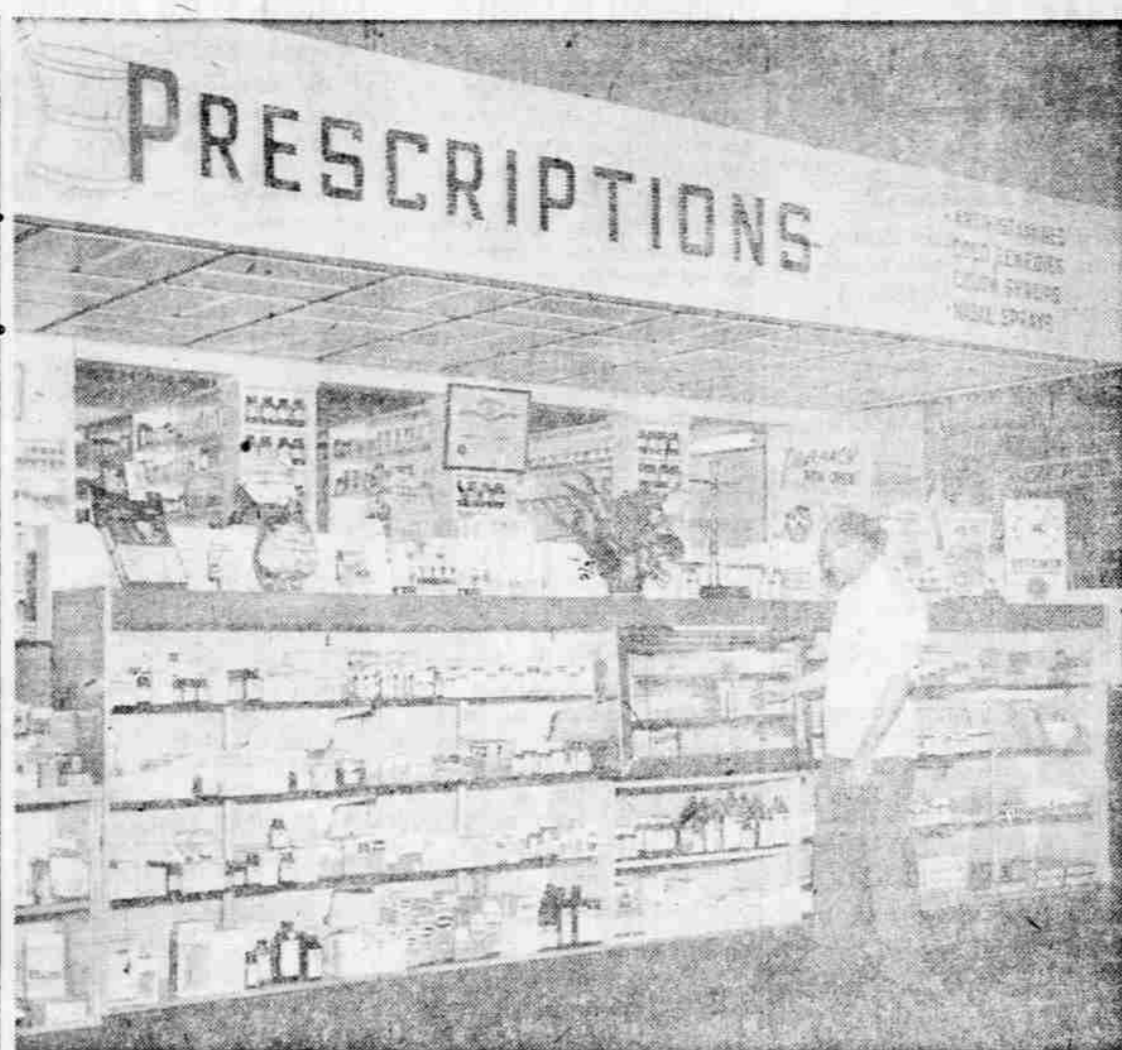

Grand opening for the new Big Y store pharmacy on North Pacific highway will be June 27, according to John Judy, store official.

The new pharmacy which opened for business two weeks ago is headed by Les Downing, Ashland. Downing is known by druggists of the area as a former representative of the Upjohn company. He has been in the pharmacy business for 17 years.

The new pharmacy which operates as part of the Big Y store will be open the same times as the rest of the store, from 8 a.m. to 9 p.m. daily except Friday when it will be open from 8 a.m. to 10 p.m.

The new department carries a complete line of toiletries, drugs and drug sundries, including complete insulin supplies in a self-service, refrigerated cabinet.

"Our department is well stocked with antibiotics, pharmaceuticals, chemicals and special products," Downing said. "No matter what your physician orders we can fill your prescription. For your convenience we also maintain a large selection of sickroom supplies."

NEW PHARMACY—Head Pharmacist Les Downing inspects some of the drugs on display at the recently opened Big Y Pharmacy. The pharmacy is part of the Big Y Super Market, North Pacific highway. The new department will maintain the same hours as the Big Y store and is designed to provide for all the needs of its patrons.

Dominica Recalls Officers, Cadets From U. S. Schools

Cuidad Trujillo, Dominican Republic—(UPI)—Thirty Dominican officers and cadets attending military schools in the United States were ordered Tuesday to leave immediately and return home.

The order, issued by the secretary of state for the armed forces, was considered a retaliation for the refusal of a U.S. Army staff school to grant a graduation diploma to Gen. Rafael L. Trujillo Jr., son of the Dominican Republic's strongman ruler.

The Dominican Congress was summoned to a special session "to consider the discussions in the U. S. Congress in connection with military aid received by the Dominican Republic and to take any decisions as required by the na-

Young Trujillo's lavish spending while in the U.S., including gifts of expensive foreign sports cars to Hollywood actresses Kim Novak and Zsa Zsa Gabor, led to criticism from some American congressmen who suggested that military aid to the Dominican Republic should be reviewed.

Trujillo was appointed chief of staff of the Dominican combined chiefs of staff on the same day the U.S.

Army announced he would receive only a certificate of attendance from the Command and General Staff College at Fort Leavenworth, Kan., because he "did not successfully complete the course."

Trujillo was appointed chief of staff of the Dominican combined chiefs of staff on the same day the U.S.

Salem—(UPI)—Vik Construction Company, Eugene, was low bidder at \$558,701 for construction of a non-ambulatory cottage and two replacement cottages at Fairview home for the mentally retarded here.

Senate Hopes For House Action On Labor Bill

Washington—(UPI)—Backers of the Senate's "moderate" labor reform bill hoped today its overwhelming 88-1 victory in the Senate would spur a reluctant House to act on the measure this year.

The bill, aimed at ending labor-management abuses turned up by the Senate Rackets Committee, was sent to the House Tuesday night after five days of debate with the blessing of Democratic leaders, the administration and Senate GOP leader William F. Knowland who had sought a stiffer measure.

House Democratic leaders had no immediate comment. They were expected to confer soon with Rep. Graham Barden (D-N.C.), chairman of the House Labor Committee who has been reluctant to act on any labor legislation in an election year.

Barden told United Press International he had not read the Senate bill and "could guess the weather with as much accuracy" as the outlook for the measure in his committee.

Rep. Ralph W. Gwinn (R-N.Y.) senior GOP member of the committee and advocate of a much tougher union-control bill predicted the committee will not act on broad labor legislation.

"Not that I wouldn't like to see a good, honest labor bill but we just don't have the votes," he said.

Jetstar Touches Distant Points In Demonstration

Edwards AFB, Calif.—(UPI)—Lockheed's Jetstar, a swept-wing jet transport, landed here Tuesday after touching "four corners" of the nation in less than 18 hours.

Actually, the plane was in the air for 14 hours and 50 minutes on its 6,700-mile home run from border to border and coast to coast at speeds averaging 456 miles per hour and reaching 686 m.p.h. at times.

Engineering Pilot Ray Goudey flew the plane at altitudes of 45,000 feet to avoid poor weather and improve the Jetstar's range, extended from a normal 1,730 miles to more than 3,000 miles with 640-gallon slipper tanks fitted over the wings.

Purpose of the flight was to demonstrate the Jetstar's potential for high speed transportation of cargo or personnel to distant points.

The jet roared aloft with Goudey at the controls Monday night at this base and sped to McChord Air Force Base in Washington in one hour and 52 minutes.

Swinging east, the plane streaked to Westover Air Force Base at Chicopee Falls, Mass., in five hours, then flashed south to McCoy Air Force Base at Orlando, Fla.

Racing westward again, Goudey brought the plane in at Edwards at 4:32 p.m. (p.s.t.), completing the run.

Average Pilot Said College Man

Lansing, Mich.—(UPI)—The Aircraft Owners and Pilots Association surveyed its 65,000 members who fly aircraft for business and pleasure and found the "average" pilot to be a college man earning \$10,906 a year who is married and has minor children.

He owns his home, an airplane or part of one, and 1½ automobiles.

The "average" pilot participates in community affairs and prefers summer vacations. He may be in the 22 per cent of AOPA members who own a boat.

Some 26,000 AOPA'ers fly more than 100 hours a year and a fourth of the members fly more than 150 hours a year.

About 87 per cent of the members have more than 100 hours of total flying time, and 32 per cent have more than 1,000 hours. One in eight has more than 3,000 hours.
