Cost of Living Up 0.1 Per Cent

New York—(UPI)—The cost of living hit a new record high again in May but the increase was the smallest of the year, the National Industrial Conference Board reported today.

The increase last month was a mere 0.1 per cent, the board said. It noted that most of the cities surveyed showed price declines. Living costs in New York City declined for the first time in 15 months.

This was the 26th consecutive monthly increase in the index. The slight May rise reflected small increases in the cost of transportation, food and sundries. Apparel prices declined and housing remained unchanged.

Federal Aid To Schools Suggested

Timberline Lodge, Ore.—(UPI)—Palmer Hoyt, publisher of the Denver Post, Thursday suggested federal aid to schools as one of several steps to improve America's education position.

Hoyt also urged state action to equalize school opportunities, better pay for teachers and a national science academy similar to the service academies.

United States To Loan Philippines Up To \$125 Million

Washington—(UPI)—The United States agreed today to extend up to \$125 million in loans to help the Philippines through a financial crisis and on to a new road of economic development.

The agreement was contained in a joint communique issued by President Eisenhower and Philippine President Carlos P. Garcia concluding Garcia's three-day mission to Washington.

Specific Projects
The loans include \$75 million in new credit from the U.S. Export-Import bank and agreement to consider specific Philippine development projects for loans from the U.S. foreign aid program "in an amount not to exceed \$50 million."

The communique said, "In view of the inability of the United States to anticipate accurately financial availabilities and relative requirements beyond the next 12 months, immediate emphasis was placed on meeting the initial requirements of the Philippine program."

Garcia asked for about \$350 million in long-term loans for public works and private industrial developments, but these were to be extended over a period of several years.

Philippine Ambassador Carlos P. Romulo hailed the results of Garcia's visit. He said: "Mission accomplished."

Other Assurances
Garcia also won these other assurances: —"President Eisenhower made clear that... any armed attack against the Philippines would involve an attack against United States forces stationed there and against the United States and would instantly be repelled."

—"The United States will continue to assist in the development of the armed forces of the Philippines, in accordance with mutual security programs jointly approved with the Republic of the Philippines."

No specific agreement was mentioned in the communique regarding the settlement of long-standing U.S.-Philippine disputes over a military

Lightning Starts Oregon Blazes

The fires were located in grazing lands in an area extending 20 miles west of Vale. Grass in the area was described as thick and dry.

Another fire burned over about 100 acres of grass and timber land near Mosier Thursday night. Fire trucks and volunteers from The Dalles and Hood River controlled the blaze. Cause of this fire was not determined.
