

A compromise farm bill has passed both houses of the congress and is awaiting President Eisenhower's signature as this is written.

The new law will permit basic crop price supports to reach their lowest level in 20 years and will cancel scheduled cutbacks in cotton and rice planting allotments next year. (That is to say, it will permit MORE ACRES to be planted to cotton and rice.)

The bill is generally regarded as a major victory for Secretary of Agriculture Benson, and President Eisenhower, who has consistently backed the policies of Secretary Benson, is expected to sign it.

THE significant fact in connection with the new law is that it has the approval of rice and cotton farmers, who would rather PLANT MORE ACRES TO RICE AND COTTON, even if the result is lower prices.

HERE in Southern Oregon and Far Northern California, we have a special interest in this new law.

We grow no rice. We grow no cotton. But we DO grow potatoes, barley, small seeds, etc. For years, these have been staple crops in our area. Our soil and climate are favorable to them. These crops are our specialties.

But— As rice and cotton — not to mention wheat, peanuts and tobacco — have been reduced in acreage in order to hold down total production so that the subsidy-promoted surpluses won't swamp us totally — the growers of these so-called basic crops have tended to put into potatoes, barley, small seeds and so on the acres that have been taken out of these crops.

The result of it all has been heavily increased competition for our specialty crops.

**Arkansas Gazette Receives Award**

New York —(UPI)— The Arkansas Gazette has won the 1958 Freedom Award of Freedom House for bearing "the brunt of the struggle for law and order" during the school integration crisis in Little Rock.

The newspaper, which won a Pulitzer prize for its handling of the integration crisis, was selected for the award by a national committee on behalf of Freedom House, founded in 1941 to promote the goals of a free society.

Whitney North Seymour, chairman of the board of Freedom House, said Wednesday that a bronze plaque will be presented to the Gazette by Federal Judge Harold R. Medina at the organization's annual dinner Oct. 14 at the Hotel Waldorf-Astoria.

**Coast Guardsman Dies In Multnomah Accident**

Portland —(UPI)— Larry Francis Saylor, a 19-year-old Denver Coast Guardsman stationed in Seattle, was killed early today when his car went off the Columbia river highway east of here and struck a tree, Multnomah county police reported.

Police said his car had passed a truck on the Dodson bridge and that the driver told officers the car was traveling at a high rate of speed.

It was the 22nd traffic death of 1958 in Multnomah county outside of Portland.

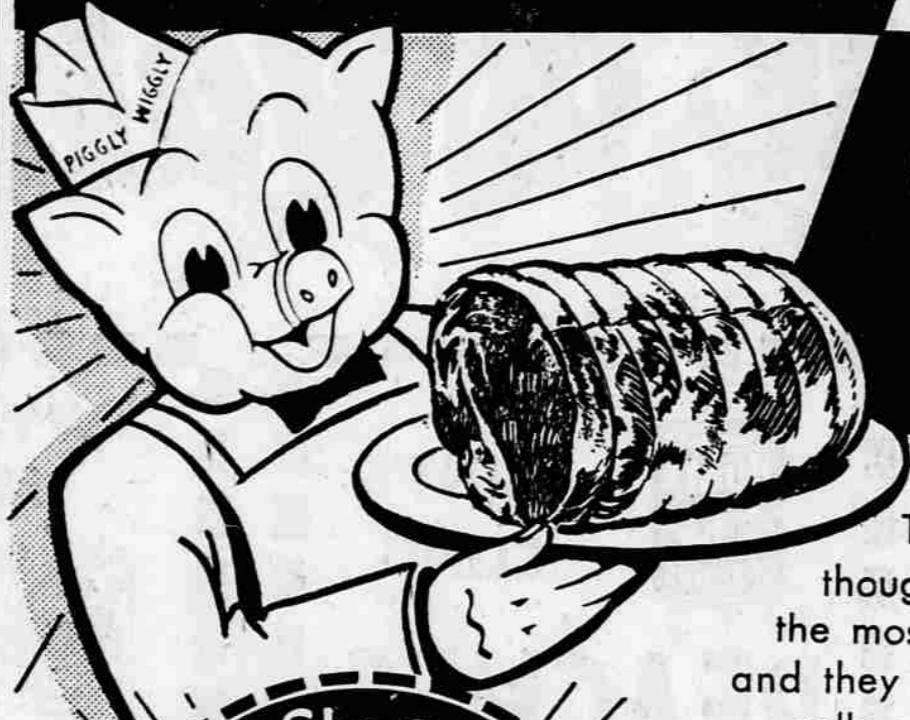

**BANK NOTED**

Bismarck, N.D. —(UPI)— The Rev. A. E. Smith, rector of St. George's Episcopal church here, made out what was probably the largest check ever to clear a bank. It wasn't the amount of the check that surprised bank employees, though; it was its dimensions — three feet by two feet.

Average American uses about 28 pounds of cotton a year.
