

G. Moore Variety Show Contained Fatty Portions But Also Had Some Meat

By WILLIAM EWALD
UPI Correspondent
New York - (UPI) - Garry Moore's new CBS-TV variety show is beginning to shoot off some sparks.

William Ewald as a comedy bit about movie going that involved William Bendix and Carol Burnett and again, on a

rendition of "Comes Love" by Marilyn Maxwell. The first was almost tortuously unfunny; the second stronger on enthusiasm than on singing skill.

Chunk of Fluff
But these were balanced by a fresh and offbeat chunk of fluff that featured Earl Hall in a song about cows and another bit that involved a spoof of the "Whiffenpoof Song" as it might be done by a Fred Waring group. The Whiffenpoof choral team was made up of such whimsies as Hermione Gingold and Marion Larne and struck me as a pretty delightful chunk of butterscotch.

Glass Industry Shutdown Starts

Columbus, Ohio - (UPI) - An "orderly shutdown" was underway today in the glass industry in advance of Friday's scheduled strike by 25,000 members of the United Glass and Ceramics Workers.

R. J. Reiser, president of the union, said the shutdown was begun ahead of the Friday deadline so plant processes could be stopped without damaging equipment.

Reiser said the action was taken after Libbey-Owens-Ford and Pittsburgh Plate Glass failed to agree to further negotiations on a new contract.

He said the strike covered all of the union's workers in eight states, many of whom stayed on the job since Sept. 25 when the old contract expired.

Negotiations broke down one week ago in a deadlock mainly on the contract issues of manpower and overtime.

About 2,000 workers began the walkout Tuesday. In Ohio, about 5,400 L-O-F workers were idled at Toledo and 600 Pittsburgh Plate Glass workers at Mt. Vernon.

Negotiations were underway at Miami, Fla., between the two firms and the union for 17 days before reaching a deadlock.

"Unauthorized strikes" broke out before the walkouts Tuesday at Ford City and Creighton in Pennsylvania, and in St. Louis, Mo.

Plants of the two firms are in Pennsylvania, Ohio, Maryland, West Virginia, Illinois, Missouri, Oklahoma and Louisiana.

Portland Seeks to Get Vanport Area

Portland - (UPI) - Formal negotiations with the U.S. General Services Administration for the city of Portland to acquire part of the 365 acres of West Vanport have been requested by Mayor Terry D. Schruk.

Schrunk said 146 acres at the north end of the surplus property was "extremely valuable" for industrial purposes. He said it was his understanding the city could buy the tract for \$101,000.

The city has designated the central 318 acres of West Vanport for recreational purposes and the mayor said it could be acquired for half of its \$175,000 evaluation under a GSA priority program. If 171 acres in the southwest portion would be used as a sanitary fill the city could get the acreage for nothing, he said.

Mayor Schruk said GSA told him the city has the first call for the property but if the land is negotiated for, it would be put up for bid by private developers.

Machinery Strike Ends at Portland

Portland - (UPI) - A four-day strike at Zidell Machinery and Supply Co. was settled here Tuesday but not before picketing metal workers were picketed by another union.

Lew Traub of Lewis Canvas Products Co. picketed the strikers in front of the Zidell plant because he said their picket banners were made by a non-union shop.

A new contract with the Zidell workers was signed in the afternoon, giving them an 11-cent hourly wage increase and other fringe benefits. They were represented by the Portland Metal Trades council.

Now that I've seen both of Moore's nighttime offerings, I would say that its most satisfying trait is its lack of predictability. It has an air of no-formula about it that seems to promise delivery of things other than just songs, dances and jokes. As a result, even when some of its bits fizzle, there's still a feeling of expectancy about things to come.

Dominated Trendex
The Channel Swim: CBS-TV's Tuesday night line-up of "Name That Tune," "The Texan," "Father Knows Best," "Danny Thomas Show," "Ann Sothern Show" and the "Lucille Ball-Desi Arnaz Show" dominated the Trendex ratings.

Studebaker Shows New Economy Car

South Bend, Ind. - (UPI) - Studebaker-Packard, catering to the growing market for small cars unveiled its new, small, economy car.

The 1959 Lark, shorter than the competitor of American Motor's Rebel Six Rambler, was previewed by newsmen here Tuesday.

Company President Harold E. Churchill said the Lark was designed to put Studebaker-Packard in the black for the first time since the merger which created the firm in 1954. He refused to predict when profits would begin mounting.

Dealers have already ordered Larks totalling more than half of the company's production of 49,000 units of all models during the 1958 model year, Churchill said.

"The new Lark is out to capture an important share of the fastest-growing segment of the American automobile market," Churchill said.

"The demand is there and I believe we are going to get a share. The overnight success of our Scotsman last year confirmed our belief in the soundness of the economy car market."

Churchill said with present plant facilities Studebaker-Packard could produce 280,000 Larks, but he would not predict how many would be sold.

Jury Investigation Of Violence Planned

Eugene - (UPI) - Lane County District Attorney Eugene C. Venn said Tuesday he plans to ask the Lane county grand jury to launch a full-scale investigation into alleged "lawlessness" in the Oakridge area, where the International Woodworkers of America union has been on strike against the Hines Lumber Co. since June 3.

Venn said 20 subpoenas have been issued and are being served.

Although he did not connect the "lawlessness" directly with the Hines Lumber strike, he said the acts of violence are "apparently directly associated with a pending labor dispute."

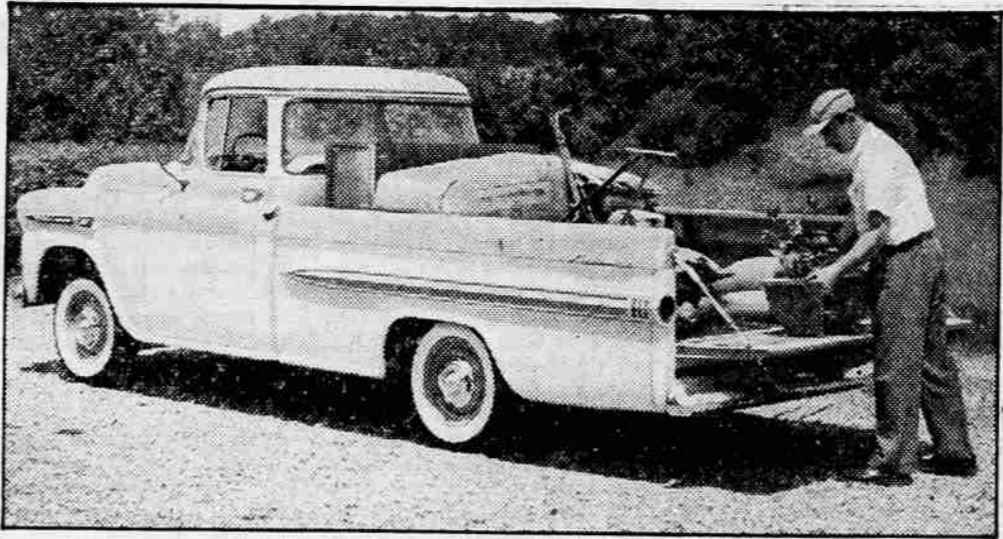

Venn said there was a derailment last summer of a yard freight train, that a state police car and logging vehicles had been "sabotaged," and that there had been reports of violence threats.

He blamed a "small handful of men" for the violence and said the investigations were hampered by individuals afraid to talk.

A store display may become a crime in England if its use causes crowds to create a disturbance in the street.

Marines to Train Aviation Cadets

Washington - (UPI) - The Marine corps will resume training Marine aviation cadets next July.
The corps announced Tuesday it will begin taking applications on Jan. 1 for the first 307 trainees to enter an 18-month course at Pensacola, Fla.
Since 1941, Marine pilots have been trained mainly through the Navy's aviation cadet program or have taken flight training after completing the normal basic Marine officer training.
