SAFEWAY

Wealthy Drug Executive Slain By Mystery Shots

Indianapolis, Ind. — (UPI) — Forrest Teel, 54, handsome and wealthy internationally known executive of a big drug concern, was shot to death in a mystery slaying as he drove his white automobile in the early morning darkness near his fashionable home today.

Teel, an executive vice president of Eli Lilly and Co. and veteran of many years of service with the firm in South and Latin America, was killed by three bullets apparently fired from another car as he drove his expensive car down the street.

No Answers Given

Police said Teel lived for 15 minutes after they arrived. They said they asked him repeatedly for information which might have led to his assailant, but he did not answer questions. Officers implied he might have been able to name his slayer had he chosen to do so.

Detectives sought a blue and white auto which witnesses said was seen parked beside Teel's new car shortly before the shooting.

Capt. Michael Smiley of Indianapolis homicide division refused to speculate on a motive.

"We haven't been able to establish anything yet," he said, "except that the motive was not robbery."

Wallet on Body

Teel's wallet, containing \$210, was found on his body.

Teel formerly lived in Cuba and Colombia and traveled widely in South and Latin America for Lilly. He was recognized as such a good salesman and executive early in his 32 years of association with Lilly that he advanced to president of Eli Lilly International Corp., a subsidiary, and later chairman of the subsidiary's board.

Witnesses said two persons were in the car from which the shots were believed to have been fired.

Police said Teel was shot three times, in the throat, abdomen and left side.

Teel's car veered out of control after the slaying and crashed into a utility pole.

South Dakota Nation's Center

Heart of the Nation, S.D. — (UPI) — South Dakotans were pleased and proud today to learn the new geographic center of the United States is in their own back yard, even if they aren't sure how to get to it.

The new center of the nation is located in rugged ranch country near a butte called Two Top Peak, about 11 miles west of Castle Rock, S.D.

In the last census of the area, Castle Rock had a population of four persons.

The U.S. Coast and Geodetic Survey computed the new center in anticipation of the addition of Alaska to the Union. The present center is located near Lebanon, Kan.

State and local officials were a bit skeptical of making the site a tourist attraction, once they located it on their maps. Finding the spot on a map is difficult enough, let alone reaching the twin-topped butte by conventional transportation.

The land is owned by Dave Kingborn, a retired rancher who lives at nearby Belle Fourche.

Onion Futures Measure Delayed

Washington — (UPI) — John Jones, legislative assistant to Oregon Sen. Richard Neuberger (D-Ore.), today advised agriculture officials that the Onion Futures Trading Bill is being held up in a Senate-House Conference Committee. He said it may not receive favorable action this session.

Jones said the two committees held a conference in Washington to review the already Senate-passed bill, but parts of the House bill seem to have caused an impasse.

Jones suggested that persons connected with the onion business immediately send telegrams to Rep. Harold Cooley of North Carolina, chairman of the House Agricultural Committee, protesting the delay.

REVIVAL TOO NOISY

Galveston, Tex. — (UPI) — Pentecostal Preacher C. T. Carroll was fined \$20 Wednesday for disturbing the peace during a revival service. Police said he was making too much noise.
