## Break Expected In Trans World Airlines Strike

By United Press International  
Federal mediators said today they were optimistic of an early settlement in an 11-day strike against Trans World Airlines, but added the walkout may last a few more days before major points are resolved.

A mediator said agreement had been reached on several points during lengthy talks and "we are chipping away bit by bit" at the remaining differences.

Negotiations in a strike against a second major air carrier, Eastern Airlines, remained deadlocked.

However, Capt. Eddie Rick-enbacker, chairman of Eastern, sought to crack the logjam in the seven-day walkout by proposing arbitration of the line's dispute with flight engineers.

**Holiday Travelers Grounded**  
The strikes against the two airlines grounded about one-third of the nation's commercial plane fleets during the Thanksgiving holiday. Thousands of holiday travelers jammed rail, bus and air terminals seeking alternate transportation.

A strike against a third major airline loomed larger as the Air Line Pilots Association said it would go to court today in an effort to remove legal blocks in its threatened walkout against American Airlines.

The association, representing 1,500 American Airlines pilots, said they would ask Federal Judge Frederick Van Pelt Bryan in New York to lift an injunction against the strike which was issued at the request of the airlines.

## Holiday Traffic Toll Lower Than Normal Week End

By United Press International  
The nation's traffic fatalities in the Thanksgiving Day week end ran below the toll for an ordinary week end of the same duration at this time of year, closing figures showed today.

A United Press International count showed that between 6 p.m. Wednesday and midnight Sunday, 438 persons died in traffic accidents. Fires took 48 lives, plane accidents took five, and other accidents killed 111 persons, for a total of 602.

**California Has 32**  
California had 32 auto deaths; New York 28; Alabama 24; Pennsylvania 21; Illinois 20; Michigan 19, and Ohio and Virginia 18 each to lead the list of states.

Rhode Island, Nevada and Alaska reported no traffic deaths in the holiday period. The National Safety Council, saying that it does not regard the Thanksgiving holiday as one calling for as much travel as Christmas, New Year's, Labor Day and one or two others, issued no advance estimate for Thanksgiving holiday deaths, but noted that in an ordinary 102-hour week end period at this time of year, about 470 persons would be killed in traffic.

The council had no immediate explanation for the traffic toll being lower than normal. A spokesman said that almost nationwide bad weather may have kept many motorists off the roads.

In contrast, last Thanksgiving United Press International counted 554 traffic deaths in a similar period.

## Ex-Gambling Czar Arrested

Poughkeepsie, N.Y. — (UP) — Harry Gross, one-time gambling czar of New York City, was held for arraignment today as a fugitive from California where he is wanted on grand larceny charges.

Gross, 44, was arrested with two companions near here Saturday and, at a hearing Sunday, refused to waive extradition to California. However, District Attorney Raymond Baratta said he will move to have Gross turned over to Los Angeles authorities as soon as possible.

Gross was arrested in New York City in 1951 as the kingpin of a \$20 million a year bookmaking operation. Investigators quoted him as saying he paid police \$11 million a year to protect his ring. But Gross refused to testify against 18 policemen accused of shielding his vast operation and the charges against them were dropped.

Gross served four years of a 12-year term on charges of conspiracy and bookmaking.
