**Lebanese, Syrians Allow Oil to Pass**

Beirut, Lebanon—Lebanon and Syria opened their borders yesterday for the transport of oil in the first concrete peace move since the United Nations approved an Arab plan for a Middle East settlement.

The frontier between the two states was shut down after revolt broke out in Lebanon last May. The Lebanese charged and the Syrians denied that infiltrations of reinforcements from Syria were aiding the Lebanese rebels.

There was no immediate indication of when tank trucks would resume transportation of Lebanese oil and gasoline across the frontier. But the expectation in Beirut was that the oil shipments would start soon.

Industrialists, meanwhile, announced cancellation of plans to stage an "owners' strike" Monday to protest continuing disruption of the nation's economic life by the rebels.

Wool garments should be stored for the summer only after a thorough cleaning. Moths love food stains and dirt.
