Hay Fever Patients now open Nose-Sinus Zone with New 3-Layer Tablet

Clear, free breathing restored in minutes as
congested nasal zone is decongested—
stops sneezing, watery, itching eyes

Chicago, Ill. (Special) Observers here are hailing a remarkable new advance against the most unrelenting misery of hay fever—congestion in the nose-sinus zone.

A way has been found to decongest this congestion. This is the central fact which has aroused so much interest on the part of hay fever sufferers who have never found satisfactory relief from other medications.

Up to now, nose drops, eye drops, inhalers, sprays and antihistamines have given some measure of relief. But today you can expect much more complete comfort. This new compound reaches all the congested nasal areas from all sides, through the blood stream. It opens stuffed-up, blocked nasal passages. Free breathing is restored in minutes. Stops unpleasant sneezing; watery, itching eyes are cleared.

to combine the special ingredients which make this formula so amazingly effective. Among them is a new decongestant substance so effective it has become the single ingredient most prescribed by doctors for relief of congestion in the nose-sinus area.

Available without Prescription

Now available without prescription—this new 3-layer tablet is called Dristan®. Its unique combination of ingredients—(1) opens up blocked breathing, (2) stops unpleasant sneezing, (3) clears red, watery, itching eyes. At the same time, Dristan helps the body meet the great demands put upon it by the stress and strain of hay fever, and bolsters the body's resistance to infection.

Hay fever sufferers who want faster, more complete relief than they have ever before obtained are advised to try Dristan Decongestant Tablets—satisfaction guaranteed, or money refunded.

New Tablet Discovery

It took a new kind of tablet—made in three separate layers—
