To report improper or non-delivery of the Mail Tribune in Medford phone SP 2-6141. Ashland MU 2-1021. Ureka 641W before 6:45 p.m. daily and 12:30 a.m. Sunday.

# District Judge Decision Soon

WILLIAM H. PRENTICE Promotion Confirmed

## William Prentice Gains Promotion To Brig. General

William H. Prentice, 1432 Crown ave., Medford, has been promoted to brigadier general in the Army reserve. The promotion from colonel was confirmed by the Senate Saturday morning.

Prentice, commander of the 417th Engineer brigade here, has been commissioned more than 18 1/2 years from infantry in the Reserve Officers Training Corps at the University of Oregon.

He was ordered to active duty at Ft. F. E. Warren, Wyo., as a second lieutenant Jan. 26, 1941, and served until May, 1946, when he was released from active duty as a major. He served three years overseas.

Upon his return to Medford, he assumed command as a colonel April 1, 1947, of headquarters battalion in the reserve. On Sept. 1, 1952, he assumed command of the 304th logistics command. Promoted to colonel.

He was promoted to colonel June 10, 1953, and when the 304th was deactivated in September, 1955, he assumed command of the 417th engineer's brigade.

Prentice said his promotion was as much due to the men of the 417th, who have made the outfit a good one, as it was to anything else. He said the outfit has "a wonderful bunch of fellows."

Brig. Gen. Prentice has attended courses of instruction at the Army's command and general staff college, Ft. Leavenworth, Kans., and the Engineer school, Ft. Belvoir, Va.

Works for Copco He is a statistician in the accounting department at the California Oregon Power company here, and has been with the company since 1936, working both in Klamath Falls and Medford.

He is married and has two children, Gail and Chris. He is the son of Mr. and Mrs. H. R. Prentice, 810 South Oakdale ave., Medford.

Circuit Judge Edward C. Kelly said Friday he would have a decision prepared by Sept. 4, at least, on the case of Richard J. House, Medford, vs. Robert G. Danielson, pertaining to the disputed election for district court judge.

House, in a petition filed in July, contests the nomination of Danielson as district judge in the May 16 primary prior to the election, on the grounds that Danielson had withdrawn as a candidate.

Kelly explained at the close of Friday's windup in the case that he hopes to have a decision, if possible, some time this week. However, due to vacations the dockets for both Josephine and Jackson counties are crowding him for time, he said.

Judge Kelly also announced that Judge Val Sloper, Marion county circuit judge would hear the case of E. Roy Bashaw vs. Robert G. Danielson in which Bashaw seeks a declaratory judgment from the court naming him the rightful nominee for district judge here.

Redden Represents Bashaw During Friday afternoon's session, James Redden, Medford attorney, representing Bashaw testified that on May 17 Danielson, during a conversation had blamed the state election laws for his being unable to officially withdraw his candidacy.

Mrs. H. S. Gilmer, Danielson's mother-in-law, testified Danielson visits his family here every week. He works in Klamath Falls, she stated. After the trial she stated that Danielson was without a job after being in Klamath Falls for two weeks. The man who was then district attorney had resigned and a new man had brought another deputy in with him to replace Danielson, she explained.

E. Roy Bashaw, called to the stand, testified that he had resided in Medford continually since 1955. He had left the county prior to that to practice law elsewhere for a short time, he explained.

Editor Identifies Statement Mail Tribune City Editor Earl Adams identified Danielson's statement in the paper for May 18 in which Danielson said he was ineligible since he had left the county.

The arguments presented by Sidney Ainsworth, Danielson's attorney, and Stanley Jones, House's attorney, centered on what the legal period is in which to contest an election and whether a candidate's eligibility applies only at the time he files for the election or whether it extends to the time of election.

Ainsworth declared that the final canvass of votes was made on May 29 and action contesting the nomination was not filed until July 11. These proceedings are therefore false, he contended, since, according to law, an election may not be contested later than 10 days after the final canvass is made.

Jones Disagrees Jones contended the law specifies the 10-day period starts after both the final canvass and the certificate of nomination is issued. Filing was made as soon as the certificate was issued.

## Mayor Announces New Appointment

Appointments of Charles W. Cray to the city planning commission and H. Dewey Wilson to the library board were announced by Mayor Snider and approved by the city council at last night's meeting.

Cray, 63, is business manager of Local 659 of the Electrical Workers union, a post he has held since about 1941. He has served as a member of the state apprenticeship board and is presently a member of the local board. He is also on the board of Rogue Valley Memorial hospital.

Wilson, 34, is an attorney in the firm of Duncan, Brophy, Wilson and Duhaime. He has served as chairman of the Jackson County Juvenile Advisory Council to the Circuit court and has encouraged development of similar organizations in other counties and on a statewide basis.

## City to Finance Part of Sewer For Berrydale

The city of Medford will participate to the extent of \$29,000 in financing Berrydale's proposed sewer system, according to an agreement voted by the city council at its Thursday night meeting.

City Manager Robert A. Duff presented the council with two alternative plans for the system. The council approved Plan B, whereby a gravity line would be extended beyond the city limits to a pumping station and pressure line connected with the Camp White trunk line.

The city can contribute money from its sanitary sewer fund only when the project in question lies outside the city limits. Under Plan A, the pumping station would have been constructed within the city — and financing would have come entirely from the pockets of Berrydale property owners.

Plan B is \$5,000 more expensive than Plan A, but with the city's participation it will save Berrydale people as much as \$24,000 in reduced assessments.

Duff reported that requests for federal aid on the Grandview - Kenwood and Laurelhurst sewer system had been turned down for lack of funds. The council also approved a new electrical code for the city. And it passed an ordinance placing on the November ballot a charter amendment by which the city could assess abutting property owners for sidewalk construction without requiring a petition requesting the work.

OPENS SALE—Marilyn Van Derbur, Miss America for 1958, who has been a feature attraction at the Kiwanis county fair this week, was on hand Friday night to officially open the 4-H, FFA auction at Jackson county fair grounds. Upon pronouncing the sale open, she banged the rostrum with the auctioneer's gavel—an old claw hammer. Bill Bray, Midway Auction, volunteered his services as auctioneer of the sale.

## Beauty Queens Appearing Today

Two beauty queens will be among the main attractions at the Kiwanis club's sponsored Jackson county fair today, the last day of the four-day event. Miss America, Miss Marilyn Van Derbur, of Denver, Colo., and Miss Oregon, Miss Mary Ellen Vinton of Seaside, will make appearances in the Medford armory today. Miss America, who arrived here Thursday, will crown the winner of the Miss Jackson County pageant about 10 o'clock tonight.

Miss Oregon is expected to arrive in Medford this morning through the cooperation of the Seaside Junior Chamber of Commerce. She and Miss America plan to visit prior to attending the fair.

Friday night, Miss America officially opened the 4-H, Future Farmers of America livestock auction in the fair grounds area. The 4-H, FFA fair ended last night. Officials said this year's 4-H, FFA fair was the largest on record, with the most number of animals entered and the largest spectator attendance.

Attendance at the Kiwanis sponsored county fair was estimated at 3,500 by early Saturday evening, club officials said. Another 1,000 or more were expected at Saturday night's session. The Kiwanis club hopes to eventually make the fair into a fair sponsored by the county.

## Integrationist Is Defeated At Polls

New Orleans—UPI—Veteran Congressman F. Edward Hebert won a smashing victory last night over negro integrationist Alexander Tureaud as near record-breaking crowds turned out to vote in a rainy day Democratic primary.

Final, unofficial returns from all precincts in Greater New Orleans gave Hebert 60,936 votes to Tureaud's 9,924.

PRIZE BEEF—Judy Bradshaw (right), Antelope 4-H club, is shown above holding her heretofore record that took grand champion in the beef division at the 4-H FFA fair last week. Admiring the animal is Patsy Charley, Central Point, whose heretofore was chosen reserve champion.

Hill. They were purchased for 22 cents per pound by the Tom Thumb market, Ashland. Reserve champion went to Susan Wright, Oak Grove, and were purchased by Tom Gettling, Grants Pass for 26 cents per pound. In the swine division, Marie Jones, Gold Hill, took grand champion with a 210 pound Berkshire. The animal

# Gov. Faubus Calls State Legislature

## Congress Passes Foreign Aid Bill

Washington—UPI—Congress last night gave President Eisenhower \$3,298,092,500 for foreign aid after the house forced the senate to pare down the original amount in an adjournment rush compromise. The bill, appropriating funds for military, economic and technical assistance to free world allies, was sent to the White House after senate-house conferees ended a

threatened deadlock by reaching agreement. President Eisenhower initially sought \$3,900,000,000 for the vital program but later said \$3,675,092,500 would be enough for "must" operations.

The senate by voice earlier had approved a total of \$3,518,092,500. This compared with \$3,078,092,500 voted previously by the house.

With adjournment pressure on, the conferees agreed on a "halfway" figure. The House, then the Senate, promptly accepted the compromise.

On the four major money items on which the House and Senate differed the conferees approved: 1. 750 million dollars for so-called "defense support," or indirect, military aid. This was 50 million dollars above the House figure and 40 million below the Senate amount.

2. 400 million dollars for the development loan fund, through which most economic aid is channeled. The compromise was 100 million dollars above the House figure and 180 million less than the Senate voted.

3. 200 million dollars for "special assistance" programs under the President's jurisdiction for a variety of projects. The House voted only 185 million dollars and the Senate 200 million.

4. 155 million dollars for the President's special contingency fund, to be spent virtually without accounting at his discretion. The figure was the same as voted by the Senate but 55 million dollars more than voted by the House.

Work Specialized "Work in the pears is a specialized job, requiring large numbers of male workers capable of heavy labor," she noted.

"We believe the nationals will serve as an adequate stopgap in situations where labor shortage threatens," Mrs. Galey said.

## Mexicans Here For Assistance In Pear Harvest

The state employment service is making arrangements to import 294 Mexican nationals to help harvest pears in the Rogue valley, Mrs. Cecilia P. Galey, Salem, chairman of the unemployment compensation commission, announced Saturday.

The Mexicans are expected to be ready to start work in pear orchards in the Medford area Monday, Aug. 25, she said.

Mrs. Galey said, "while intensive recruitment throughout the Pacific northwest has brought many workers into the Medford area for the pear harvest, it has also proved to us that there are not enough qualified agricultural workers available to meet the demands of the oncoming harvest peak."

The Bartlett pear harvest is nearing its end here, and the winter pear harvest is expected to reach its peak within the next week or two.

Work Specialized "Work in the pears is a specialized job, requiring large numbers of male workers capable of heavy labor," she noted.

## BULLETIN

Cape Canaveral, Fla. — (UPI)—An Army Jupiter C rocket blazed into a starlike sky last night with a new Explorer satellite designed to find out how long man can live in space.

The rocket was launched at 2:19 a.m. EDT (11:19 p.m. PDT.) The Army said the tube-shaped artificial "moon" designated Explorer V, was aimed for an orbit similar to that of Explorer IV which has been in orbit for nearly a month. Explorer V was virtually the same size of Explorer IV — 80 inches long, 37.55 pounds.

The new satellite's mission was to take a more accurate reading of the recently discovered radiation band which threatens to delay manned space travel.

## Barrage By Reds Batters Quemoy

Taipei, Formosa — (UPI)—Communist Chinese artillery battered the Nationalist-held Quemoy Islands last night with a massive barrage that came close to hitting an American Army hostel.

There were no American casualties, although the Nationalist defense ministry reported that more than 200 Chinese officers and men were killed, 65 houses were destroyed, and civilian casualties stood at 11 killed and 17 wounded.

However, the commanding officer of the U. S. military advisory detachment on Quemoy reported heavy shelling of the area occupied by the unit's 21 American army officers and men.

The official American report received here said all the doors and windows of the U. S. military detachment were blown out during the bombardment and 44 of the shells exploded near the U. S. Army hostel. There were no direct hits.

## Housing Is Sought For New Teachers

Houses and apartments to rent are being sought by the Medford public schools administration, it was announced Saturday.

Service to Ashland will be continued on Highway 99 and old Highway 99 through Talent. Eagle Point will be served via state Highway 62 and service to Camp White and the Medford will be by Highway 99 and connecting public highways, Morgan said.

Present service on the Medford-Jacksonville route results in excessive costs, the PUC order amending the permit indicated.

## Special Session To Seek Escape From Integration

Hints At Danger Of Violent Outbreaks

Little Rock, Ark. — (UPI)—Gov. Orval Faubus summoned the Arkansas legislature yesterday to meet in special session next Tuesday and find Central High school an escape from integration, regardless of what the U. S. Supreme court does.

Faubus declined to say what he will ask the legislature to do to prevent integration of Central and other schools, where the majority of white people are against it.

But part of his proclamation, calling the legislature into extraordinary session, specified that it should "regulate the administration and financing of public schools and education and make appropriations for such purposes." This suggested that he may want the legislature to cut off the public funds of schools integrated against the will of the white population.

He spoke in a proclamation, a statement and in a press conference, of probable violence, such as broke out last year, if Central is integrated. He said in his proclamation to the legislature that he thinks "conditions" endanger the "peace and tranquility." In a statement with the proclamation, he mentioned "the almost certain disorders that would ensue."

A reporter asked in a news conference whether he had the same information he had last year, that violence would break out at Central if it were integrated.

Faubus kept the National Guard at Central for 18 days last September to prevent integration, because, he said then, he had information that bloody violence would break out.

He took the Guard away under federal court order, a riot did break out and President Eisenhower ordered in 1,000 paratroopers to prevent "anarchy."

Faubus said Saturday, "Since I have been questioned so often on whether I, indeed, had information last fall that integration would ensue if integration was allowed, I choose to say nothing about it this fall."

"Rather I would suggest that all you newsmen go out and talk to the people of Little Rock and make your conclusion from that."

Washington — (UPI)—President Eisenhower yesterday signed a bill bringing both civilian and military planes under unified traffic control as a means of increasing air safety.

## Sports Bulletin

Forest Grove — The Rogue Valley Dairy Maids lost to the Seattle Ramblers here Saturday night 12-2, largely on errors, according to reports.

The one bright spot in the game was the homerun hit by Sis Prentice, shortstop. The Ramblers will play the loser of the game between Linn Florists and the Forest Grove Meadowlarks this afternoon.

Pendleton — The East-West Shriners' game in Pendleton Saturday night ended in a 6-6 tie before a record crowd of over 8,000 fans.

WEATHER FORECAST: Fair and hot through Monday. Chance of afternoon thunderstorms over mountains south and east Sunday afternoon and evening. High Sunday 100. Low Sunday night 63. High Monday 96. Low Monday night 63.

Our Skies Tonight Sunset today 7:30 p.m. Sunrise tomorrow 5:28 a.m. Moonset tomorrow 2:01 a.m. Tonight Saturn begins an eastward movement among the stars of the ecliptic that will continue until next April. Quite slowly does Saturn move among the stars; it will be early in 1960 before it will be seen near where the Moon appears tonight.

## "I Wouldn't Let You Use This Old Thing—It Might Not Give You Enough Protection"
