

### Segregationist John Kasper To Get Out of Jail

Atlanta—(UP)—Federal authorities, pulling an "end run" on followers of John Kasper gathered in Tallahassee, Fla., will release the segregationist today from the Atlanta Penitentiary instead.

While Ku Klux Klan figures and hard-core segregationists were drawing plans for a "welcome out" party, prison officials quietly removed Kasper from the Tallahassee prison and brought him to Atlanta. This was done, they said, to "avoid possible demonstrations."

Kasper now lists his hometown as Nashville, Tenn., and the government is furnishing his transportation there from Atlanta.

Kasper drew a one-year federal term for failing to obey an anti-segregation order at Clinton, Tenn., where he was ringleader of resistance to integration of the high school in the fall of 1936. Four months were cut off his sentence for good behavior.

Legal trouble is not over, however, for the 28-year-old New Jersey native who once fraternized with Negroes in New York's Greenwich Village. He is still under \$1,000 bond on another charge filed in Clinton. He also faces charges of inciting a riot last year when the first grades of Nashville, Tenn., city schools were integrated.

### Portland Building Projects Slowed

Portland—(UP)—The Portland City Bureau of Building reported Thursday that the heavy construction dispute has brought a slow down in new building projects during the month of July.

The bureau reports that for the first time since the building boom got underway in the spring, building permit volume fell below the 1937 level in July.

The bureau said several large projects are pending but contractors are apparently unwilling to tie up money in permits due to the uncertainty of the labor situation.

The July bank clearings figures also reflected the slow down. The July total of \$894,125.145 fell below the 1937 total for this month.

### Adams Turns Down Testimony Chance

Washington—(UP)—Rep. E. Edward Hebert (D-La.) disclosed Thursday Presidential Assistant Sherman Adams turned down an opportunity to testify about charges he exerted improper influence in an Army textile contract dispute.

Hebert, chairman of a House armed services subcommittee investigating the case, told reporters Adams sent him a letter Tuesday saying his appearance would "serve no useful purpose."

Hebert said Adams' letter was in response to one he sent Monday. He said his letter did not constitute an invitation to Adams, but cited testimony mentioning Adams name and House rules giving persons whose names figure in such hearings a chance to testify.

### GI Who Hid in Home of French Girl Sentenced

Verdun, France—(UP)—Wayne E. Powers, 37, the GI who hid in the home of a pretty French girl for 14 years, today was sentenced to 10 years at hard labor for deserting his unit just before the 1944 Battle of The Bulge.

It was generally predicted, however, the Chillicothe, Mo., ex-farmer will wind up serving only a few months, and will be permitted to rejoin his sweetheart and the five children he fathered.

"Negotiated Plea" Powers entered a "negotiated plea" of guilty at opening of a U. S. court martial here.

The sentence is subject by review by Army officers who can lower it drastically.

It was believed Power's final punishment will be lenient because of the length of time that has elapsed since he left his unit.

All five children and their mother were in court.

Powers himself expressed the belief that he would be reunited with the plump, dark-haired mother of his children within a few months. The prosecutor had demanded a maximum sentence for Powers.

Evaded Detection From 1944, when Powers left his unit, before the Battle of the Bulge, to 1958, he successfully evaded detection in the home of Yvette Bluet, a French girl, at Mont D'Origny, a village 70 miles north of Paris.

They had met while Powers was trucking supplies for the U. S. First Army near the Belgian border.

Milwaukee, Wis.—(UP)—Eight cars of a northbound Milwaukee Road passenger train overturned south of Milwaukee Thursday and four ambulances were sent to the scene.

### Try and Stop Me

By BENNETT CERF

TRICK RIDER Haggerty was the big star of a rodeo, and the crowd always roared its approval when he climaxed his act by galloping up to his handkerchief and picking it up with his teeth. One night, however, he swung low from the saddle, and galloped by in a cloud of dust—but the handkerchief remained right where it had been placed. Haggerty had missed!

The crowd sat in stunned silence, but the rodeo announcer refused to acknowledge defeat. He had a hasty whispered conference with Haggerty, then boomed through his megaphone, "Mr. Haggerty will now perform a feat never before attempted. Riding back he will pick up not only that handkerchief—but his teeth!"

W. Somerset Maugham prefers small parties. "Four is a wonderful number," he decrees. "Six is all right, and eight will do in a pinch. After that it's not a party; it's a rabble."

### Blimp On Way To North Pole Delayed

Akron, Ohio—(UP)—Officials said today a Navy blimp en route to the North Pole for Arctic experiments would be held here at least another day pending improved weather conditions.

The blimp, carrying 14 crew members and scientists, was detoured here by bad weather over Canada. The craft was landed Thursday after remaining aloft Wednesday night until landing crews could be assembled.

### Lumber Shed, Truck Burn at Portland

Portland—(UP)—A lumber shed and a truck were destroyed by fire here late Thursday.

Employees of the nearby G & W Furniture plant said the shed was ignited by a fire which they saw along the railroad tracks south of there. Firemen, however, said they were unsure which fire started first.

There was no estimate of loss and there were no injuries.

The long one-story frame shed was completely destroyed at the east end and gutted at the other end. The four alarm blaze was controlled in half an hour.
