Caril Fugate Given Life Term

Lincoln, Neb., (UPI)—Caril Ann Fugate, 15, has been sentenced to life imprisonment in the state reformatory for women for aiding mass slayer Charles Starkweather in one of his 11 confessed murders.

Caril, wan but composed, looked directly at District Judge Harry Spencer, her hands clasped behind her, as the judge pronounced sentence.

Spencer read the sentence after overruling Caril's motion for a new trial.

"No prejudicial error was committed," Spencer said. He made the ruling after a week's study of evidence presented in the four-week trial. The judge commented specifically on a charge by Caril's attorney, John McArthur, that the girl had been denied a fair trial because a member of the jury had made a one dollar bet that the girl would get the electric chair.

The bet, Spencer said, was "a reprehensible act and cannot be condoned." Yet, he said, "the question here is whether it prevented the girl from having a fair trial."

He said the court concluded there was no indication that the juror, W. A. Walenta, was motivated in any way by the bet. He added that evidence in the case was conclusive, and that no attempt was made by Walenta to influence other jury members to impose the death sentence. Caril was convicted Nov. 21 of first-degree murder while in perpetration of a robbery in connection with the slaying last January of Robert Jensen, 17.

Jensen's murder was one of 11 confessed by Starkweather, Caril's boy friend, and the one for which the rehaired slayer is slated to die.

War Cloud Near After Declaration

Berlin—(UPI)—The Communist East German government warned the West Saturday that NATO's declaration on the Berlin problem had brought the world closer to war.

A statement by the East German cabinet said the Western alliance had absolutely no right to interfere in Berlin.

The cabinet statement amounted to complete rejection of the West's stand as put forth by the 15 NATO nations in a joint communique ending their Paris meeting Thursday. In the communique, the NATO allies had reaffirmed the West's determination to hold firm in Berlin and urged that a solution to the overall German question be linked to East-West agreements on disarmament and European security.

The East German declaration said the offer of NATO to hold the door open for discussion of wider German problems was just a trick.

It added that the East Germans intended to take over control of air, land and water routes to isolated Berlin from the Russians no matter what the West says.

The tough declaration indicated strongly the East Germans plan to follow their line that the Russian turnover control of the vital supply lines to East Germany would take place without consultation with the West.

Revenue Service Plans Information

Washington—(UPI)—The Internal Revenue Service will run the biggest tax information program in history between Jan. 1 and April 15, the end of the federal income tax filing period.

The service announced Sunday that its campaign to educate the public on how to pay income taxes will save the taxpayers time and money and will cut the government's costs in helping them figure their taxes.

The program will include television spots by Hollywood stars and study courses in high schools and colleges.

Butler Apology To South Wanted

Gulfport, Miss.—(UPI)—Mississippi Democratic Chairman Bidwell Adams has warned the Democratic Party that he will not help raise funds unless national chairman Paul Butler apologizes to the South for his stand in favor of integration.

Adams told southerners Sunday that "Santa Claus has nothing for them except a bag full of integration." He said he would fight integration "even if hell freezes over seven miles thick."
