National Forest Receipts Total Over \$46 Million

Portland — (UPI) — Receipts from 19 National Forests in the Pacific Northwest Region from livestock grazing, power and other land uses totaled more than \$46 million in fiscal 1958, according to Regional Forester J. Herbert Stone of the U.S. Forest Service.

That was a decrease from the \$56,500,000 received during fiscal 1957.

The leading forests were: Willamette, Oregon, \$8,264,083; Siuslaw, Oregon, \$5,208,692; Gifford Pinchot, Washington, \$5,092,562; Olympic, Washington, \$4,070,077; Mt. Hood, Oregon, \$3,048,563; and Mt. Baker, Washington, \$3,008,265. Three other forests had receipts of between \$1 and \$2 million.

Money Returned

By law, 25 per cent of the receipts from National Forests is returned to the states for distribution to the counties in which the forests are located, in proportion to the acreage therein. Actual payments to the counties will be made after final verification and audit has been completed. The counties will share about \$11 million. The law earmarks the money returned to the counties for the benefit of public roads and schools. The five counties which received the largest amounts from last year's receipts in Oregon were Lane, Douglas, Linn, Klamath and Clackamas.

In Washington, the five leading counties were Skamania, Jefferson, Lewis, Whatcom and Clallam.

Contribution Told

Stone said: "In addition to the money that is retained in the federal treasury and that returned to local governments, the national forests contribute to the local welfare through investments and permanent improvements, payrolls, and through furnishing such vital resources as water, recreation and wildlife."

Lakeview Mining Hearing Postponed

Lakeview — (UPI) — A surprise move on the part of local members of United Mineworkers of America, District 50, Thursday delayed injunction hearing scheduled in the Circuit court of Judge Charles Foster.

Shortly before the hearing was due to begin, union members, defendants in an action brought last week by Lakeview Mining Company, filed a motion seeking to disqualify Judge Foster.

The judge said he had no prejudice in the dispute but that he also had no choice but to notify the Oregon Supreme Court so that a substitute judge could be named.

Show Cause Order

Today's hearing was a postponement of one set Monday morning when the union was to show cause why it should not desist from picketing the White King uranium mine owned by Lakeview Mining company.

Prices To Farmers Down One Per Cent

Washington — (UPI) — Prices farmers received for crops and livestock fell four-tenths of 1 per cent in the month ended July 15, the Agriculture Department reported on Thursday.

This was the second consecutive monthly decline in farm prices. The cost of production and living supplies purchased by farmers remained the same as the previous month.

Farmers' returns in mid-July averaged 83 per cent of parity. This compared with 84 per cent in mid-June and 93 per cent in mid-July a year ago.
