Plywood Study To Result in More Jobs in Oregon

Lebanon—UPI—Two Oregon plywood firms announced Wednesday the results of a \$46,000 study which may mean more jobs and income to the people of Oregon through greater use of logs formerly left in the woods. The study consists of a report evaluating the strength and performance of Douglas fir plywood with white-picket-infected veneers in interior plays. Officials of Western Veneer and Plywood Co., of Lebanon, and Plywood Products Corp., of Corvallis said they expect the move to help resolve the controversy in the plywood industry over proposed changes in plywood grading standards. Reasonable Basis Many plywood companies which do not have the service of a quality control agency will be able to have their products certified on a reasonable basis. Company officials said that now the white-speck-infected logs will be able to be recovered and used as marketable material. The study will be made available to other industry firms through the Timber Engineering Co., of Washington, D. C., research organization of the forest industries.

BRITISH STEEL DOWN
London—UPI—British steel production is continuing to drop, the Iron and Steel board reported today.

Air Service Planned In Northern Calif.

Yreka, Calif. — The Siskiyou county board of supervisors this week approved a request from Northern Skyways Inc. for space to construct hangar facilities at the county airport at Hontague. Michael T. Hennessy, attorney and secretary for the corporation, said maintenance and storage hangars are planned immediately, and that other hangars will be constructed later. Hennessy indicated that Ft. Jones, Dunsuir, Mt. Shasta, and Happy Camp may be included in daily flights along with Montague. He said he felt the ending of service at Montague by Pacific Airways, Inc., has worked a hardship on residents of northern California.

O. J. LeBaron of Yreka, president of the corporation which was formed recently, said there is a need for contact with Redding to accommodate persons traveling to the Mt. Shasta Ski bowl. The new corporation also would restore air mail service to the area, he noted. LeBaron said the firm plans to start construction immediately, and expressed hope the scheduled flights may begin within six to eight months.

ABUSES PRIVILEGES
London—UPI—Convicted burglar Daniel Killgallon lost his week end privileges today because police discovered he was using his time away from prison to pick up extra money by housebreaking. Besides taking his week end privileges away, the court also sentenced him to another eight years in jail.

Moon Volcano Photographed

Moscow—UPI—Soviet astronomer Nikolai Kozyrev recently photographed a volcano erupting on the moon, the official Soviet Tass news agency said Wednesday night. Kozyrev took the photograph at about 4 a.m. Moscow time Nov. 3 with the 50-inch reflector of the Crimea Astrophysical Laboratory, Tass said.

Kozyrev described the eruption as a reddish glow that grew in intensity after two hours.

"There was every reason to believe that it was a normal development of a volcanic process on the surface of the moon," he said. Alexander Mikhailov, chairman of the astronomical council of the Soviet Academy of Sciences, said spectrograms left no doubt that Kozyrev had seen a volcano. "We can now regard as entirely wrong the view on the origin of the main features of the lunar landscape as being due to the impact of meteorites," he said. "This volcanic eruption shows that the processes responsible for the formation of the surface relief apply both to the earth and the moon."

Dick Cottingham Gets Portland Job

R. S. (Dick) Cottingham, claims representative in the Medford district office of the Social Security Administration for the past two years, has been promoted and transferred to the Portland district office, W. V. Nusbaum, district manager, has announced. Cottingham will work as a field representative out of the Portland office, and will report to that office Monday, Nov. 17.

Mann's To Hold Party for Employees

The annual Mann's Department store party, given by the firm's president, John P. Mofat, will be held at the Rogue Valley Country club tonight. The party is in observance of Mann's 48th anniversary. During the anniversary month, October, two teams of employees were organized. The team which made the smaller sales increase during the month is in charge of party arrangements and entertainment.

R. E. Culbertson is in charge of music. Awards will be presented to top salespeople for October as well as the department head who had the greatest increase in sales.

Nixon Speaks During Sleep

Miami—UPI—Vice President Richard M. Nixon, a hard-hitting political campaigner when awake, makes non-political speeches in his sleep, a dentist reported today.

Nixon was given a drug called "nerval," described as a form of so-called "truth serum," Wednesday as anesthetic for the extraction of an infected wisdom tooth.

The two dentists in attendance reported that Nixon made a speech after the extraction, while the anesthetic was wearing off.

They said he told the audience—the two dentists and three nurses—about the American way of life, discussed a variety of general topics and praised his wife for bravery in Venezuela, where Nixon was attacked by a stone-throwing mob earlier this year. The dentists said he made no partisan political remarks.

After the speech, they said, he asked when they planned to remove the tooth. The dentists said they had to show him the extracted tooth to prove the job had already been done.

Kelso Youth Object Of Extensive Hunt

Kelso, Wash.—UPI—A search party today continued looking for Leon Raglin, 18, Kelso, who has been missing since Tuesday morning.

Lonny Rodgers and Leland Freund, both 17 of Kelso, told sheriff's officers that they lost contact with Raglin while on a hunting trip in the Big Bull mountain area in Weyerhaeuser Timber Company woods.

State patrolmen, loggers, members of the Jeep club and the Kelso Police Auxiliary have all joined in the search.

Dan Steiner, chief deputy in charge of the search, said that it must be assumed that Raglin is hurt since he has not found his way to a road because he is familiar with the country.

Seal Hunting Contract Signed

Portland—UPI—The Oregon Fish Commission said today it has signed a contract with a Springfield man to hunt seals on the Columbia river.

The Commission said William F. Pausinen would start work Feb. 1 and would continue on the contract through next September. He will be paid \$40 a day.

Oxygen Leak Delays Testing of Atlas

Cape Canaveral—UPI—Liquid oxygen poured intermittently for several hours from an intercontinental Atlas missile early today, but a scheduled 3,100-mile flight finally was postponed.

The Air Force did not explain why it "scrubbed" the 80-foot missile which would be the 14th fired since flight testing began in June of 1957.

It was the first Atlas firing attempt since Sept. 18, when a try at sending the 100-ton missile the full 6,325-mile intercontinental distance ended in an explosion only 80 seconds after launching.

The sea urchin walks on the tip of its teeth.
