Weather Scientist Says Man Would Be Fool To Fool With Weather

Washington–(UPI)–Man would be a fool to fool around with the weather.

If he could change the weather and did, he might very well wish he hadn't.

That, at least, is the view of one prominent weather scientist, Dr. Harry Wexler.

Wexler is director of meteorological research of the U. S. Weather Bureau. He also is chief scientist of the U. S. antarctic research program.

In an article published in the journal "Science," Wexler says current proposals for large scale weather modification "are either impractical or likely to produce cures that are worse than the ailment."

Propose Carbon Film

One proposal for changing the earth's heat balance and thus alter its weather is to blacken the arctic ice pack and certain deserts with a thin film of carbon.

This theoretically would result in greater absorption and less loss of heat received by the sun. To accomplish anything with this method it would take, Wexler estimates 1½ billion tons of carbon for arctic and half a billion tons for the deserts.

The film would have to be laid down by low-flying airplanes. Wexler figures this could be done with 200 million flights by Air Force Globemasters lugging 10 tons of carbon per flight.

This would take considerable time. Meanwhile wind, melting, frost and snow or drifting sand would be doing their best to undo the job.

An alternative would be to generate thick fogs of ice crystals which would reduce radiation of solar energy back into space. Wexler's recipe for cooking up such a fog is as follows:

Create Ice Age

Take 10 really "clean" – that is non-radiactive – hydrogen bombs each equal in energy to 10 million tons of TNT.

Explode them at just the right depth in the Arctic ocean to produce the right amount of steam.

The steam thereupon gushes into the atmosphere and condenses into water droplets which freeze, forming the required ice fog.

If the ice crystals were just right, and the fog properly distributed horizontally and vertically, and the cloud lasted long enough in the right seasons, the cold Arctic might get warmer and other climatic changes might take place elsewhere.

But would that be good? No, Wexler says. An iceless Arctic would release more water into the air by evaporation, and snowfall would become heavier.

This would increase the size of existing glaciers and cause new ones to form, "creating a new ice age" endangering the life of cities and communities south of the Arctic.

14 Seeking Political Return

Washington – (UPI) – Thirteen former Congressmen and one ex-Senator are hoping voters will give them a return trip ticket to Washington in Tuesday's balloting.

Arizona Gov. Ernest W. McFarland, one-time Senate Democratic leader, is the only former Senator trying a comeback. McFarland is running against Barry M. Goldwater, the GOP incumbent who barely defeated him in 1952 and ended his role as Democratic floor leader.

Five Democrats who previously served in the House are trying for Senate seats. They are Thomas J. Dodd (Conn.); Thomas D'Alesandro (Md.); Harrison A. Williams, Jr. (N..J.); Stephen M. Young (Ohio) and Jennings Randolph (W. Va.)

Eight former members hoping to return to the House, as did former Congressman James C Oliver D.) in Maine's Sept. 8 election, are: Fred A. Gartner (R-Pa.) and Democrats Harris B. McDowell Jr. (Del.); Don Hayworth (Mich.); Alphonse Roy (N. H.); James M. Quigley (Pa.); Hugh B. Mitchell and John M. Coffee (both of Wash.) and Robert H. Mollohan (W. Va.)

Japanese Film 'To Tell Truth'

Tokyo–(UPI)–A rightist film to tell "the truth" of World War II and "correct" the thinking that Japan was the aggressor will be released here soon.

The film is a two-and-a-half-hour Technicolor production entitled "The Greater Asia War and the International Tribunal."

Advance notices on the film, among other things, indicate that:

–The picture will try to show that Japan was forced to fight the last war, thus was not the aggressor.

–The attack on Pearl Harbor was not a surprise attack, but only "appeared" that way because the Japanese Embassy was slow in translating vital messages.

–The International Tribunal which condemned wartime Premier Hideki Tojo and other leaders to death was "unreasonable and illegal."

The roles of General Douglas MacArthur, General Arthur E. Percival and General Jonathan Wainwright are to be played by actors.

"Tokyo Rose" and Mrs. MacArthur are also to be played by Japanese actresses.

Seattle Executive Dies in Auto Upset

Eugene – (UPI) – A Seattle television executive, Thomas W. Towey, was killed instantally Sunday and his wife, Ellie, also 29, injured when their car crashed on the Pacific highway near here.

Mrs. Towey was reported in "fairly good condition in Sacred Heart hospital today.

State police said the one-car accident occurred shortly before noon when Mrs. Towey swerved the auto to avoid striking a dead dog lying on the highway.

Towey, a producer-director for television station KIRO in Seattle, and his wife were returning from a vacation in Mexico, authorities said. Neither of the Towey's two children was with them at the time of the accident.

The otter, a member of the weasel species, can swim fast enough to catch the most rapid fish.

Good Ol' Honest Home-ly

Vote for HOME-LY HOUSER for State 'Dawg' Catcher

HOMELY SEZ:

The last few days I have heard remarks such as "The state is going to the dawgs" or "I wouldn't vote for that dirty so-and-so for dawg catcher," so I believe something should be done.

My platform—Fair treatment to all dawgs, dirty or otherwise. All dawgs to have one day set aside as their day. (Every dawg must have his day you know.)

My promises—Anything, just anyth... ill. A bone in every mouth, a wag in every tail, autor... a chasers, a cat to chase up a tree.

My code—Honesty is the best policy when you're too dumb to remember your lies and too nervous to steal.

Remember a vote for Home-ly is a vote for your friend, everybody's friend and will keep the state from going to the Dawgs.
