ROCKET GOES WILD — A Polaris test rocket, fired at Cape Canaveral, Fla., went out of control and blew up at 50,000 feet, with one section falling dangerously close to residences about five miles away. This picture shows the flaming section plummeting down toward the Banana River, which it struck just 600 yards from a trailer court.

Report

British Correspondent Views Red China

(Continued from Page 1)

Mr. Chen Ming of the Ministry of Foreign Trade, told me coolly he was "extremely dissatisfied" with my past writings which he considered "provocative slander." Repeated applications to see a junior official in the Foreign Ministry were finally met only after four days of telephoning, and with the rejoinder: "You may come and see me at three this afternoon."

The Chinese are beginning to treat foreign opinion and reaction as cut-price commodities. Amid slogans demanding world peace, Peiping is plastered with huge posters depicting small indeterminate green devils being shot, hanged, knifed, drowned, sand-bagged and otherwise eliminated by large impassive Arab friends of Colonel Gamal Abdel Nasser. The point is that, quite illogically, it is the Arabs who are large. The underlying mentality is that of the bully, not of the champion of the weak.

Keeping Chinese off Balance

Meanwhile rectification, indoctrination, incessant campaigns about surpassing the West in 15 years, retaking Formosa, killing sparrows, flies, whatever it may be, keep the work-drugged Chinese off balance, and all combine to replace individual thinking with an automatic reflex. Loudspeakers in public squares, press and radio, street organization committees that can whistle up a mass meeting in half an hour, all dinned into the heads of the millions that sparrows must be killed because they eat grain. Subsequently an acquaintance of mine spent an afternoon thumbing through old paintings with an intelligent Chinese antiquarian who was a mine of informed comment. When they came to a silk scroll depicting birds my friend remarked they were sparrows. For the first time the face of his companion became a mask: "They eat grain," he said.

The cicadas of China all start singing together and all stop simultaneously, as if directed by one master mind. They appear to have no private life and no private thought. Vociferously, multitudinously, they set an example that all in China must now follow.

PETTY LARCENY

New York (UPI)—Bruce Winick went to police to report angrily that his car had been stolen. They promptly sent out a description of the vehicle: "Red, four and one-half feet long, five-mile-an-hour speed, called a Thunderbird Junior." Bruce is seven years old.

The first elevated transport line built in 1867 was a financial failure.

STA-OFF CORN REMOVER

Gives instant relief from pain and post-bath removal of hard corns, soft corns between the toes, callouses, warts, papillomas, club nails. It contains several different oils that soften, loosen and does not cause the irritation as do strong acid mixtures. When all others have failed try this one. Try our Burnion Relief, which relieves pain, soreness, swelling first or second application. Both remedies sold on money back guarantee.
