## Now Here's an Idea

**PLANT HOLD:** Attach a tiny fixture to the wall with a single screw and it displays your potted flowers and vines without calling attention to itself. Almost invisible, it supports any lipped flower pot from 3" to 6" size; guaranteed not to rust, break, tilt, or sway. You can use a number of these fixtures for multiple displays. Six for \$1. *Southern Interiors, 433 NW 1st Ave., Fort Lauderdale, Fla.*

**HEATER AND HUMIDIFIER, TOO:** Newest portable electric room heater has a built-in moisture cell to keep air from becoming parched and dry. Delivers fan-forced heat instantly and features a toe control that lets you turn the unit on or off or adjust the thermostat without stooping. Finished in burgundy leatherette. \$39.95. *Westinghouse, Springfield 2, Mass.*
