

WEST COAST SUB—The USS Sargo, first nuclear-powered submarine to be built on the West Coast, is commissioned at Mare Island Naval Shipyard at Vallejo, Cal. The Sargo is first of a series of five nuclear submarines to be constructed here.

Nuclear Explosion Suspension Said To Rest With Russians

United Nations, N.Y.—UPI—The United States said today the Kremlin itself must decide whether the atomic Big Three will suspend nuclear tests on schedule at the end of this month.

"It is up to the Soviet Union now as to whether tests will be suspended on Oct. 31, or whether they are to continue," a U.S. announcement said.

Pre-Planning for Fire Emergencies Could Save Lives

Medford Fire Chief Gordon said today that pre-planning for fire emergencies could save 85 per cent of the lives lost annually in home fires.

In a special Fire Prevention Week message, Barker said too many deaths are caused by people falling asleep while smoking or re-entering burning homes to rescue pets and personal possessions. Most fire deaths tragically involve families in the home, he noted.

Every day in the United States, he pointed out, there are about 1,400 home fires, 31 deaths by fire, 135 store fires, 100 factory fires, 110 barn fires, 11 school fires, four hospital fires and nine church fires.

Suffocate From Smoke

Most of the people who die in home fires are not burned, he noted. They usually suffocate from smoke and fire gasses.

Barker recommended four rules to avoid being trapped in homes by fire. They are:

1. Plan at least two ways to get out of every room in the house.
2. Make exit plans for every member of the family, day and night, and rehearse them regularly until everyone understands clearly and can move through the plan swiftly and smoothly.
3. Keep exit routes clear. Avoid placing stoves, space heaters, and furnaces near doors. Fire could start in one of these and block all escape. Makes ure bedroom windows are large enough and low enough to serve as emergency exits.
4. Be sure members of the family know how to notify the fire department quickly and correctly.

Poll Planned for State Police Probe

Roseburg—UPI—State Rep. Al Flegel (D-Roseburg) said today he would poll by mail members of the Legislative Interim Committee on Highways to see if there was sentiment for an investigation of the state police department.

One of the seven committee members, State Rep. Richard Groener (D-Milwaukie) charged that morale has been damaged because of pressure for traffic violations arrests.

Flegel said there would be a hearing if the committee wanted one but that it would not come until late in November or early in December.

Ike 'Just Must' Make Oregon Visit

Portland—UPI—John Johnston, Republican candidate for Congress from the third district, said today President Eisenhower told him he "just must" come to Oregon in connection with his scheduled Oct. 22 appearance in California.

Johnston said he talked to the President for 15 minutes last week and told him he would like to visit Oregon. "He chuckled and said, 'I just might,'" Johnston said. "It was off the cuff, and I don't consider it a definite commitment, Johnston said.

Butler Accuses Republicans of Gag

Wichita, Kan.—UPI—Democratic National Chairman Paul Butler blamed Republicans Tuesday night for trying to gag criticism of Eisenhower-Dulles foreign policy; then accusing Democrats if anything bad happened in international affairs.

Butler told Kansas Fourth district Democrats that the Republicans were guilty of an "operation in double think" on the issue of the administration's China policy.

He said the President's recent objection to criticism of U.S. policy on Quemoy-Matsu by Sen. Theodore Francis Green (D-R.I.) and other Democrats was "outrageous."

The "River of Kings," written by the poet Kalhana in 1148 in India, has more than 3,500 verses.

Experiments Resumed

Russia, which "suspended" tests after completing a series in March, resumed experimental explosions late last month without consultation or advance warning.

The falsity of the Soviet "suspension" was revealed Tuesday by Foreign Minister Andrei Gromyko, who told a news conference here that Russia will continue tests until it equals the number conducted since March by the United States and Britain.

Atomic expert Ralph E. Lapp, interviewed by UPI in Washington, speculated that the Russian propagandists who inspired the spring "suspension" of tests have been overruled by the Red Army.

The United States and Britain, only other current producers of nuclear weapons, had offered to suspend tests for at least a year beginning Oct. 31, scheduled opening date for negotiations in Geneva on a test ban.

Intention Reaffirmed

"We once again reaffirm our intention to suspend tests at the end of this month, provided the Soviet Union does the same," Tuesday's U.S. statement said.

"We hope that what Mr. Gromyko said today does not mean that he is seeking justification for a U.S.S.R. policy of continuing unrestricted nuclear testing now that some progress has been made toward an agreement."

Western diplomats said Gromyko's statement appeared to be a gesture designed to support Russian efforts to push a resolution providing for an uncontrolled suspension of tests through the General Assembly before Oct. 31.

Democrats Lead Choice by Labor

Portland—UPI—Organized labor Tuesday announced its choice for office in the November elections with Democrats dominating the lists.

The executive board of the Oregon AFL-CIO Committee on Political Education approved Gov. Robert D. Holmes and Labor Commissioner Norman O. Nilsen, both Democrats, for reelection.

It also endorsed incumbent Democratic Representative Charles O. Porter, Al Ullman and Edith Green. Attorney General Robert Y. Thornton, Democrat, was favored by labor in his race against Rep. Walter Norblad.

The committee expressed no preference on capital punishment.

JUST A GIGOLO

Atlanta—UPI—City aldermen voted down a bill to allow licensed gigolo services to operate in Atlanta. But the bill passed easily when the word "gigolo" was changed to "escort."

Grange News

Upper Applegate Grange

Plans have been completed for a Booster Night program by Upper Applegate Grange Friday evening, Oct. 10, in the Grange hall commencing at 8 o'clock. The event will be open to the public and all are welcome to attend. There will be a "country store" whose stock will be sold by silent bids. A door prize is to be awarded, and refreshments will be served. Charter members of the Upper Applegate Grange will be honored during the evening.

Members are reminded to bring sandwiches for the refreshment hour, and items from gardens, panty shelves, or anything else they choose, to be added to the stock of the country store. Each member is also expected to bring at least one guest. Visitors from other Granges in Jackson and Josephine counties have already accepted invitations to be present and a large attendance is anticipated.

Composing the committee in charge of arrangements are Grange Lecturer Anna Scott, Ways and Means Committee Chairman Ethel West and HEC Chairman Edna Sawyer. Grace N. Pearson, Publicity Chairman

DEAN CLINIC

ON THE HOUSE—One of the most ingenious bootlegging contraptions ever uncovered came to "light" in Anderson, S. C., when deputies found a cache of illegal liquor with a dispensing faucet concealed beneath a ceiling light globe. Here, Bob Glenn (right) draws a fruit jar of moonshine from the hidden tap as Hubert Guthrie and deputy Frank Brook (center) hold some of the evidence. A 50-gallon supply barrel was found in the attic of the home.

BUS STOPPER

Oakland, Calif.—UPI—Passengers on Key System buses lost almost everything imaginable, but transit company officials said Sailor Gerry Sasser topped the list. He lost a crocodile. Sasser, stationed at Oak Knoll Navy hospital, said the foot-long baby reptile slipped out of his traveling case. The "croc" eluded capture on bus No. 39 for five days, but was finally collared when it emerged from beneath the driver's seat.

IF AT FIRST...

Knoxville, Tenn.—UPI—Urban S. Anderson, 47, was reported improving in a hospital today despite five futile attempts to take his own life. Investigators said Anderson plunged a live electric wire into a bathtub full of water in which he was standing, slashed both his wrists and drank two cans of household cleaner, a quantity of bleach and a can of lighter fluid.

The ancient Egyptians used the scarab, symbol of a beetle considered to be sacred, as a seal and amulet.

Gassy?

3 Times Faster Relief
Certified laboratory tests prove BELL-ANS tablets neutralize 3 times as much stomach acidity in one minute as many leading digestive tablets. Get BELL-ANS today for the fastest known relief. 35¢ at drugists. Send postal to BELL-ANS, Orangeburg, N. Y. for liberal free sample.
