

PASSING UNDER GOLDEN GATE BRIDGE, U. S. S. Ranger, largest ship in Navy, enters San Francisco Bay where she will be berthed permanently. Craft went around South America because she is too large to transit Panama Canal. She is 1,046 feet long.

Council to Consider Sale of Three Lots at Next Meeting

The sale of three lots on Effie and Bessie sts., acquired from the county after foreclosure for tax delinquencies, is scheduled for further consideration by the Medford city council at its meeting Sept. 4.

A public hearing on a planning commission recommendation that the Lloyd Nelson property on North Pacific highway in the Berrydale area be rezoned from single family to limited light industrial also is slated for consideration of the meeting.

A public hearing on the partial vacation of the Rogue Valley Heights Extension plat in order to resubdivide certain tracts into smaller lots suited for residential use has been scheduled Oct. 2.

The council expects to hear reports at the Sept. 4 meeting on a request that the Lone Pine school be connected to the new city sewer line on Springbrook rd. and another request for a stop sign controlling southbound traffic on Sunrise ave. at Hillcrest rd.

The sale of the lots was brought up by City Manager Robert A. Duff at last week's council meeting, but Councilman Donald Hansen suggested that councilmen personally inspect them.

The council approved, following a public hearing at which there was no opposition, a change of zone from single family to multiple family for the Rogue Valley Manor property to permit the manor's construction.

A five-year-lease for Fred Wilcox, Avis U-Drive agent at Medford airport, was approved.

An agreement was approved

whereby the city is to pay as much as \$2,500 as partial financing for the relocation of a California Oregon Power company pole on East Jackson st. Copco was granted an easement for the pole adjacent to the Hawthorne park warehouse.

The council approved a planning commission recommendation that the dedication of Poplar dr. with a 50-ft. right of way be accepted.

An agreement was approved with Doyle Franklin, who owns property at Dakota and Plum sts., under which the property would be connected to the city sewer system in exchange for its annexation to the city and the dedication of strips of the property for right of way purposes.

A grant agreement with the Civil Aeronautics administration for financing installation of high-intensity runway light at Medford airport also was approved.

The council approved a request for a Package Store Class B Beverage license by the Food Basket, 523 South Central ave.

Plans and specifications were approved for several improvements. They include a sanitary sewer for the Edgemont subdivision; curbs and gutters along the north side of the Edgemont subdivision on Barnett rd.; the approach system for the east end of Eighth st. where it is to enter Main st.; paving Beekman st. extension; a sanitary sewer for the Beekman st. extension, and paving Carrington ave.

Plans and specifications for improving Hillsdale ave. along the west side of the Edgemont

subdivision as only gravel, not paving were rejected by the council.

The following traffic measures were approved: closure of the crosswalk across Riverside ave. on the north side of Eighth st. to the east side of parking meters from the east side of Central ave. north of Eighth st. to the east side of Central ave. north of Main st.; parking stalls to replace no parking zones on the east side of Oakdale ave. near Main st. and on the south side of Main st. between Oakdale ave. and Laurel st.; and removal of a parking stall at the northwest corner of Eighth and Fir sts.

Removal of restrictions on parking meters on the east side of Riverside ave. just south of Main st.; installation of a 'No Left Turn' sign on Eighth st. at Riverside ave.; and an extra width driveway on the south side of Kennet st. between Court and Boardman sts. also were approved.

A request for installation of a "Caution—Children" sign on Elm st. at Eighth st., was rejected on the grounds that such a sign should only be installed if sidewalks did not exist and the street were used as a walkway. Besides, Duff commented, other neighborhoods would then want similar signs, and they would become "ineffective if put out promiscuously."

Two Die in Fire At Seattle Hotel

Seattle — (UPI) — Two persons perished in a fire believed set by a firebug which gutted the Hollywood hotel here early today.

The blaze began at the back stairs of the two-story frame building and quickly spread through the hotel.

The victims were identified as Jack Breda and Jean Balou, 52.

Jim Pruitt, a tow truck operator, discovered the fire as he drove by the hotel shortly after 2 a.m. "I pulled five persons out," Pruitt said.

Police picked up one arson suspect at the scene of the blaze but he was released after questioning.

Missing Airplane Sought in Alaska

Fairbanks, Alaska — (UPI) — Planes from the Fish and Wildlife Service, the CAA and Elmendorf AFB searched an area between here and the northeast tip of Alaska today for a plane missing since Saturday with three persons aboard.

Those aboard the twin-engine Grumman Goose were Clarence Rhodes, Juneau, regional director of the U.S. Fish and Wildlife service, his son, Jack, and Stan Frederickson, game agent for the Fairbanks district.

The trio left here for the proposed Arctic wildlife withdrawal area in the northeast corner of Alaska and planned to return Saturday night.

Sightseers Jam Traffic at Airport

Portland — (UPI) — Sightseers clamoring for a look at Portland's new multi-million dollar air terminal Monday created an afternoon-long traffic jam at the entrance to the modern air facility, airport security police reported.

Port officials reminded the public that no one could be admitted to the nine-story structure for the next two weeks while workmen complete many last minute projects and air lines move into new quarters.

The new building will open for operations at midnight Sept. 7, Alan Mills, assistant manager for aviation, announced.

Suppers Planned To Raise Funds For Democrats

Two of a series of campaign fund raising potluck suppers and social evenings have been scheduled this week by the Democratic Party of Jackson County, according to Chairman James A. Redden. Others will be set within the near future, he said.

First on the calendar will be one held this Thursday, Aug. 28, beginning at 6:30 p.m. at the home of Mr. and Mrs. Gordon Hudson, 349 Windsor st. Potluck dishes to be brought by those attending will be either salads or a hot dish, with the hosts furnishing the remainder of the meal.

Scheduled for Friday, Sept. 5 will be a similar event at the home of state representative and Mrs. Robert B. Duncan, 100 Terrace drive. Special entertainment during the evening will consist of a showing of colored slides of the recent legislative session in which Duncan served and Mrs. Duncan acted as secretary. Both are seeking election to the lower house this fall, while Hudson is Democratic nominee for the state senate.

All party members and others interested in attending either of the fund raising suppers or in seeking further information about them are asked to call Democratic headquarters, SPring 2-4747, Redden said.

Anyone interested in holding other such home parties are asked to call Mrs. Frank Christian of Talent, (KE 5-1389), who is in charge of campaign social arrangements.

De Gaulle To Talk With Africans

Dakar, French West Africa — (UPI) — Premier Charles de Gaulle arrived today for talks aimed at cementing ties between France and her African possessions.

De Gaulle's arrival coincided with a call for a 24-hour strike of municipal workers to underscore demands for independence of French territories. The stoppage of transport, garbage collections and other services was ordered by the "General Workers' Union of Black Africa."

De Gaulle, who is making a 12,000-mile swing through Africa to build support for his proposed new constitution for France, apparently is convinced there is only minor opposition to his project in the French possessions despite the wave of Algerian violence in Paris Monday.

De Gaulle has kept in close touch with the situation in France by telephone and cable since landing at Conakry. He flew to Dakar after an overnight stay at Conakry.

Western Trucking Tieup Continues

Stockton, Calif. — (UPI) — Officials of striking Teamsters Joint Council 38 held a four and one-half hour meeting on Monday to discuss last week's unsuccessful attempt to end an 11-state trucking tieup.

Edward Davis, secretary of the Stockton Teamsters Local, said "nothing was discussed but the report on the San Diego negotiations."

There were no new moves in sight to end the dispute. Joint Council 38 of Sacramento touched off the tieup when its 2,350 members went on strike in Central California and Western Nevada to back demands for wage parity with San Francisco Bay Area drivers.

Trucking associations in 11 western states closed down, claiming that a strike against one is a strike against all.

At right are Mrs. Bonnie Brown Heady and Carl Austin Hall, who were executed for kidnaping, killing little Bobbie Greenlease in 1953.

Republicans Plan Attacks on Demos To Control Congress

Chicago — (UPI) — Republican party leaders assembled today to lay out 1958 campaign plans to convince voters that a Democratic Congress is too soft on labor and too hard on the Treasury.

The GOP National committee was meeting, with a sizeable number of Republican state chairmen present, less than three days after adjournment of the 1958 session of Congress. Their chief objective was to prepare strategy for the autumn political campaign to restore control of the House and Senate to the GOP.

They took their signals from President Eisenhower in moving to attack the Democratic flanks with these weapons:

— A charge the Democratic Congress' failure to enact labor reform legislation had shown that the Democrats were unwilling or unable to halt abuses exposed by the Senate committee investigating the labor racketeering.

— A charge that the Democrats were big spenders whose program would keep the

country saddled with red ink spending and continuous inflation.

Rep. Richard M. Simpson of Pennsylvania, chairman of the GOP Congressional Campaign committee, hammered on the labor charge in a speech prepared for today's opening session. He said Democrats had maneuvered the Senate-approved labor bill, which died in the House, with an eye to insure its death.

Simpson said the Democrats tried to satisfy both "the labor bosses," who he said did not want any legislation enacted, and the public, which was demanding labor legislation.

Simpson said Sen. John F. Kennedy (D-Mass.), was posing "as a knight on a white charger," in advocating labor legislation and forgetting that

Senate GOP leader William F. Knowland had prodded the Senate Labor committee into action. He said Republicans on the House Labor Committee were thwarted by the Democratic majority in their effort to get action.

Chairman Meade Alcorn of

National Forest Sales Set Record

Portland — (UPI) — J. Herbert Stone, Pacific Northwest regional forester, said today timber sales from Oregon and Washington national forests in the 1958 fiscal year amounted to an all-time record 3,919,020,000 board feet.

This was an increase of 30.8 per cent over the 1957 figure, Stone said.

Meanwhile, 1958 waterborne Pacific Coast lumber shipments to the end of July were slightly ahead of last year, the Pacific Lumber Inspection Bureau, Inc., reported.

This was despite a decline in Oregon, Washington and California. British Columbia shipments totaled some 802 million feet this year compared with about 556 million last year.

Total shipments for the first seven months were 1,716,368,000 board feet compared with 1,612,742,000 last year.

the Republican National Committee was prepared to indict the Democrats as a party of pessimists who would write off the United States as a second rate power compared with the Soviet Union.

Defense To Be Political Issue

Washington — (UPI) — The state of America's defense establishment — its strengths and weaknesses looms as a hot political issue during the fall

Democrats served notice during the final days of the 85th session that they questioned the adequacy of the defense program as visualized by the administration.

President Eisenhower, on the other hand, has indicated

Congress voted too much money for the defense establishment.

Congress passed a money bill calling for \$39,602,827,000 for defense spending in the current fiscal year. This was \$815,857,000 more than the President sought, and there was no certainty he would allow it to be spent.

The increase above the presidential request reflected congressional efforts to block scheduled cutbacks in military manpower and to speed production of the new Polaris missile-firing submarine and other nuclear spaceage weapons.

Former Democratic Committeewoman Dies

Portland — (UPI) — Mrs. Emily F. Edson, 71, Oregon Democratic national committeewoman from 1936 until 1944, died during the week end at her home here.

She also was the first woman to seek the office of secretary of state, being defeated in 1938.

ABOUT TIME

Clemson, S.C. — (UPI) — Ben E. Goodale, head of the Clemson College dairy department, recommended recently that milk be served at dairymen's meetings.

Try and Stop Me

By BENNETT CERF

MAYBE GHOST-WRITING is being overdone these days. Cleveland Amory tells about one well-known journalist who was hired to write the "autobiography" of a big political wheel. Later, a prominent lawyer was tapped to write a review of the book for a New York newspaper, and hired the same journalist to do the job for him.

"Possibly," surmises Cleveland Amory, "this was the first time a ghost-written book was ghost-reviewed by the ghost who wrote it in the first place!" P. S. The review was a very favorable one.

An aspiring actor gave a reading for the late George M. Cohan one day. After a few moments, Cohan called out from Row M in the empty orchestra. "Step back a little. You're too close to the footlights." A bit later, Cohan ordered, "Go back further still." "But Mr. Cohan," protested the actor, "if I go back any further I'll be off the stage entirely." Cohan admitted, "You get the idea perfectly."

Quotes From the News

By UNITED PRESS INTERNATIONAL

Los Angeles — FBI Chief J. Edgar Hoover, on what he called America's low regard for law and order: "The moral fibre of the nation is growing weaker, not stronger, at this most crucial period in world history."

Anchorage, Alaska — Former Gov. Mike Stepovich, on whether Alaskans will vote today to enter the Union as the 49th state: "I predict the statehooders will win in every large city—Anchorage, Fairbanks, Ketchikan and Juneau. And in most every other place, too."

Singapore — A Marine Corps spokesman, in denying movement of 1,600 Marines from here to Okinawa had any connection with the crisis in the Formosa Straits: "If you know the size of the 7th Fleet you will understand that the absence of 1,600 Marines from the 7th Fleet area is not that important."

Little Rock, Ark. — Superintendent of Schools Virgil T. Blossom, on why no Negroes tried to enter all-white Hall High school as they go out seeking them: "Because I didn't get out seeking them."

Amsterdam — Kansas University Professor Dr. Tibor Helvey, who plans to conduct an experiment in which three volunteers would live in isolation eight days, as though they were on the moon, on why the volunteers should be two men and one woman: "One man by himself might go psycho. Two men would quarrel. Maybe a man and woman would too, but three people have the best chance of getting along together and by making one of them a woman we increase the chances."

WE TAKE BETTER CARE OF YOUR CAR. Your foreign car receives extra-thorough lubrication and complete service at the sign of the Chevron. We go to school to learn the best ways to care for all cars from bumper to bumper. And the service procedures and lubricants we use are approved by auto makers throughout the world. In any language, our service spells satisfaction. You can count on us for clean rest rooms, a sparkling windshield, free inside-out tire inspections, and many other conveniences that make driving pleasant. They are some of the reasons why every independent survey shows motorists rate service at the sign of the Chevron "best in the West." American or Foreign. In any engine, the best oil is our RPM Supreme... the motor oil used by motorists in many countries for supreme engine protection. Its Detergent-Action compounding keeps parts so clean, protects them so well it actually halts wear... engines can outlast the car itself!
