

Medford Students Leave For College, University

This month sees many students leaving for colleges, universities and schools in all parts of the nation.

Richard and James Corum, twin sons of Mr. and Mrs. Grover Corum, 30 Willamette avenue, left last week for California and departed by air yesterday from San Francisco for Cambridge, Mass. Harvard university as freshmen. In California the two young men visited their brother-in-law and sister, Mr. and Mrs. N. C. Benjamin, Orangeville, before leaving for the east. They will visit Washington, D.C. before continuing north.

Both students are attending Harvard on scholarships, the first time that twins have done so, according to university officials. The institution granted scholarships to both young men last spring, and later they were informed that these were being supplied by Procter and Gamble. According to Herbert S. Coith of the firm, the scholarships provide full tuition for four years and in addition carry an allowance for books, fees and supplies. Forty-seven colleges and universities throughout the nation participate in the Procter and Gamble scholarship program, and the firm allots more than \$900,000 a year for the scholarships.

According to the communication from Mr. Coith, the double objective is not only to provide deserving students with the opportunity for higher education, but at the same time to help the country's colleges and universities meet their pressing financial needs.

The twins plan to enroll in

general courses for the first year and select a specific field of study later.

Three To Leave
Leaving Saturday for the east and Harvard university will be David Frohnmayer, son of Mr. and Mrs. Otto J. Frohnmayer, Spring street, William H. Frake, son of Mr. and Mrs. William E. Frake, 22 Richmond avenue, and David Mack, son of Mr. and Mrs. Gilbert Mack, Gold Hill. All three will go by plane.

Young Frohnmayer, a freshman, will study political science and pre-law. He has American Field service program for students, and was voted the most outstanding boy of his graduating class at Medford High school.

Young Frake, returning to Harvard for his sophomore year, is enrolled in the physical sciences and pre-law. He also attends the university under a scholarship awarded while a senior in Medford High school. The student plans to visit relatives in Portland, Maine, before enrolling for the fall term.

David Mack is another scholarship holder from Crater High school last spring as valedictorian of his class and also is enrolling in political science and pre-law.

Student Leaves
Eric Eitrem, son of Mr. and Mrs. Irvn M. Eitrem, 917 South Ivy street, left earlier this week for the east where he will enroll at Yale university as a freshman. An honor graduate of Medford High school with the 1958 class, young Eitrem is interested in science.

Actress Turns Feminist; Works for Equal Rights

BY GAY PAULEY
UPI Women's Editor

New York—Ginger Rogers turns out to be a feminist as well as an actress.

It is time, says the blonde star, that the nation caught up with the times and granted equal rights to women.

"Equal pay for equal work, and especially equal opportunity. Why shouldn't women have these things?" said Miss Rogers, who once won a movie Oscar for her characterization of a working girl named Kitty Foyle.

Miss Rogers climbs on the

bandwagon with the business and professional women's clubs and other women's groups who have tried for years to get equal rights legislation enacted. Measures to guarantee them are offered consistently in Congress, but none has ever gotten out of committee.

Willing to Help
BPWC hopes to get such a bill introduced in the next session. And Miss Rogers said in an interview she's willing to offer any help she can.

She said the equal opportunity issue long has interested her, particularly as it relates to the motion picture industry. "Oh sure, they let us women act," she said. "But how many women directors or producers can you name? They'll let a woman drive a cab, but not operate a camera."

"And why is there no woman on the stock exchange?" "Keeping a woman back because she is a woman is ridiculous," Miss Rogers said. "Ideas have no gender. I'm just as capable of thinking as a man. Why just because the idea comes from a woman does it get turned down?"

Concedes Exceptions Exist
The actress conceded there are many exceptions, that numerous women have succeeded in spite of the "double standard." "But they're looked on as oddities," she said. "Why all the to-do when a woman becomes an ambassador?"

"Sometimes," she continued, "it is difficult for a man to recognize woman's ability... it's sort of like the old fight between the North and the South. The war is over, but the battle is still on."

But men alone are not to blame. "Both sexes are guilty of the oppression," she said. "Haven't you heard women tearing down other women who get ahead... they do it with a real viciousness. They seem to think, 'If I can't, why should she?'"
The actress came to New York from her Hollywood home to plan details of her first television show this fall, an hour long variety show October 15 on CBS.
