Caril Fugate's Jury Selected

Lincoln, Neb.—UPI—The men and women who will decide the fate of Caril Fugate, 15, companion of mass murderer Charles Starkweather, were selected today during the third day of Caril's first degree murder trial.

A District Court jury of seven men and five women was seated.

In all, 47 prospective jurors were questioned.

Caril is charged with helping Starkweather, her teenage boy friend, rob and murder Robert Jensen, 17, last Jan. 27 near Jensen's home at Bennet, Neb.

Under Nebraska law, the person who helps in commission of such a crime is as guilty as the one who committed the actual slaying.

Defense attorney John McArthur said Caril will testify in her own defense. She is eager, he said, to relate her story that Starkweather forced her to accompany him during a bloody week of terror last winter when 10 persons were killed.

Eisenhower Calls Space Council To White House

Washington—UPI—President Eisenhower summoned his space council to a White House meeting today to take up the explosive controversy between the Army and the new civilian space agency.

Many authorities believed the Army's future in space exploration and rocket weapons development was at stake in its fight with the National Aeronautics and Space Administration.

No Final Decision

White House Press Secretary James C. Hagerty said no final decision would be made on the matter today.

NASA Administrator T. Keith Glennan also has proposed to the Army that his new agency take over the Army's present arrangements with the jet propulsion laboratory at Pasadena, Calif., for space and missile work.

President To Decide

If the NASA bid is successful the Army's hold on space would be considerably cut down.

Up to Tuesday night, authorities said, a compromise had not been worked out among the Army, NASA and the Defense Department.

The President has said he would decide himself what federal agencies or facilities would be transferred to the new space agency which was set up under the space act of last July. Until Dec. 31 the President can make such decisions without referring them to Congress. After that congressional approval must be obtained.

President Returns From Campaigning

Washington—UPI—President Eisenhower returned home today from a two-day campaign trip into West Virginia, Pennsylvania and New York.
