Tijuana Police Break Up Wild Political Riot

Tijuana, Mexico—UPI—Police used live ammunition and tear gas to break up a wild riot which erupted among an estimated 1,000 persons attending a political meeting.

Some 35 persons sought medical help after the melee in which more than 80 automobiles were damaged.

Louis H. Alvarez, National Action party (NAP) presidential candidate defeated in last July's elections, said "we, the NAP, will keep on fighting until we have finished the regime."

Alvarez, who was speaker at the large outdoor gathering four blocks from Main street late Saturday when the riot exploded, addressed a meeting of 800 persons at Mexicali Sunday, about 100 miles east of here.

Police said this two-hour meeting was peaceful. Deputy police chief Francisco Vias Novoa said Saturday's riot was the worst in Tijuana's history.

The outbreak apparently was touched off by protests against a show of strength by the government which earlier had warned Alvarez that the meeting would be disbanded if a Federal law prohibiting demonstrations was broken.

Fire Trucks Drawn Up Armed police officers were stationed at rooftops overlooking the meeting place and fire trucks were drawn up around the gathering when Alvarez began his talk.

During the speech in which Alvarez labeled the show of force by the government as aggression, someone grabbed the microphone and began shouting anti-government slogans.

The people then exploded into a club-swinging swarm. A hail of stones and bottles was hurled through the air.
