

Shingle Weavers Seeking To Reach Strike Settlement

Portland — (UP) — Representatives of mill operators and striking members of the shingle weavers union locals of Oregon and Washington indicated they would try again Friday to reach agreement to settle a strike that started Wednesday.

The walkout affected some 2000 workers in Oregon, Washington, Idaho and Montana, closing about 60 mills in four states. The shingle weavers have asked a wage boost of 2 1/2 cents an hour. Industry has offered a three-cent raise.

During management-labor meetings with federal labor conciliators in Seattle, the shingle weavers agreed to accept an increase of five cents an hour across the board, but management would not agree, according to Clarence Romane, Raymond, Wash., president of the Oregon-Washington shingle weavers district council.

Members of the joint board of red cedar shingle industry met here Wednesday night but did not disclose the topics discussed or any results. Russell Fluhrer, Astoria, member of the joint board, said: "We hope to schedule a meeting with the executive council of the shingle weavers late this week. We hope the mills can be back in operation by the early part of next week."

Major mills affected by the walkout include those in Portland, Springfield, Sweet Home, Wheeler, Kelso, Raymond, Aberdeen, Quinalt, Everett and Seattle.

Nehru Would Attend Conference

New Delhi, India — (UP) — Prime Minister Jawaharlal Nehru will go to New York "only if both parties" welcome his participation in the summit conference on the Middle East and invite him to attend, officials said today.

The sources said India is not very keen on participation in the summit meeting in the U.N. Security Council. But the sources added India is most anxious that a solution to the crisis is worked out through peaceful means, and if India's participation will help Nehru would be prepared to attend the conference.

Satirist Conducts Omaha Symphony

Omaha, Neb. — (UP) — The Omaha Symphony played a singing commercial the other night and guess who led the band?

Stan Freberg. The same Stan Freberg who has made those silly, satirical records. He's making satirical, but legitimate, radio commercials now — and directing an occasional symphony orchestra.

Freberg has recently produced a series of commercials for a coffee company which headquarters here. In his long and knee-slapping commercials, Freberg features the city of Omaha.

It was only natural — well, almost natural — that Freberg would wind up leading the Omaha Symphony in a performance of his latest commercial, "The Omaha Suite," at a pops concert.

The symphony patrons are still talking about it.

Portland United Fund Goal To Be \$3,203,200

Portland — (UP) — Portland's 1958 United Fund-Red Cross campaign goal was set at \$3,203,200 Wednesday, highest in its seven-year history.

Do you know what Frankenstein said to his teenage son, "Frankie" (he always calls him Frankie)? No you can't go to The Craterian to see "THE FLY"! It's too scary even for you — it might scare the bolt out of your head!

Humphrey Opens Uphill Fight To Save Parity in Farm Bill

Washington — (UP) — Sen. Hubert H. Humphrey (D-Minn.) today launched an uphill Senate battle to rewrite an administrative-backed farm bill and preserve parity as the basis of national farm policy.

Humphrey charged that the bill, with administration blessing, would "openly abandon the objective of seeking to bring farm prices and farm purchasing power into closer relationship with . . . the rest of our economy."

In a speech of some 80 pages, prepared for delivery today, Humphrey asserted the measure was "the result of submission to what is virtually legislative blackmail—giving in to Agriculture Secretary Ezra T. Benson under the fear of otherwise getting nothing at all."

Chairman Allen J. Ellender (D-La.) of the Senate Agriculture committee, leading spokesman for Southern Democrats who favor the bill, warned as debate opened Wednesday night that unless new farm legislation is enacted this year cotton and rice planting allotments will be cut drastically in 1959 and thousands of farmers may be "driven from the land."

Ellender predicted the measure would be approved without major changes. He said its major provisions would prevent acreage cuts for rice growers, offer cotton growers a choice of relatively high or moderately reduced allotments, and give corn growers

Touring Church Members Killed In Truck Mishap

Lone Pine, Calif. — (UP) — Two members of a touring church group were killed and 12 others were injured in a truck accident Wednesday on the eastern edge of Death Valley, about 20 miles east of here.

The California Highway Patrol said a 1951-model truck, carrying 11 counselors and 17 high school students on a trip sponsored by the Ithaca, N.Y., Westminster Foundation, went out of control on a curve and skidded 200 feet. The wooden enclosure on the back was ripped off.

The dead were identified as Alfred Lee Klaer Jr., 15, and Charles Darling, both of Ithaca.

Medical aid was rushed to the crash scene by air, and ambulances from surrounding communities carried the 12 injured to the Southern Inyo hospital here. Many were in serious condition.

The Highway Patrol said the truck was driven by Floyd Leslie Downs, 22, of Schenectady, N.Y. A second truck rushed to town to report the accident.

House of Lords Admits 4 Women

London — (UP) — The House of Lords today admitted four women to membership, the first in 700 years.

The four chosen to join the hitherto all-male upper chamber of Parliament are: Baroness Ravensdale, 26, social worker whose maternal grandfather was the late L. Z. Leiter of Washington, D.C.; the Marchioness of Reading, 26, an authority on child welfare; Mrs. Barbara Wooton, former Laborite professor of social studies; and Dame Atherine Elliott, 55, widow of a Tory cabinet minister.

Princess Margaret Tours Fraser Valley

Vancouver, B.C. — (UP) — The final phase of Princess Margaret's two-week tour of British Columbia begins today with a trip through the Fraser Valley.

Friday, Margaret will receive an honorary degree from the University of British Columbia, and on Saturday she will begin her whistle-stop of the prairie provinces.

Wednesday the princess dedicated a new children's hospital named for her and opened a recreational center for the aged in suburban Burnaby.

Principal Named for Butte Valley High

Yreka — Kenneth Cleland has been named principal of the Butte Valley High school at Dorris by the board of trustees of the Siskiyou Union High school district, Dr. Here E. Hurley, district superintendent, has announced.

A graduate of San Jose State college, Cleland has been a teacher and vice principal at the Butte Valley High school for the past five years.

complete planting freedom and "stable" prices.

Sen. William Proxmire (D-Wis.), however, denounced the bill as a "fatal compromise with the administration's dreadfully wrong policy." He served notice he would join Humphrey and others in seeking amendments to save the parity principle, and raise

dairy and feed grain supports.

For cotton, rice and corn, the bill abolishes the "fair earning power" parity price as the basis for government price supports. Beginning in 1959 for corn and in 1961 for cotton and rice, the parity principle would be replaced by support based on 80 per cent of the past three-year

open market price.

Permanent price floors under the new plan would be 30 cents per pound for middling-cotton, \$1.10 per bushel for corn, 60 per cent of parity for other animal feed grains, and \$4 per hundredweight for rice.

All federal planting con-

trols for corn would be dropped.

Sen. Milton R. Young (R-N.D.) Wednesday night offered the first amendment to the bill. He proposed a four-year extension of the national wool act, now scheduled to expire next March 31, with price supports under the act to be limited to 85 per cent of

parity.

Sen. Frank Barrett (R-Wyo.), a leading sponsor of the wool legislation, indicated he was prepared to accept the limitation. Under the act, growers sell their wool in the open market and get direct government support to cover the difference between market prices and support levels.

Seventh Day Adventists Oppose Sunday Laws

Gladstone, Ore. — (UP) — Seventh-day Adventists meeting here Wednesday adopted a resolution opposing any state or federal Sunday legislation.

The resolution opposed any law that "in violation of America's historical religious freedom would force any business or other enterprise to

Pakistan To Oppose India in Conference

Karachi, Pakistan — (UP) — Pakistan, a member of the Baghdad Pact, will oppose Indian participation in any summit conference to settle Middle East differences, informed sources said today.

close on Sunday or any other day because of the religious emphasis."
