HORN BROOK Residents Make Trips

By KATHERINE CHAPMAN
Hornbrook — These summer days find a number of Hornbrookers on the go and far-a-field.

Returning last week from a camping trip as far south as Truckee, Calif., was Fred Mills, who tried out the camping trailer he built himself during the winter months.

Others arriving home last week were Mr. and Mrs. Harry Chapman. A 17-day motor trip took them through northern California, across Nevada, into Utah, southern Idaho and eastern Oregon.

Enroute they drove through Lassen national park, spent two days at Zion national park and also drove to Cedar Breaks national monument, and through Bryce national park. In Reno, they visited with friends, Mr. and Mrs. Gene Houston, former Hornbrook residents.

During their stay in Salt Lake City, they attended the CBS Sunday morning broadcast of "Music and the Spoken Word," and two other organ recitals, all at the Mormon tabernacle. A Gray line sightseeing tour took them to the Utah State capital building and other points of interest in the city. They also spent a week with their daughter and her family, Mr. and Mrs. E. R. Burtner and four children at Mountain Home, Ida., where Burtner is stationed with the Air Force.

A vacation with a true Western flavor was spent by a group of friends last week. The group included Mrs. Frank Cardoza, Jeanie and Frankie Cardoza and a friend, Gary Ramos, of San Jose, Calif., Mr. and Mrs. Loran Paine and son, Lornie Jr. and Loran Cummins and son, Loran Howard.

Leaving Hornbrook Friday, July 25, with nine horses and a truckload of gear, they drove to the Marble mountain primitive area, where they made their headquarters at Kelsey creek. From here they rode to Skyhigh lake, and made a side-trip to Kuddily lakes.

Fishing was good in all the lakes and creeks, and an advantage of their camp site was a built-in freezer in the form of a snow-bank in which they stored their daily catches, and fresh meat and supplies.

But in spite of the nearness of snow and snowbanks, the water was warm enough for swimming, and a dip in the lake was a part of each day's program. The group returned Saturday evening, Aug. 2, and all reported it was fun to "rough it" once in a while—but it was also good to get back to some of the conveniences of modern civilization.

Bob Paine, older son of Mr. and Mrs. Loran Paine, is spending the summer with a survey crew of the engineering department of the U. S. Forestry service at Happy Camp. He spent this past week end at home, where his grand-father, Roscoe Conklin, of Van Nuys, Calif., is spending the balance of the summer.

Mrs. Loran Cummins and Loran Paine took two carloads of boys and their gear to the Boy Scout camp at Lake of the Woods on Sunday.

Spending the next week at

Local Companies Of Army Reserve In Exercises

Headquarters company of Medford and E company of Grants Pass, members of the 2nd Battalion, 413th Inf. of the 104th "Timberwolf" Army Reserve Division, are participating in field exercises at Yakima Firing Center, Washington.

The local unit, commanded by Lt. Col. Roberts A. Elliott of Medford, arrived at camp Sunday evening. The advance party under Lt. Barton Garred arrived Thursday.

The local unit is camped at the Coffin Ranch site with the remainder of the 413th Infantry regiment. The division is functioning as a self supporting unit, with the local men filling their normal job requirement. E company of Grants Pass, commanded by Lt. Richard De Armond, is training in the field and responsible for instruction in the 60 millimeter mortars.

Second Battalion is operating a separate motor pool directed by Sgt. Ted Botefur and also is operating a field mess hall for both first and second battalions with Sp-5 Carl Keith as mess steward.

Immediately on arrival at camp, Lt. Robert Kelley, the adjutant, and SFC John O'Hara, battalion sergeant major, started to take care of all unit correspondence and reports.

During the first day of training, Major Glen Allen, the battalion executive officer, gave 60 millimeter mortar gunners tests to the regimental mortar men. Local men placed especially high in these tests. The unit will remain at Yakima until Aug. 10, when it will return to southern Oregon.

Later, the line of questioning switched to the entire diocese of Fushun and the work of Maryknoll in Manchuria. They wanted to know statistics on converts, the number of mission out-stations, and the names of clergy, religious and seminarians. I gave them as many wrong answers as I could. But they kept pressing me for more.

Rubber consumption in the United States amounts to about 20 pounds per person each year which is far more than the world average of only about one pound per person per year.

The average supermarket contains more than one-half mile of shelves and cases. It stocks more than 5,200 items.

Bank Debits Show Slight Upturn

University of Oregon — A slight upturn in business in Oregon was evidenced in the bank debit reports for June. A total of \$1,660,602.374 was tallied by the 167 reporting banks and branches. This was up over the previous month by 0.9 per cent and up over June, 1957 by 3.2 per cent.

Bank debits, which represent the dollar value of checks drawn against the deposit accounts of individuals and business firms, are generally regarded as good indicators of current business activity. The University of Oregon's bureau of business research collects the debits monthly from banks of the state.

The 11 banks of the Southwestern Oregon counties of Curry, Jackson, and Josephine showed a total of \$66,986,923 for a gain of 2.2 per cent over May, but a loss of 3.5 per cent from June, 1957.

of the Bears, and Scott is Chief executive of the Portland branch of the U. S. Coast Guard.

The two men, friends since Boy Scout days were enroute to Alameda, Calif., for two weeks' active training at the command school.
