Retirement Pay For Railroaders To Be Increased

Washington—(UPI)—Rep. Oren Harris said today Congress next year will boost railroad retirement benefits about 10 per cent and pay for it by levying higher payroll taxes on railroads and their employees.

The Arkansas Democrat is chairman of the House Commerce Committee which handles legislation dealing with the railroad retirement program.

Harris said the legislation he envisioned could add as much as \$160 million a year or more to the tax bill of the railroads.

The railroad retirement fund is managed by the government and financed through equal contributions of railroads and their employees.

Despite protests that some railroads were already threatened with bankruptcy, the Senate in the closing days of the last Congress overwhelmingly approved a 10 per cent boost in retirement benefits and a sharp increase in maximum unemployment pay for railroad workers.

The legislation died when Harris and other House backers were unable to arrange House action on the bill before Congress adjourned.

"There's no doubt that the legislation will be enacted next year," Harris told a reporter.

An estimated 650,000 retired railroad workers, widows benefit from the increased annuities.

U.S. Foreign Policy Needs Firmness, Speaker Stresses

This country's foreign policy should be one based on patience, firmness and strength, according to Congressman Walter H. Judd of Minnesota, who spoke last night for Rogue Valley Knife and Fork club at Rogue Valley Country club.

The congressman, who is also a medical doctor and a former missionary in the Orient, declared that when the United States adopts a policy of appeasement, it ends in war; when the nation stands firm, war is prevented.

The speaker said that a refusal to stand up for our principles had brought on both World Wars I and II and the Korean conflict, whereas firmness had caused the Soviets to retreat in Iran, Greece, some of the Middle East countries and in the case of the East German-Berlin situation.

"The Kremlin has never moved a foot against any of the NATO countries," he added. "There is a lesson to be learned from this."

"Steadiness, firmness and patience will win the cold war," Congressman Judd warned his audience that the nation must "tighten its belt" and work harder, and added that since the cold war is proving so expensive, people must learn that "you can't have money for housing, health and highways and a war, too. This crisis is a test of our maturity as a nation."

The speaker opened his talk by saying that "we are living on the same planet with a nation and a cause dedicated to the weakening, isolation and destruction of the United States" and added "we are in inescapable conflict."

Congressman Judd said that since the United States cannot continue the cold war indefinitely, "because it is too expensive," we must concentrate our efforts on how to win it.

"We cannot call it off because the Communists don't want peace," he declared. "The communists said the Soviet is 'keep up talking while they work' and added 'while we talked disarmament, they worked on Sputnik.'"

The speaker declared that the people of this nation underestimate the Communists and said "The Communists mind is extremely creative; not just freedom works as an energizer. The Communists are dedicated to a cause; truth never won by itself, someone has to work at it."

He added that in contrast to this, the people of the United States "don't want conflict for the world, we just want to enjoy it."

Comparing the potential strength of the United States and the Soviets, Congressman Judd said the Communists lead us in territory, manpower, resources, conventional arms and land forces and that they have the "largest and strongest air force" and enough atomic weapons to cripple the United States.

The inter-continental weapons are still an unknown factor, he said.

As opposed to this the United States has the largest and strongest navy, the greater industrial capacity, morale to match the Soviets, and "250 bases surrounding the Communist countries."

He defended these bases by saying that this country only built them up after it was demonstrated that the Communists would not keep their word."

He added "The United States can no longer defend itself—no country can since the advent of the atom bomb."

Congressman Judd said that the United States must have allies, and must support them as they support us. He defended foreign aid as absolutely essential to help make certain countries stronger and keep them on the side of the Western world and added "it shouldn't be called 'foreign aid'—it should be called 'American aid.'"

The speaker also strongly defended Secretary of State Dulles, and his policies, and the administration's action taken in recent months concerning the Formosan situation and the Lebanon crisis.

He said of both "the stake was not Quemoy or Lebanon, but the confidence of the rest of the free world in the United States. The Communists will move in any place where we show signs of weakening. We must keep the doors closed."

He criticized the people, the newspapers and commentators who had spoken out against Dulles and the administration's actions in Lebanon and Formosa and said, "We're in great peril because the people, press and commentators always insist on the government revealing our strategy. We demand that our secretary of state show his hand in advance."

The speaker ended on the note that "men are born to be free" and said, "our greatest ally is the 900 million human beings waiting to be free, and they will be free if we don't desert them."

Congressman Judd, on a tour which takes him to 18 different cities in as many days, was introduced by H. D. Christensen, club president.

Mrs. George Rode took charge of decorations for the event, and Mr. and Mrs. C. H. Buffington were hosts for an after-dinner party which honored the speaker.

Another accident occurred on the Table Rock rd. at Bear Creek bridge when two cars collided.

The cars were driven by Alton Jimmie Covey, 37, of Butte Falls Star route, box 150, Eagle Point, and Marvyn James Kyzar, 47, of 530 South Central ave., Medford.

Officers said Kyzar's car ran into the rear of the Covey car. Kyzar was cited for violation of basic rule, state police said.

Studebaker Auto Workers on Strike

South Bend, Ind. — (UPI) — About 6,200 Studebaker-Packard workers went on strike today when prolonged negotiations failed to produce an agreement.

Members of the United Auto Workers Union Sunday rejected a company proposal which would have tied pay increases on the rate of new car sales.

Last ditch negotiations continued until the early hours today, but broke up in a deadlock. Picket lines were set up outside the plant early today.

The strike is likely to hurt the small car producer in its bid for a bigger share of the nation's new car market. The company is basing its hopes for a comeback this year on a new economy car, the Studebaker Lark. The first said it has received more than 50,000 orders for the 1959 Lark.

Benefit Dance Brings \$83.55

A second benefit dance was held at the Young Men's Christian Association last Saturday night following the Pendleton, Medford Football game.

Sponsored by Theta Rho Iota Tri Hi-Y, the dance netted \$83.55 for the United Medford Crusade fund. General Chairman for the dance was Miss Dewanda Winchell.

Adult chaperones for the event were Mr. and Mrs. D. Baker, Mr. and Mrs. Harvey, Mr. and Mrs. Medley, Mr. and Mrs. Baucus and Mr. and Mrs. Parsons.

The Shadows presented several numbers during the intermission.

Dick Travis, UMC Campaign Chairman, commended the thoughtfulness of the Tri-Hi-Y groups whose two special events have brought in a total of \$164.80 to date. These young people, he said, have a real interest in the work of our youth agencies and other work of the UMC agencies.

Lee Announces Water Shut-Off

Medford water service along the No. 1 pipeline from Little Butte creek to 401 Ranch is to be discontinued from 7 a.m. to 3 p.m. tomorrow, according to Robert L. Lee, city water superintendent.

Lee said today the shut-down is necessary while work crews connect the new Antelope creek crossing to the old pipe on each side of the creek. The new crossing was put in last summer.

He said another, brief shut-down would be required later for installation of blow-off valves currently on order.

Lee also reported an eight-inch main is to be laid "possibly within the next month" to provide supplementary service for part of the Earhart tract. This main would parallel South Riverside ave. from Earhart to Boyd sts. He said this installation is necessary to provide adequate fire protection.

Lee said a main is also to be installed along Barnett Rd. from Stewart ave. to South Riverside ave. to provide water and fire protection for that sector of the Earhart tract.
