

DISPLACING 5,900 TONS, nearly twice as much as Nautilus' 3,000, atomic submarine Triton, ready for launching at Groton, Conn., is world's largest. Bottom submarine is Skipjack, fastest undersea craft of all time. She is 250 feet long, displaces 3,000 tons.

Lacy Home Said A Total Loss

Central Point — The large two-story residence of the Don Lacy family at 43 Amy st. was described by firemen as "practically a total loss" following an early morning fire on Sunday.

The blaze appeared to have originated in a closet under a stairway, possibly from spontaneous combustion, according to firemen, who estimated that 75 per cent of the interior was gutted.

The Lacy's were forced to escape from an upstairs window because the stairway was blocked. Lacy reportedly made his way to the ground by way of a large shrub and got a table to stand on. Mrs. Lacy handed the youngsters out the window and then was helped to the ground, herself, it was said. Lacy then entered the house and telephoned the alarm about 3:10 a.m.

Flames were coming through the roof when firemen arrived. Fire spread through the upper story and considerable smoke and water damage occurred throughout the structure. Firemen indicated that the family managed to salvage little of its possessions. Three trucks were dispatched to the scene and 22 volunteer firemen fought the blaze.

TOO HOT A PACE
Miami — (UPI) — Mrs. Dixie Mossler had a hot typewriter Tuesday. Mrs. Mossler, secretary of the county school superintendent, was working extra fast to catch up on office correspondence when her electric typewriter caught on fire.

PROMOTED — Paul Morgan formerly assistant commander of district three for the state police was promoted from lieutenant to captain on Aug. 15. He is to assume command of operations in District 3 on Sept. 1, it was reported. Morgan came here from Roseburg May 15, 1947 as a lieutenant. He entered the department on Aug. 1, 1931 at Cottage Grove.

NEW ASSISTANT — Earl W. Tichenor will report to the Medford state police office on Sept. 1 and is assigned as assistant commander of District 3, it is reported. He comes here from Milwaukie, Ore., where he has been working as a lieutenant in the arson division. Prior to that he was working in the Klamath Falls office as a sergeant. He entered the department on March 18, 1936 at Milwaukie.

Seven Killed in N.M. Car Crash

Gallup, N.M. — (UPI) — Seven persons were killed and four injured early today when two cars, one of them apparently homeward bound from vacation, collided head-on about 40 miles east of here.

State police said one of the cars was from Las Animas, Colo., and the other from California.

Five persons were killed outright in the crash on U.S. 66 about a mile west of the little oil refining town of Pre-witt, 15 miles east of the Continental Divide.

Two more died in St. Mary's hospital here. One of them was identified as Eugene Sanchez, 6, Las Animas. The other was a woman, as yet unidentified.

Also identified thus far were the drivers of the two cars, Daniel Perez Sanchez, 47, Los Animas, and H. G. Brags, no address, but the driver of the California vehicle.

Brags was impaled on the steering wheel of his car, a 1949 model, which flipped and landed upside down in a ditch alongside the road.

The Sanchez car, a 1955 model, was left crumpled in a heap in the middle of the highway.

The other dead, as yet unidentified included two adults one of them a woman, and a baby.

Hiker Rescued From High Ledge

Yosemite, Calif. — (UPI) — A young hiker was rescued today after being stranded overnight on a ledge high above Yosemite valley near Glacier Point.

National park rangers descended the sheer wall below the point, scene of the park's famed firefall at night, to get near the hiker. Bill Beeghley, 17, Long Beach, Calif. It was a daring feat accomplished by a quintet of rangers using ropes.

The rescue party dropped a rope about 150 feet to Beeghley, who tied it around himself and was hauled up from the tiny ledge. He had hiked to the point Tuesday with a group of other youths but became stranded when he attempted a short cut alone on the return trip.

After being hauled to the ledge, the rescue party began the perilous ascent back to the point. More rope was dropped to the party because the rangers were forced to "burn their bridges" while making the descent without sufficient line.

Beeghley was trapped about 1,500 feet above the valley floor. Rangers said he was in good condition despite his ordeal.

Man Finds Side of House Painted

Salem — (UPI) — When Wendell Willmarth, business manager of the Statesman-Journal here, went home from work there, he found something different about the looks of his house.

One side had a fresh coat of green paint.

A commercial painter had gone to work on the wrong house and should have been painting a place four doors away. Even his estimate had been based erroneously on the Willmarth house.

Willmarth now is debating whether to have the green wall recovered with white paint—or to have the painter go ahead and finish the green paint job.

Transient Sentenced For Petty Larceny

Ashland—Cletus Clyde Pullen, 24, transient, pleaded guilty in Ashland municipal court today to petty larceny and was sentenced to 30 days in jail, according to city police.

Pullen was charged with taking 15 pairs of socks from the Ben Franklin store in Ashland. He later admitted to authorities that he had run away from a Missouri institution.

Vermouth has a base of white wine fortified with alcohol and then aged a year or more in wooden casks.

Improving following injuries received in recent accidents. Steven is still in the hospital with serious injuries.

American Sailor Killed in Istanbul

Istanbul, Turkey — (UPI) — American sailor Larry M. Davis, 21, of Weaton, Ill., died from internal bleeding at a hospital here Tuesday following a pitched battle between Bluejackets and a dozen Istanbul taxi drivers.

Turkish authorities were holding four of the drivers for investigation of the incident.

A preliminary hearing was held that Davis and five buddies, on a late liberty at Istanbul night spots got into an argument with a taxidriver over the fare and that about a dozen drivers in the downtown Istanbul area joined in.

About 34 per cent of the eyeglasses worn by American men and women are of the bifocal or trifocal variety.
