

## Try and Stop Me

By BENNETT CERF

**B**ELIEVE IT OR NOT, the author of this verse, Annie Grey Young, is a TEXAN: One day I met a Texan who was talking of his state. While sitting in the park he said "This place is not so great.

A lot of states have cattle and a lot of states have oil, And other states grow better crops for they have better soil.

Our girls aren't always prettier, our men aren't always tall, And often we say things are are big when they are really small.

I met this man in Austin and I talked to him all day, But then two men in white came up and led the man away.

## Rev. Neely Added To Counsellors of Marriage Service

Dr. Harry Danielson announced last week that the name of the Rev. James Neely has been added to the list of counsellors in the volunteer Family Marriage Counselling service now working under his direction.

He emphasized again, however, that those wishing to avail themselves of this service should not call the individual counsellors but rather the Child Guidance Clinic office at Spring 3-3174. They will generally be assigned to a counsellor with whom they are not personally acquainted.

**Demonstration Program**  
This service, it was pointed out, has been established as a demonstration program in the hope that the community will later set up a similar service with a professional staff.

The volunteer unit is naturally more limited in scope than a professional one would be. Dr. Danielson pointed out, but all the counsellors are people who have had training and experience in the field and all work under the guidance of Dr. Danielson.

All volunteers are busy in their own professions but are giving their time because of their conviction that it is important to give help to people with problems, especially in cases where a marriage break-up may be prevented, he noted. Besides the ministry, the profession of law, medicine and social work are all represented among the counsellors.

## Mexican Trains Resume Operation

El Paso, Tex.—UPI—J. G. Hernandez, Mexican National Railways agent in El Paso, said yesterday that train service between El Paso and Mexico City has been restored after being suspended for three weeks by track and bridge washouts in northern Mexico.

Hernandez said train service over the 1,273-mile run to Mexico City was resumed Friday. He said floods destroyed 10 bridges and caused scores of track washouts along the line, forcing suspension of service for 21 days.

## Salk Vaccine Cargo Heads For Portland

Washington—UPI—A cargo of Salk anti-polio vaccine is to be shipped from Indianapolis to Communist Poland today, the State Department announced Friday.

The vaccine will be used for first-round inoculation of three million Polish pre-school children who live in areas where polio has been prevalent in recent years.

The vaccine, along with a second shipment later this year, will cost the Polish government \$1,200,000.
