

Princess Margaret Leaves Tonight For Canada Trip

London—(UPI)—Princess Margaret leaves tonight for her first visit to Canada on a super luxury plane that carries champagne, caviar and a brunette hostess to tuck her into a foam rubber bed.

The princess flies direct to Vancouver, B. C., after a brief refueling stop at Goose Bay, Labrador. She will travel eastward across Canada during her month-long visit and leave Aug. 11 by air for London.

Not To Visit U.S.
Margaret does not plan to visit the United States on this trip although she has indicated many times in the past she would like to do so. Her closest to a visit was several years ago when she flew close enough to New York City to see its lights while en route to the Caribbean.

Over-the-Cloud Feasts
She will face the prospect of at least three over-the-clouds feasts served in silver dishes on the 360-m.p.h. flight in a 90-passenger Whispering Giant airliner converted for her special use.

Margaret's 3-month-old British Overseas Airways Corp. Bristol Britannia turbo-prop plane will be in charge of Capt. James T. Percy, 49, who has been a pilot since 1932 and covered nearly two million miles in North Atlantic flights.

The crew member in closest hour to hour contact with her will be Pamela Crowther, 29.

Sal Mineo Hurt In Filming Mishap

Redmond—(UPI)—Sal Mineo, 19-year-old actor, was hospitalized here today for treatment of injuries suffered when thrown from his horse while making a movie.

Mineo will be hospitalized about three days. He suffered a severe sprain and hemorrhage in his left knee.

The accident occurred while Mineo was making a film called "Tonka" for Walt Disney Productions on the Warm Springs Indian Reservation. The horse which threw him plays the title role in the movie.

DANES HOST U.S. NAVY

Copenhagen—(UPI)—The biggest American Naval detachment ever seen in northern Europe arrives in Denmark today on a cruise for Naval Academy midshipmen. Sixteen units of Vice Adm. Bernard L. Austin's 2nd Fleet—with 9,000 men aboard—are scheduled for a week's visit in the ports of Copenhagen and Aarhus.

Trout Dumped Prematurely

Elgin, Ore.—(UPI)—Forty-five thousand tiny trout were dumped from an Oregon State Game Commission tank truck prematurely Thursday morning as the truck blew a tire and tipped on its side in a ditch near Elgin.

Fifteen or twenty thousand of the silvery creatures, ranging in size from 1½ to 2 inches long, were hastily scooped into milk cans and rushed to a nearby pond.

However, the effort may have been in vain.

"We'll be lucky to have a thousand survive due to the lack of oxygen while they were out of water," Bob Sayre, fishery agent from La Grande predicted. Sayre was in charge of salvage operations.

The driver of the truck, Dave Heckerth, a student at Oregon State College, lost control of the eight-ton truck when a front tire blew at the top of a hill.

Scotland Hangs Murderer of Seven

Glasgow, Scotland—(UPI)—Peter Anthony Manuel was hanged at Barlinnie Prison today for the murder of seven persons. He may have murdered more.

The 32-year-old New York born woodcutter, who moved to Scotland with his parents when he was four, was buried in the prison courtyard.

Manuel was condemned on May 29 after a 16-day trial in which he was convicted of seven murders. He was accused of two other murders, and suspected of others.

Although Britain largely has ended the death penalty for a single murder, the laws still provide for hanging if a man is convicted of mass murder.

Planes Seek Alaska Vessel

Juneau, Alaska—(UPI)—An air search was planned today for a 40-foot fishing vessel apparently swallowed up by gigantic tidal waves triggered by a jolting Alaskan earthquake.

At least three persons were killed, two more were missing aboard the fishing vessel Sunmore and three more believed drowned after a cabin cruiser washed up on the shores of Yakutat Bay.

Seismograph needles in many parts of the world quivered when the earthquake, described as "terrible," hit Thursday. The waves tossed fishing boats around like corks and cracked off a huge chunk of ice from a glacier and tumbled it into Lituya Bay, about 200 miles northwest of here.

Three persons picking wild strawberries on Kiantak Island were killed when the quake caused a corner of the island to plunge into Yakutat Bay.

A tidal wave alert caused families to leave beach areas of Hawaii, 3,000 miles away, but they returned when the waves did not appear.

RCMP Checking Cabbie's Story

Ottawa—(UPI)—Royal Canadian Mounted Police today tried to unravel the claim of a taxi driver that he had dropped two men believed to be armed near a golf course where President Eisenhower was playing.

About 30 extra constables were called in to beat the heavily-wooded Hunt and Golf Club Thursday after cabbie Nicholas Skowronski, 27, said the men had alighted at either end of the course. No trace of the men was found.

RCMP Inspector H. S. Cooper, in charge of security during the President's three-day visit, remained non-committal on Skowronski's story.

Skowronski, in a stuttering voice, told Cooper that one of the men was carrying "a leather case about four feet long," which "could have contained a rifle." The other had "a leather holster in his belt," he said.

White House Press Secretary James C. Hagerty, who briefed newsmen four hours after the incident, said Cooper gave "not too much credence" to the story.

Jantzen

MANN'S IS
