Morgan Charges Utility Exerted Pressure on Him

Salem — (UPI) — Public Utility Commissioner Howard Morgan announced indefinite postponement of hearings on a natural gas distribution in The Dalles area and charged that Northern Utility company had exerted heavy pressure on his office. Morgan leaves office Jan. 12.

Northern Utility is owned by Harvey Aluminum company. The utility company was turned down twice in circuit court in attempts to postpone the hearings.

Seek Franchises
Northern Utility and Northwest Natural Gas company are seeking distribution franchises in the Wasco county area.

"The obvious purpose of Northern Utility company," Morgan declared, "has been to delay the hearings so that it can attempt additional maneuvers in its efforts to capture the supply of natural gas in the area of The Dalles for the primary benefit of its parent corporation, Harvey Aluminum company, rather than for the benefit of residential and commercial consumers of gas in the area."

"Heavy Pressure"
Morgan said, "both Gov. Holmes and I have been subjected to heavy pressure by representatives of Northern Utility company in this matter, but we have refused to compromise the public interest by bowing to these pressures."

in a newspaper, she was positive it was the same one.

The other Martin children are Barbara, 14, and Sue, 11.

The family ordered hamburgers and French fries, Miss York said. She recalled the girls wanted to drink soda pop but the father insisted they have milk. They played the juke box, she said.

HALF A LOAF IS . . .
Little Thurlow, England — (UPI) — Half a loaf was better than none in Little Thurlow, but it still was half a loaf less than people here are accustomed to. Little Thurlow's 150 villagers will be given half loaves Sunday under a charity set up 250 years ago. It used to be a full loaf, but an official said the income from the charity had not kept up with the rise in the price of bread.

Toward Freeway
Knotts said that when the family left—in a station wagon—they drove off on old Highway 30 toward the freeway to Portland. He could not recall the color or make of the vehicle. The Martin vehicle was a red and white station wagon of Hood River.

Miss York said that after seeing the family's picture, she notified the Hood River county sheriff's office. An exhaustive search was made in four counties but no trace of the Martins was found.

ELECTION HOLD UP—The special House committee on campaign expenditures formally asked the House of Representatives in Washington not to seat Representative-Elect Dale Alford of Arkansas, until a thorough investigation has been made of his write-in victory over Rep. Brooks Hays. Left to right: Representatives Thomas O'Neill (D., Mass.); Robert Jones Jr. (D., Ala.); Kenneth Keating (R., N. Y.); and Davis Dennison Jr. (R., Ohio). In this picture, Jones is shown delivering a minority report while the majority members listen.

POWER STEERING JETS
Farmingdale, N.Y. — (UPI) — Power steering will be a feature of the 1959 jet combat planes. The Republic F-105 fighter-bomber incorporates an elec-

tronic system that makes steering easy even at speeds of between 150 and 200 miles an hour. The supersonic jet's ground steering system reacts within thousandths of a sec-

ond to assure the pilot immediate control of high speed landings and take-offs.

Pair in Cafe Recall Serving the Martins

Hood River — (UPI) — A waitress and waiter at a cafe here said Friday they are positive they served dinner to the Kenneth R. Martin family of Portland late in the afternoon on Sunday, Dec. 7, the day the family vanished on a Christmas tree hunt.

Clara York and Alfred Knotts, both employees of the Paradise Cafe, said the family came in about 5:30 p.m. Miss York, sister of the cafe's owner, Chuck Cody, said she remembered the man and wife and the daughters because they were "very good-natured, and having a good time."

"Middle Girl"
Miss York said that she particularly remembered the dark-haired "middle girl," or Virginia Martin, 13. When she later saw a picture of the girl
