Stock List Reaches New Highs for 1958

New York — (UPI) — Stocks advanced to new 1958 highs today when U.S. Steel raised prices to conform with advances by several other companies.

Special issues made wider gains than the recognized favorites of recent sessions. Special groups, too, were given a whirl, such as the building issues, rail equipments, papers and road building equipments.

Some of the steels slipped off to net losses after they had reached new highs. The gains at their best ranged to more than a point with activity centered on U.S. Steel, Bethlehem, and Detroit Steel.

Motors held in a narrow area with General Motors active and at a new high for the year.
