# NOTICE!

Can you believe those in favor of the Off Street Parking measure when they say that, barring a depression or war, they can see no reason why the taxpayer will be required to pay any of the half million dollars? — While in the next breath they tell you that up to 25% or about $18,000.00 to $20,000.00 per year will be removed from the money taken in by on street meters and used to help pay off the half million dollar bond issue. THIS MONEY WON'T EVEN PAY THE $30,000 PER YEAR INTEREST ON THE BONDS.

At the present time all this meter money is being used to help run the city government, therefore, taking a goodly chunk out of it, leaves a wide deep hole in the budget to be filled in by you, the taxpayer, thru higher and higher taxes.

This one contradictory statement in itself, arouses a deep suspicion about the whole measure.

They also claim that the lots themselves will pay off a goodly share of the bond issue. Can you believe that a few parking lots will take in $400,000.00, $300,000.00 or even $100,000.00? If this were a fact, don't you think that people, with large sums of money to invest, would be rushing in to make themselves a tidy profit? That they haven't done so disproves this claim also.

Facts and figures prove that this half million dollar project will end in failure — thereby placing a large share of the debt on the taxpayers' shoulders. Keep your future taxes down. Be sure to vote Wednesday and vote NO!!!

# Fog Blankets So. California

Los Angeles – (UPI) – Fog shrouded Southern California from Santa Barbara to San Diego today, snarling land, sea and air travel for the second day in a row.

Traffic was reduced to a crawl in the populous Los Angeles Basin and all law enforcement agencies were out in force to help untangle bumper-locked motorists.

The fog was especially heavy in San Fernando and San Gabriel Valleys where police reported they hardly could see across the street from their stations. Motorists groped along busy streets, hugging tail lights of those ahead of them or by watching curb lines.

A choking layer of smog accompanied the fog blanket. A smog alert was sounded Monday in the late afternoon when the ozone concentration reached the first stage level of .50 part ozone per million parts of air.

Airports were closed for several hours and many of the area's more than five million inhabitants were late to and from work as visibility was reduced to zero.

# Six Transients Plead Innocent

Six transients pleaded innocent to vagrancy charges in Medford municipal court this morning after their arrest yesterday in a pickup truck on East Main st. near Riverside ave.

Medford police were alerted by a report that some men were attempting to peddle refrigerator equipment.

Municipal Judge Noreen Kelly set bail at $10, and called for individual trials on Dec. 12, 15, 16, 17, 18 and 19. She said later this action was taken since they could be convicted of the charge on different grounds, the court docket was crowded and it would take an entire day to try them all at once since, if they were tried together, it would be too difficult to ascertain the true facts of the case.

The men, all in city jail this noon, are Charles Lindbergh Youngblood, 32, Jesse Alonzo Youngblood, 33, Paul Jackson Hamm, 46, and Edward Fred Hurley, 50, all of San Francisco; Reno Leroy William, 47, of McCleary, Wash., and Alcid William Moran, 50 "transient."

# Goldfine Indicted by Jury On Charges of Contempt

Washington – (UPI) – Industrialist Bernard Goldfine was indicted by a federal Grand Jury today on 18 counts of contempt of Congress.

The charges were based on Goldfine's refusal to answer 18 questions — all involving transactions of the Boston Port Development Co.—at House hearings last July on his troubles with federal regulatory agencies and his friendship with Presidential Assistant Sherman Adams.

**Second Legal Action**

Goldfine told the House Legislative Oversight Committee the questions concerned the "internal affairs" of a private company and were therefore outside the committee's powers of inquiry.

Today's indictment was the second legal action involving Goldfine in two days. A U.S. Court of Appeasl in Boston Monday denied Goldfine's appeal from a lower court order that he turn over certain financial records to U.S. tax investigators.

A truck bearing the records, involving five Goldfine textile firms, took them to the Boston Internal Revenue Service Monday afternoon.

House investigators said Goldfine had borrowed money from Boston Port Development Co., a real estate firm in which he was majority stockholder, over a period of eight years. It said that during this time the company failed to file required reports to the Securities and Exchange Commission.

**Committee Had Right**

Committee counsel Robert W. Lishman said such reports "would have revealed this situation to other stockholders or the public," and that the committee had a right to find out whether SEC regulations needed strengthening or whether "improper pressure" was involved in the SEC's lack of action.

The House voted 369-8 last August to cite the New England industrialist for contempt for balking at 22 questions.

Prosecutors said the number was reduced to 18 because of legal technicalities in the way in which four of the questions were asked at the hearings.

Goldfine is to be arraigned in federal court here Friday. Judge John J. Sirica set bond at $1,000.

If convicted, Goldfine could be sentenced up to one year in prison and fined up to $1,000 for each count in the indictment on which he is found guilty.

# President Visits At Hospital

Washington – (UPI) – President Eisenhower Monday visited three friends who are patients at Walter Reed Army hospital.

He spent 15 to 20 minutes with Secretary of State John Foster Dulles, recovering from an intestinal inflammation that sent him to the hospital Friday.

White House Press Secretary James C. Hagerty said Eisenhower also visited Lt. Gen. Floyd Parks (retired), and Maj. Gen. Leonard D. Heaton, commanding officer of the hospital.

Heaton, who served as a surgeon for both Eisenhower and Dulles, has a stomach ulcer.

The White House said the president's visit with Dulles was not due to any change in the secretary's condition. Hagerty said the President "heard the secretary was in the hospital and he just wanted to say hello."

The State Department reported Dulles was continuing a satisfactory recovery from the intestinal disorder.
