Five Per Cent Rate Hike Slated

Salem — (UPI) — Oregon shippers will pay five per cent more in railroad freight rates starting July 1 on many commodities moving within the state instead of the 12 per cent hike scheduled.

Public Utility Commissioner Howard Morgan said today the new rates were authorized on the application of W. R. Watson, tariff publishing officer of the North Coast Freight Rate bureau.

The 12 per cent hikes were granted to railroads last March. "The motor carriers did not follow the lead of the rail carriers in the rate increase cases last spring," Morgan said. "The motor carriers asked for a five per cent increase instead of the 12 per cent requested by the rail carriers. Now we see competition forcing the rail carriers to scale their rates down to the truck level."

Commodities including sugar beets, limestone, logs and wood chips were excluded from the 12 per cent increases which are still being studied by the PUC.

High Meat Prices Due To Continue

Portland — (UPI) — A prediction was made today that current high prices for red meat will continue except for a short period in the late summer and early fall.

He said pork supplies should be more plentiful this fall and that prices should be lower.
