Military Building Money Approved

Washington — (UPI) — The House Armed Services committee today approved 32 to 0, a bill to authorize \$1,743,000,000 worth of military construction. This was a \$29 million increase over the amounts the administration sought.

The bill would provide for \$1,703,000,000 for the regular armed forces and \$39,958,000 for construction of facilities for the reserves. Originally the administration asked \$1,684,000,000 for active forces and \$30,140,000 for the reserves.

The committee approved bill would permit the spending of \$347,000,000 by the Army, \$334,000,000 by the Navy, \$972,000,000 by the Air Force and \$50,000,000 by the Defense Department.

Meany Endorses Labor Reform Bill

Washington — (UPI) — President George Meany of the AFL-CIO gave qualified endorsement today to the Senate-passed labor reform bill but urged the House to eliminate certain "unworkable" provisions.

Meany said the measure was better when it originally came out of committee than after it had been amended by the Senate.

But, Meany said, "It still retains enough substantive anti-corruption sections to make it worthwhile."
