Hermiston Hit

By Sudden Storm

Hermiston — (UPI) — A sudden storm struck this eastern Oregon town late Thursday, causing power outages, blowing down trees, and flooding gutters.

Hermiston police chief W. A. Silvey estimated an inch of rain fell during the 45-minute storm.

Weather

FORECASTS
Medford and vicinity: Cloudy tonight. Partly cloudy Saturday with widely scattered light showers. Low tonight 50. High Saturday 78-80.
Western Oregon: Partly cloudy with a few widely scattered showers near mountains tonight. Fair and warmer Saturday except some early morning cloudiness on coast and over north interior. Low tonight 50-56. High Saturday 72-82 inland 65-70 on coast.
Northern California: Fair through Saturday but chance of thunderstorm or two in mountains and high fog on coast. Slightly warmer Saturday.

LOCAL DATA

TEMPERATURE: Mean yesterday 67.
Record high this date 100 in 1937.
Record low this date 42 in 1949.
PRECIPITATION: 24 hours to midnight, none. Midnight to 10 a.m., trace.
Total this month 2.65 inches, 1.74 inch above normal.
Total since Sept. 1, 25.53 inches, 7.80 inches above normal.
HUMIDITY: Lowest yesterday 46%, highest this a.m. 85%.

FIVE-DAY FORECAST

(Through July 31)
Western Oregon—Precipitation more than seasonal normal, occurring mostly first few days of period. Temperatures averaging below normal with rising trend about Sunday. Highs in 60s and low 70s, rising to 70s and 80s by beginning of week. Lows mostly in 50s.

Northern California—Chance of a few showers extreme north portion early in period. Temperatures below normal inland and near normal on coast.

BITTEN IN WATER

Sarasota, Fla. — (UPI) — A 15-year-old boy recovered today from a severe bite inflicted by an "unknown marine creature." The boy, Frank Mahala of Salem, N.J., was bitten Tuesday while swimming at a beach on Florida's west coast. Authorities said the animal may have been a barracuda. Doctors performed a long operation to repair damage to the leg, which was bitten twice. Some of the flesh was torn away.

Over-the-Counter Western Stocks

The following bid and asked prices on selected Western securities, provided by the Medford branch office of Pacific Northwest Company, are unofficial and do not represent actual transactions, but are intended as a guide to the approximate price range.

Christian Orphan Plan Started With Barber Shop Conversation

By LOUIS CASSELS

United Press International
Kim Kwang Hyung was four years old when a GI patrol found him lying on a

Louis Cassels Today Kim is a healthy, boisterous 10-year-old. He lives with 200 other orphans on a well-kept farm near Anyang, Korea. On his birthday, at Christmas, and several other times during the year, he receives packages of clothing, toys and food from an elderly couple in Iowa.

Kim is one of 23,000 children who have been "adopted" by Americans through a remarkable organization called the Christian Children's Fund (CCF).

CCF is the largest Protestant child welfare agency in the world. It operates or helps to operate 287 orphanages in 35 countries around the world.

All Began in Barbershop
It was founded in 1938 by a Presbyterian minister, Dr. J. Calvitt Clarke, who still serves as its international director. Clarke recalls that CCF was born in a barber shop conversation with a

Methodist missionary who recently had returned from China. The missionary noted Clarke's experience in philanthropic fund-raising, and asked: "Why don't you do something for these children?"

Clarke thought it over for about 10 seconds and announced, "All right, I will."

The organization he founded "with a prayer and a dollar's worth of stationery" has collected more than \$30 million in the 20 years since. Most of this money has gone directly to orphans in need.

CCF operates with one of the lowest overhead costs of any charitable agency in existence. Last year, about 12 per cent of its total budget went into administrative expenses, including fund-raising costs. The rest went to feed, clothe, shelter and educate orphans.

Although CCF has built some model orphanages of its

own, it has found that it is usually more efficient to "assist" orphanages already established by various Christian missionary organizations. This help includes providing them with whatever margin of financial aid they may need to improve their facilities or to take in additional children.

Must Have Medical Attention
CCF will give help to an orphanage operated by any denomination, provided it can give assurances that the children will grow up in a Christian atmosphere, with proper food, medical attention and schooling.

More than 80 per cent of CCF's funds are contributed through an "adoption plan" which establishes a direct, personal link between the donor and the particular orphan he is sponsoring.

Here's how it works:
The sponsor who may be an individual, a couple or a group such as a church school class contributes \$10 a month through CCF. This is the average cost, on a worldwide basis, of maintaining a child in a CCF-affiliated orphanage.

The sponsor indicates the kind of child he prefers to "adopt"—boy or girl, approximate age, and nationality.

He soon receives from CCF a little packet introducing the adopted child. It contains a photograph and a brief biography telling when and how the child came to a CCF orphanage, how he is getting along in school, what his interests are, what size clothing he wears.

Sponsors are encouraged to write to their "adopted" children and to send them packages if they wish. In turn, the sponsor gets letters from the child and progress reports from the orphanage.

There is no obligation to continue an "adoption." A sponsor may discontinue payments after the first \$10. But the drop-out rate is incredibly low. Last year it was less than four per cent.

Cause of the blaze was not determined immediately but John Farber, fire investigator, said it could have started from defective wiring or smoker's carelessness.

Firemen had to use gas masks to get to the blaze and masks were needed hours later to survey damage. Despite the fumes, no one was overcome.

A plant spokesman estimated loss at more than \$70,000. He said about 25 employees would be temporarily idled.

Four Alarm Fire Destroys Plant

Portland — (UPI) — A four-alarm fire early today destroyed the compressor plant of an ice and cold storage company and sent ammonia fumes through adjacent buildings and the nearby area.

The blaze, which broke out about 4:30 a.m., was confined to a basement room housing refrigeration machinery of the Northwestern Ice & Cold Storage company's Union avenue branch at 411 N.E. 3rd ave.

Firemen had to use gas masks to get to the blaze and masks were needed hours later to survey damage. Despite the fumes, no one was overcome.

Western Writers End Convention

Santa Rosa, Calif. — (UPI) — The Western Writers of America ended their 1958 convention here Thursday by awarding five golden spurs to the authors of works judged to be the top westerns of 1957.

Winners were Elmer Kelton, San Angelo, Tex., novel, "Buffalo Wagon"; Dan Cushman, Great Falls, Mont., regional novel, "Silver Mountain"; Robert West Howard, Chicago, non-fiction, "This is The West"; Jim Kjelgaard, Phoenix, juvenile novel, "Wolf Brother"; and Peggy Simson Curry, Caspar, Wyo., short story, "The Brushoff."

More than 80 per cent of CCF's funds are contributed through an "adoption plan" which establishes a direct, personal link between the donor and the particular orphan he is sponsoring.

Here's how it works:
The sponsor who may be an individual, a couple or a group such as a church school class contributes \$10 a month through CCF. This is the average cost, on a worldwide basis, of maintaining a child in a CCF-affiliated orphanage.
