

Queen Observes 11th Anniversary

London —(UP)— Queen Elizabeth II today celebrated the eleventh anniversary of her wedding to the Duke of Edinburgh with a bouquet at breakfast and a secret piece of jewelry as reminders.

The Queen found the bouquet waiting at the breakfast table. The white flowers, including lilies of the valley, were like the ones she received from her bridegroom on her wedding morning.

She carried the flowers up the aisle of Westminster as she leaned on the arm of her father, King George VI, on her way to marry the newly-created Duke of Edinburgh, Prince Philip.

Since then Philip always has sent his wife flowers on the anniversary, which is marked as a family occasion and not a national celebration.

Philip also gives the Queen a gift of jewelry, often something designed by himself.

Threat of Suit Faces Sinatra

Miami Beach —(UP)— A Miami dog track owner has threatened to sue singer-actor Frank Sinatra for backing out of an alleged agreement to show up at the races Wednesday night.

Isadore Hecht, president of the West Flagler Kennel club, said he would take the needed legal action to prevent a movie company from using parts of a film it shot at the track.

Hecht claimed that Bernard Frank, whom he identified as Sinatra's local representative, approved a publicity agreement in which the crooner was to appear to present a trophy after the 10th race.

The dog track owner said Sinatra, here for the filming of "A Hole in the Head," was to make the appearance in payment for footage the movie company took at the track.

A spokesman at the Fountainbleau Hotel where Sinatra was staying said he was in bed with a 104-degree temperature Wednesday night.

Second Little Rock In London Expected

London —(UP)— Conservative leaders in the House of Lords says that unless something is done to curb massive Negro immigration London may well become a "second Little Rock."

The Marquess of Salisbury, who resigned as majority leader of the upper house last year, led in demanding restrictions on Negro immigration in an unusual four-hour debate Wednesday in the upper house.

He was opposed by Laborite Lord Pakenham, who urged the elimination of segregation in England. Pakenham called for legislation to forbid the exclusion of Negroes from housing, bars and other places of public entertainment.

Lord Somers, supporting Salisbury in the debate, said "We want to avoid having a second Little Rock in Notting Hill (London's 'Harlem')."

Radio, TV Networks Talk With Union

New York —(UP)— The major television and radio networks and the American Federation of Television and Radio Artists adjourned a nine-hour session of negotiations on a new contract early today and scheduled talks later today to consider an "ultimate in offers" by the networks.

The "ultimate in offers" was handed union negotiators at the end of the latest in a series of meetings to avert a threatened strike. In the meeting the union withdrew its demand for a flat 10 per cent wage increase and substituted demands covering specific classes of performers.

Still remaining to be resolved are several "policy matters," most of them in the video tape field. The union has demanded that the networks agree not to stockpile taped shows to be used during strikes.

Burlington Freight Train Derailed

Yuma, Colo. —(UP)— A string of 15 to 20 cars on a Burlington Line freight train jumped the tracks at this northeastern Colorado community early today.

Leonard Bath, telegraph operator in the Burlington's Denver office, said that no one was reported injured in the crash. Each of the train's crew members was accounted for and safe, Bath said. "The derailment tore up all of our communications. We don't know yet how it happened."
