

Brewery Named in Anti-Trust Suit

Washington—UPI—The Justice Department has filed a suit to require Anheuser-Busch, Inc., of St. Louis to dispose of a Miami brewery on grounds its ownership of the plant tended toward monopoly.

Anheuser-Busch bought the brewery last February from the American Brewing company.

The department's anti-trust suit, filed Thursday in Federal court at Miami, charged the acquisition of the brewery may tend to lessen competition and give Anheuser-Busch monopoly control of the Florida beer business.

Mark of Ability

Only MARK HATFIELD can give Oregon the dynamic, new leadership it needs now. By his warm friendliness, his exceptional skill in public affairs and his independence from political pressures, MARK HATFIELD has demonstrated the ability, the integrity and the political courage to become one of Oregon's greatest governors.

MARK HATFIELD
Oregon needs him for Governor... NOW!

Pd. Pol. Ad by Hatfield for Governor
Committee of Jackson Co.
Kathleen Bash, Chmn., Bundy St., Medford

Prince Philip To Visit Coal Mine

Springhill, N.S.—UPI—Rescue workers searching for the 49 miners still missing in a caved-in coal mine planned to take a precious few moments off today to show a royal visitor around the scene of the disaster.

Prince Philip, who has been visiting in Ottawa, said he would cut short his stay in the capital and fly by jet airplane to Springhill today to visit the pithead and to talk to survivors in the hospital.

He planned to leave tonight for the flight back to London. Three teams of rescue specialists continued today the search for the missing miners, but hopes of finding any more survivors were slim.

The Cumberland Railway and Coal company listed 32 known dead out of a total of 174 men who were in the mine when the earthquake-like "bump" caused the cave-in. A total of 93 men had been rescued.

Little Action Seen Forthcoming Soon On Big Labor's Campaign Expenditures

By LYLE C. WILSON
UPI Correspondent

Washington—UPI—When the returns from next Tuesday's election are in, there is likely to be a lot of Republican talk but no action about Big Labor's campaign spending.

Lyle C. Wilson

Section 304 of the 1947 Taft-Hartley Act prohibited unions, banks and corporations from making contributions or expenditures in connection with a federal election. Section 304, although a part of the Taft-Hartley Act, actually was an amendment to a long standing statute, the Corrupt Practices Act of 1907.

Both labor and corporations, however, are spending in this campaign with considerable freedom and liberality, the sums being reported and on record in the office of the clerk of the House of Representatives. If this seems to reflect a confused situation in which the known facts seem each to contradict the other that is correct. There is a confused situation which came about like this:

Section 309 Attacked
The hottest, fastest and most successful labor challenge to the Taft-Hartley act was directed against Section 304. Malcolm C. Moos, who is now a member of President Eisenhower's speech writers, explains the events leading up to the current confusion in a book, "A Grammar of American Politics," (Knopf), which Moos wrote jointly with Wilfred E. Binkley.

Key word in the controversy over Section 304, Moos relates, was the word "expenditures." The section forbade both expenditures and contributions. Moos continued:

"The inclusion of this word (expenditures), according to union arguments, not only forbade making contributions but it actually prohibited making any expenditures whatever. Under this interpretation, union spokesmen argued that the mere hiring of a hall to discuss politics, buying radio time to broadcast political views, printing or circulating a newspaper with a political opinion, and circulating handbills, were all barred by the word 'expenditures.'"

On such grounds CIO President Phillip Murray moved immediately after the Taft-Hartley Act was enacted to test the constitutionality of Section 304. Murray used union money to publish in "The CIO News" the CIO's support of a candidate in a Maryland special U.S. Congressional election. The CIO candidate won. The Justice Department obtained a grand jury indictment of Murray and the CIO.

Funds Available For Farm Loans

Funds are now available for two types of farm improvement loans, Eugene M. Denney, county supervisor of the Farmers Home administration for Josephine and Jackson counties, announced today. These loan types are classified as soil and water conservation and farm-housing.

The soil and water conservation type loan may be made for both domestic and irrigation improvements, establishment of permanent seeding and drainage improvement. Association type of loans may be made to a group of farmers who need funds for financing a water project for the mutual benefit of all.

The farm-housing loans are available for making building improvements on farm units. This may be either remodeling or for the construction of new dwellings and outbuildings.

Either of these two types of loans may be made on small farm units where the applicant is working off the farm. Payments are scheduled annually in amounts a borrower can reasonably be expected to meet.

Further information may be obtained and applications filed at the local Farmers Home administration office in room 9 of the Manchel building or by mail addressed to postoffice box 311, Grants Pass.

Hunted Animals Fighting Back

Knoxville, Tenn.—UPI—The animals are fighting back in east Tennessee hunting grounds.

In the Tellico National Forest, King B. Walker Jr., was hunting wild boars Thursday. The dogs jumped one and ran it back toward him.

Walker fired at the galloping boar, but missed. The animal bowled him over, and 26 stitches were required to close tusk wounds.

C. L. Hatmaker was after squirrels near Norris Lake when a hawk with a four-foot wingspread swooped down and fastened its talons in his arm.

Hatmaker had to kill the hawk to loosen its grip. He was treated for puncture wounds.

TWA Machinists Set Strike Tonight

Kansas City, Mo.—UPI—About 6,700 employees threaten to strike tonight against Trans World Airlines, halting its international operations.

Cliff Miller, general chairman of District 142 of the International Association of Machinists, said Thursday a "final" offer from TWA was completely unacceptable.

Miller said TWA offered "substantially less than necessary to bring the wages of our membership in line with skill and responsibility required by their jobs." He said the company has ignored a union request for reevaluation of several work functions.

The company has said that if the 6,700 machinists strike, TWA will have to lay off 19,000 other employees.

San Francisco Feels Earthquake

San Francisco—UPI—A fairly strong earthquake shook San Francisco and a 100-mile stretch of the California coast Thursday, but caused no serious damage.

Seismologists at the University of California Berkeley said the tremor lasted four minutes and recorded a magnitude of 4.25 on the Richter scale.

The earthquake which caused serious damage here on March 22, 1957, recorded 5.25, while a quake of 8.5 magnitude in 1906 resulted in the disastrous fire which partially destroyed the city.

Thursday's tremor was felt as a single shock in some areas and as a rolling movement in others.

It was felt as a sharp jolt in the United Press International office on the sixth floor of the San Francisco News building in downtown San Francisco.

PRINCETON MAN DIES
Princeton, N. J.—UPI—Radcliffe Heermance, 76, the first director of admissions at Princeton University, died Wednesday of a heart attack.

Now there's an Impala Sport Sedan... one of Chevy's full series of Impalas for '59.

NEW ENGINEERING THAT GOES DOWN DEEP-'59 CHEVY

It's new in a way no car has ever been new before. Beautifully new—from grille to rear deck. Sensibly new—from its wide-stance stability to its visibility. And new in important engineering refinements it brings for the first time to the low-price field.

High-Compression V8's give a choice of standard 283-cubic-inch V8 and seven others,* including 348-cubic-inch engines with compression ratios all the way to 11 to 1.

Engine Cooling Covers, housing new parking and directional lights, circulate an extra stream of cooling air under Chevy's hood.

Easy-Ratio Steering is the next thing to power steering for ease and maneuverability. Overall ratio is now 28 to 1.

New Areas of Visibility provide up to 50 percent more seeing area. Win-

dows are larger on most models and the new Vista-Panoramic windshield curves back to let you see traffic lights and other overhead objects. There's a **Safety Plate Glass** all around, of course.

Comfort Tailored Interiors, with door upholstery extending snug to the windows, invite you to travel in tasteful elegance.

New Hi-Thrift Six gets up to 10 percent more miles a gallon, gives more zip at normal speeds.

Maglo-Mirror Finish—with long-lasting acrylic lacquer base—requires no waxing or polishing for

up to three years!

More Head Room—up to 1 1/2 inches—adds to your comfort in the stylish new Chevrolet.

Gentler Air Ride*, superbly engineered to combine easy action with rugged durability, takes ripples out of the roughest roads.

Wide-Stance Stability—a result of the '59 Chevrolet's wider tread and lower center of gravity—brings you a new road-hugging feel.

Larger Luggage Compartment on sedans and sport models allows extra room for long trips. Station wagons are roomier, too.

New Tyrex Cord Tires roll easier, last longer, make driving safer. Wheels and tires are balanced as a unit at the factory!

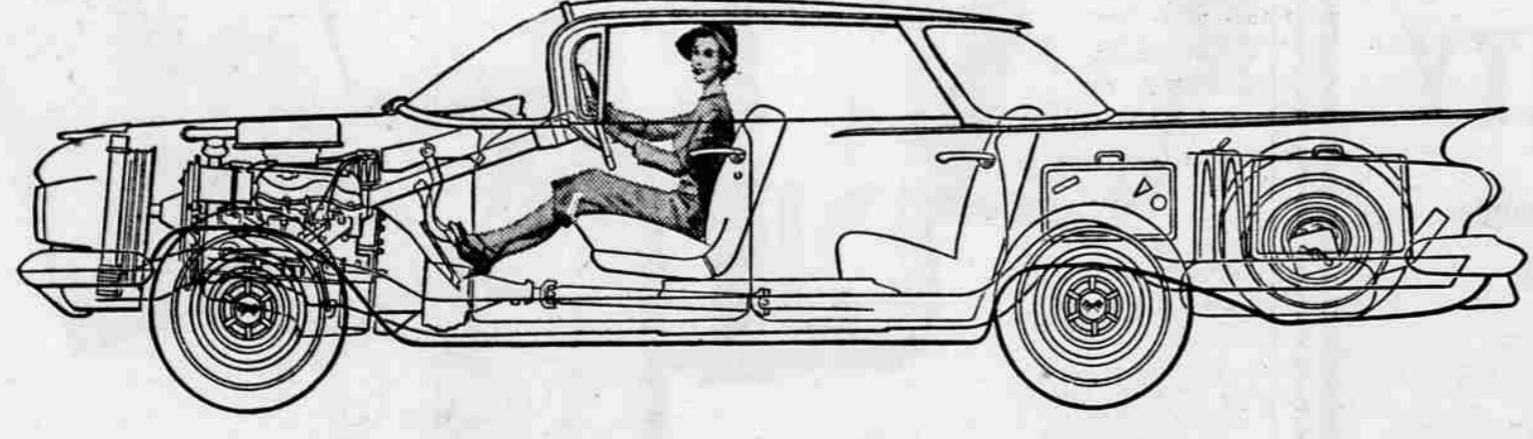

Stiffer, Quieter Underbody insulates you from the road, helps muffle noise and vibration to make driving more serene.

High Road Clearance helps take you over the roughest roads. Approach angle has been increased for clearing inclines.

Superior Rear Suspension, with lateral control bar, improves handling and ride. You'll feel the difference on any road!

what America wants, America gets in a Chevy!

Hatfields Refuse Comment on Report

Salem—UPI—Secretary of State and Mrs. Mark Hatfield today refused to comment on reports they are expecting a child. They only smiled and said such things should not be discussed during a political campaign. Hatfield is Republican candidate for governor in the Tuesday elections.

First reports that Mrs. Hatfield was pregnant came from persons connected with the Hatfield for governor committee.

Kentucky was the 15th state admitted to the Union.
