**REMOVE WASTE-
NOT GOOD FOOD**

Here's a secret millions have discovered about FEEN-A-MINT, the wonderfully different chewing-gum laxative.

FEEN-A-MINT is different because you chew it. It's different, too, because it removes mostly waste—not good food! FEEN-A-MINT does not work in the stomach, where food is being digested. That's why it does not take away a lot of the good food you need for energy.

Doctors know that FEEN-A-MINT works chiefly in the lower bowel...removes mostly waste, not good food! And it's non-irritating, too.

So to feel like a million, chew delicious FEEN-A-MINT. 16 tablets, 35¢—also small and economy sizes.

**are
you
happy
in
your
JOB?**

By Walter Duckat

Take this test to see if your chosen career is right for you.

FEW THINGS in life are more important than doing the kind of work you enjoy. The way you earn your daily bread influences the way you treat your family and associates, the clothes you wear, the neighborhood you live in, and your leisure activities. Compare, for example, the differences between the apparel, interests, and activities of a banker and an auto mechanic. Or think for a moment about the training and work of a clergyman and a traveling salesman.

It's wise to make a good choice because your working span may embrace 40 to 50 years. If you are not sure that your career is the right one for you, you may wish to consult a vocational-counseling agency.

The following quiz may help you find the answer to this basic problem:

- | | Yes | No |
|-------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
| 1. Is your occupation reasonably related to your training, mental ability, and personality? | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Are you ever embarrassed when asked about the work you do? | <input type="checkbox"/> | <input type="checkbox"/> |
| 3. If your present occupation were suddenly ended, do you have skills that could be used elsewhere? | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Could you pursue your present career after 45, without experiencing a sharp decline in productivity, usefulness, and earning capacity? | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. On the whole, do you find your duties reasonably pleasant? | <input type="checkbox"/> | <input type="checkbox"/> |
| 6. Are you satisfied with the job-security and retirement provisions of your chosen work? | <input type="checkbox"/> | <input type="checkbox"/> |
| 7. Do you often dread going to work? | <input type="checkbox"/> | <input type="checkbox"/> |
| 8. Does your income meet with your expectations? | <input type="checkbox"/> | <input type="checkbox"/> |
| 9. Do you avoid thinking about your work during your leisure hours? | <input type="checkbox"/> | <input type="checkbox"/> |
| 10. If you were just starting out, would you still choose your present occupation? | <input type="checkbox"/> | <input type="checkbox"/> |
| 11. Does your job require association with people who are usually pleasant? | <input type="checkbox"/> | <input type="checkbox"/> |
| 12. Are you generally irritable when you come home after work? | <input type="checkbox"/> | <input type="checkbox"/> |

Yes is the answer to 1, 3, 4, 5, 6, 8, 10, and 11.

No is the answer to 2, 7, 9, and 12.

Each correct answer earns two points.

A score of 20-24 is excellent and shows superior job adjustment.

A score of 10-18 ranges from average to good.

0-8 implies unsatisfactory career adjustment. It is usually not wise to quit your present job unless you have another one to step into.
