Hollywood Park Ends Successful 1958 Meeting

Inglewood, Calif. — (UPI) — Hollywood Park today hailed the race meeting which came to a close Tuesday as one of the more successful in its history despite the competition of the Dodgers and a business recession.

From a racing standpoint, the presence of Gallant Man made the meeting an artistic success as the English-bred colt Tuesday added the \$107,600 Sunset Handicap to his victory in the \$162,100 Gold Cup.

Last year the track set a national attendance record when 1,705,306 persons clicked through the turnstiles for a daily average of 31,006. This season the total was 1,699,801 with a daily average of 30,906, off less than one per cent and well ahead of any other track in the nation in daily attendance.

The pari-mutuel handle fell a little more than 5 million dollars below last year with \$121,589,639 wagered this year against \$127,099,699 last year, a drop of about four per cent.

Jockey Willie Shoemaker for the sixth straight year was the leading rider. By scoring a triple Tuesday he brought his seasonal total to 80.

Sunny Jim Has 84th Birthday

New York — (UPI) — James Edward Sunny Jim Fitzsimmons celebrated his 84th birthday anniversary today by arising at 6 a.m. for his daily 12-hour stint as the dean of American trainers.

"I hope to keep on working as long as my bosses want me," said the "grand old man" of racing. "I'm not ready for pasture yet."

Born the year before Aristides won the first Kentucky Derby, "Mr. Fitz" first ventured into racing on the day Grover Cleveland was inaugurated as the 22nd president of the United States, March 4, 1885.

During the past 58 years he has won just about every major stake race in the country with such famed champions as Gallant Fox, Omaha, Nashua and Bold Ruler.

Little Girl's Genuine Puppy Love Brings Change of Heart by Her Mother

Chicago — (UPI) — One o'clock in the morning is late for a 12-year-old girl to be wandering around the city, but love — especially a genuine puppy love — knows no bedtime and distance means nothing.

Renate Brahar, 12, who disappeared from her home Monday night turned up in an all-night restaurant Tuesday morning, a fox-terrier puppy cradled in her arms. Her cheeks were tear-streaked, and she was tired and dirty.

Walked About 15 Miles
Authorities estimated the weary but determined little girl had walked about 15 miles.

She held tightly to the dog and gave employees her uncle's name and address in Arlington Heights, her hoped-for destination. Her uncle identified Renate to police and gave them her family's address.

The girl left home with the puppy after her parents changed their mind about keeping the dog, given to Renate by a friend. They were planning a vacation and there was no one to take care of the dog.

A Long Trek
So Renate set out for her uncle's home with thoughts that perhaps he could find room for the terrier. But suburban Arlington Heights was a long trek for a 12-year-old.

Once back home, the girl's mother decided the puppy-love was too great to be denied. "I think we'll let her keep the puppy," Mrs. Brahar said.

MEMO TO ADVERTISERS

The Hallmark of Circulation Value

In the same way that STERLING on silver signifies a standard of known value, so is the A.B.C. emblem a symbol of integrity for the circulation of newspapers and periodicals. It means that circulation so identified is measured according to the rules and standards of the AUDIT BUREAU OF CIRCULATIONS.

The A.B.C. is a cooperative and non-profit association of 3,450 publishers, advertisers and advertising agencies. Organized in 1914, these buyers and sellers of advertising brought order out of advertising chaos by setting up standards for paid circulation and establishing rules and methods for measuring, auditing and reporting circulations.

Therefore, the work of the A.B.C., of which this newspaper is proud to be a member, provides you with a direct and valuable service. You can buy advertising as you would make any other sound business investment — on the basis of well known standards, known values.

At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of our circulation records. The results of this exacting audit show: How much circulation we have; where our circulation goes; how it was obtained; and many other FACTS that you need in order to know just what you get for your advertising dollars. This audited information is published by the Bureau in easy-to-read A.B.C. reports which are available to our advertisers on request. Ask for a copy of our latest A.B.C. report.
