PRESENTS VOGUE PATTERN NO. 4905

THE TWEED WALKING SUIT walks away with honors. Week-end in the country? Busy day in town? You'll reach for this long-lined walking suit that sheds its jacket indoors to show off its own lean-lined overblouse.

This is another Vogue Special Design . . . your key to a memorable wardrobe this Fall. Be sure to see the collection of Vogue Printed Patterns fashioned to take you impeccably through the demanding season ahead.

A nubby tweed fabric in one of the handsome new color combinations would be a perfect choice for the skirt and jacket, with a contrasting color for the blouse.
