Sample of Ballot Being Mailed to Howard School District Registered Voters

The County School Reorganization Committee is required under the law to recommend consolidations, so as to eliminate all small, non-high school districts such as Howard. There are two, large, adjoining districts with which Howard could be consolidated, Medford and Central Point.

The committee has requested the Howard School Board to conduct a poll to determine the preference of our people and report the results to the reorganization committee at its next regular meeting, Monday, December 22nd, for its guidance.

Medford School District assures us that in case we should decide to consolidate with them, it is their policy to permit those students attending Crater High School to finish at Crater if they so desire, and we have assurance from the Central Point School District that they would follow the same policy with respect to Medford students, in case we should decide to consolidate with them.

It was the feeling of your Howard school board that each of you should make your own investigation as to the possible advantages or disadvantages of consolidation with either Medford or Central Point.

Please indicate your preference below and mail in the self-addressed return envelope, enclosed, so as to reach us prior to said date, at which time your board will hold a special meeting to open and tabulate the ballots.
